**WORK OF ORE THIEVES.** Colossal System of Stealing in a Colorado Mine. CARRIED OUT BY THE MINERS. Half the Output Taken Away During Some Months by an Organized Gang of Robbers—The Mine Closed Indefinitely Pending an Investigation. DENVER, June 17.—Such a colossal system of stealing from the rich Golden Fleece mine, at Lake City, Hinsdale county, has been unearthed that it is announced the company will indefinitely close down while an investigation is in progress. To such an extent had the stealing proceeded that thousands of dollars' worth of rich gold-bearing ore every month had been carried off by the company's operatives. An amount equal to half the output of the mine has been stolen during several months. This would mean a loss to the concern of \$20,000 monthly. The method of the thieves was to carry off small pieces of the ore on quitting their work, and then ship their stealings to other points, or sell them in Lake City. The Fleece is owned in Denver, but in the same district there are extensive properties owned by eastern capitalists, notably the Suffolk mine, which is one of the leading dividend payers of southwestern Colorado. The stock of the latter company is owned in Hartford, but is not affected, unless it should be discovered that the robberies are the result of an organized effort of the miners in the district. The Fleece paid its June dividend at the regular rate of two cents a share, but the directors have decided that monthly payments will be suspended until they find out the extent of their losses. In an interview one of the officials of the company makes the statement that at times the amount stolen has exceeded one-half of their monthly output. If such be the case this robbery becomes stupendous, as the output of this bonanza mine has averaged at least \$40,000 per month. These colossal figures seem possible only when the extraordinary richness of their high grade ore is taken into consideration. The company has announced a reward of \$1,000 for information leading to the arrest and conviction of every person implicated in these robberies. The managers insist that there has been an organized gang at work making shipments to various parts of the state, and even to Mexico, from where the ore was shipped to the smelters. They say they will run down every member of the gang if it costs them \$50,000 to do so. They have placed sentinels at all the workings to prevent further thefts. Some time ago the Victor, of Cripple Creek, felt called upon to discharge its entire force because of similar pilfering of high grade ore, which amounted to thousands of dollars. The plan of having but one entrance to these high grade mines and of a rule that the working force going in and going out shall make a complete change of clothing will probably follow as the only corrective measure for this evil, which has been growing in recent years.

**Murdered in Her Bed.** RALEIGH, June 17.—Mrs. E. S. Pollard, wife of a farmer living near Oxford, was murdered in her home. Mr. Pollard had left the house for an hour, and on his return found his wife's body with the skull crushed by blows. The house had been robbed of \$800 in gold. A negro woman who had been left with Mrs. Pollard was arrested, and the evidence against her is very strong. Two other negro women and a white man were also arrested.

**AN IRATE HUSBAND.** Stabs His Wife to Death and Mortally Wounds Her Alleged Paramour. LOUISVILLE, June 17.—Arthur Gourdin, a shoemaker living at Rowittown, a suburb of Pewee Valley, eighteen miles from this city on the Louisville and Nashville railroad, shot and probably fatally wounded Thomas Murphy and then stabbed his wife to death last night. Gourdin suspected Murphy of being intimate with his wife, and had evidently waited for an opportunity to settle the score. This opportunity came last evening when Murphy was passing Gourdin's house on horseback. Gourdin was sitting on his porch, and when Murphy came up Gourdin drew a revolver and commenced firing, wounding Murphy in several places and killing his horse under him. Mrs. Gourdin rushed out of the house and her husband told her to go away, but she refused to do so, and he then hit her several times with the butt of his revolver, driving her back into the house, where he seized a knife and stabbed her eleven times, killing her almost instantly. The dead woman leaves four children, ranging in ages from 1 to 13 years. Gourdin was arrested and placed in jail at La Grange.

**WHOLE TOWN IN DANGER.** The Town of Audenried Settles and Its Citizens Are Frantic. HAZLETON, Pa., June 17.—The supporting pillars in the Beaver Brook mine began to give way during the night, and the town of Audenried, which is built immediately over it, is thrown into a state of wildest excitement. The gangways of the mine are 600 feet below the surface, and a total collapse means the complete destruction of the town. The people were warned of the peril by fissures and openings which appeared in the earth between the hotel and the company store and immediately beneath the houses of the most prominent townspeople. Several buildings crumbled to one side, throwing their occupants from their beds. People were frantic, and pandemonium reigned throughout the town. The openings in the earth continue to become wider and more numerous, and a total collapse is momentarily looked for. Nobody thought of saving household effects, and these are left in the houses. Among the houses destroyed are those of Mine Superintendent D. R. Roberts, General Manager H. E. Lubken, John McGee and William Bailey.

