NEWS AND COMMENT MIXED

A Japanese Lady Pays a Visit to the Town—The First Ever Seen Here—Engaged in Missionary Work.

Martin V. Heisenberger, the owner of the southeast corner of the recently burned district, yesterday made a move towards rebuilding. A gang of men have started to tear down the stone foundation walls that withstood the ravages of the fire. The new buildings will be constructed of brick and be three stories high. Brick buildings give a more substantial appearance to a town, command better rents and, of course, are much less liable to destruction in case of fire than frame structures, so that they are more acceptable to both the public and the owner.

Harrisburg has followed in the footsteps of Shenandoah by dropping out of the State League of base ball clubs, and for a like reason—inability to pay the salaries of players. Both towns take great delight in the national sport, but this year the clubs failed to fall into the hands of tight managers. Perhaps they will be heard of with better success next year, although it is doubtful that Shenandoah will have a club in any other than a local league again. The town has many people who will pay a league admission fee, but they are not sufficient in number to make up guarantees such as are required by the State League. Fifteen cents is as much as most of the people who wish to pay care about putting through the ticket window at the gate and the experience of the past two seasons showed conclusively that a great majority of the base ball enthusiasts are opposed to paying any admission fee. When somebody devises a plan by which fence jumping and roosting can be abolished the prospects of the local base ball affairs will become brighter. Until that time it is doubtful that any management will summon enough courage to give the people league ball. Something besides watchers is required. The number of special police required to successfully cope with the evil would eat up nearly all the gate receipts.

On Thursday Shenandoah was for the first time visited by a female representative of Japan. The lady was Miss Yoshida, a Japanese bible woman. She was in attendance at a meeting of the Women's Missionary Society connected with the Schuykill Classis of the German Reformed church and made an address there in excellent English. Like all mining towns, Shenandoah has within its limits representatives of scores of different nationalities, but the Japanese are not among them and no Japanese woman ever visited the town until Miss Yoshida came. Japanese men have frequently visited the town with circuses and theatrical companies. A Chinese woman has never visited Shenandoah, but they are so scarce in this country that this fact is not surprising.

Halt, Columbia! It is a happy land that is covered with milk and honey, but the land in which Columbia beer flows freely is the Mecca of the age. Columbia beer leads all and its popularity is outstripping that of all others brewed.

Will Hold a Festival. Co. A, Jennings Guards, will hold an ice cream festival in Robbins' opera house on the Fourth of July and it is expected that the event will draw an attendance from a number of similar companies in various parts of the region, as well as the townspeople. The organization is composed of young men who are very popular, and the excellent appearance they have so frequently made on public parade justifies them in resorting to a festival as a means for securing a new outfit.

Attention, Citizens!

A meeting of the committee on joint Fourth of July parade will be held in the Columbia H. & S. F. E. Company's rooms on Monday, 17th inst., at 7:30 p. m. By order of

A Good Suggestion.

ROCHESTER, N. Y.—John Davies of this city, took a severe cold and suffered pain through the back and kidneys. His physician pronounced his case grave, and failed to help him. Dr. David Kennedy's Favorite Remedy was recommended, and after taking 150 bottles he considered himself cured. It has never failed in this or urinary troubles.

THE BOARD OF HEALTH

Business Transacted at a Meeting Last Night.

VITAL STATISTICS REPORTS.

Sewerage of the Town Discussed. North Main Street People Must Connect Their Properties With the Nearest Sewer.

A meeting of the Board of Health was held last night after two ineffectual attempts to get a quorum on previous evenings. The members in attendance were Messrs. Miles, Bronghail and Spalding.

The epidemic committee reported four cases of diphtheria and one of typhoid fever since the last meeting and 44 deaths. One of the cases of diphtheria resulted fatally.

There was considerable discussion regarding the lack of sewerage in some parts of the town and it resulted in a motion conveying to the Health Officer instructions to serve notice on the owners of properties located on the west side of North Main street, between Centre and Lloyd streets, to make connections with sewers where they have not already done so.

The board also gave instructions for the abatement of a nuisance on Peach alley and the Health Officer reported South Pear alley in a filthy condition. He stated that the thoroughfare is continually blocked by heaps of ashes and by beer kegs and wagons.

THOUGHTS OF THE MOMENT.

Tersely Paragraphed by the Pen and Pencil Men.

It is cheaper for a young man to ride in the street cars all evening than to stroll. Electricity does not permit stoppage at ice cream saloons or even the reading of a sign easy.

The worst punishment you can inflict to a boy or girl for infraction of home or school rules, is to deny them the privilege of going to the circus.

There is a sad warning to those who are in the habit of moistening envelope flaps with their tongues in the death of a Chicago man who was fatally poisoned by this means. He cut his tongue slightly in drawing the flap across his tongue and in one week was a dead man. This is the only case of the kind on record, but it is a great wonder that there are not others.

The 118th anniversary of the adoption of the stars and stripes by the Continental Congress was not observed by many of our townspeople. As yet, Flag Day is not very generally observed throughout the country, but there is reason to believe that as years go by it will become more and more popular with the people as an occasion of public rejoicing.

It is said that Frank Siddall, the great soap manufacturer of Philadelphia, never used fence painting or circulars for advertising, but struck to the newspaper; yet he became a millionaire. There is nothing strange about this when you remember that Mr. Siddall was the gentleman who said that "People who never read newspapers don't use soap."