All came with the expectation of witnessing the triumph of the favorite, Domino, and in no former year had such a decided favorite been slated for any of the great races of the season. The result of the contest was a great surprise. Domino collapsed utterly three furlongs from home and was no better than fourth at the finish, while victory perched upon the colors of the Erie stable, their 4-year-old, Lazzarone, by Spendthrift, out of Spinaway, winning most decisively, while the Oneek stable's Sir Walter was second and the Blanton stable's Song and Dance was third. Time, 2:07 1/4.

GAINESVILLE, Fla., June 17.—The following letter, written by Major F. P. Bunn, of the Cuban army, has been received by a friend in this city. Major Bunn was formerly from Pennsylvania, and has been in the Cuban service three months. The letter is as follows: "ARENAS RIVER, Cuba, June 10.—The most important expedition that has landed Cuban soil from the United States is landed to-day. It consists of 100 men, 1,000 repeating rifles, 2,000,000 rounds of ammunition and \$50,000 in gold, under command of Colonel Hernandez. The vessel which conveyed them left Key West June 6, and sailed for Bahía Isabela, where it took on the men and cargo. She was chased twice by Spanish cruisers, but managed to outsteam them and arrived here before day this morning. "We are now making arrangements to join Gomez at Tunas, province of Camaguey, where he has his headquarters. We have a march of about forty miles before us, but hope to join him on the 12th. The landing was protected by a battalion of troops from Gomez's army, who hope to join him without serious fighting, as no Spanish soldiers are in this immediate neighborhood. "I am just recovering from attack of yellow fever, but shall risk joining my command again. We have positive news that Martí is dead. He was betrayed into Spanish hands by a trusted Cuban guide and shot down in cold blood before he could escape. I hope to have more definite news of his death and other matters as soon as I rejoin my command. "Spain is said to have paid \$18,000 for Martí's assassination. "Many small armed bands are in the vicinity of Havana. Martinez Campos awaits more troops from Spain at Nuevas Masas. Antonio Maceo, Miro and other leaders, with 2,000 men, are near Sibana in possession of a small town. They had a fierce battle between Gibara and Holguin on a railway bridge, which was afterwards burned. A convoy has been captured. Many prisoners were taken and a large sum of money was captured. "Guanebaco, an hour's ride by rail from Havana, is greatly excited by the appearance of strange ships in the offing. General Arderius, second commander of the Spanish forces, has ordered a concentration of troops to prevent a landing of filibusters. Cuavitas, near Santiago, was burned by the insurgents under Major Duran on the 6th. Cummings refused to give it up and fled from the village with Comitz in hot pursuit. The watch dealer escaped, but came back later. Comitz saw him and advanced towards him with a knife in his hand. **WORK OF ORE THIEVES.** Colossal System of Stealing in a Colorado Mine. CARRIED OUT BY THE MINERS. Half the Output Taken Away During Some Months by an Organized Gang of Robbers—The Mine Closed Indefinitely Pending an Investigation. DENVER, June 17.—Such a colossal system of stealing from the rich Golden Fleece mine, at Lake City, Hinsdale county, has been unearthed that it is announced the company will indefinitely close down while an investigation is in progress. To such an extent had the stealing proceeded that thousands of dollars' worth of rich gold-bearing ore every month had been carried off by the company's operatives. An amount equal to half the output of the mine has been stolen during several months. This would mean a loss to the concern of \$20,000 monthly. The method of the thieves was to carry off small pieces of the ore on quitting their work, and then ship their stealings to other points, or sell them in Lake City. The Fleece is owned in Denver, but in the same district there are extensive properties owned by eastern capitalists, notably the Suffolk mine, which is one of the leading dividend payers of southwestern Colorado. The stock of the latter company is owned in Hartford, but is not affected, unless it should be discovered that the robberies are the result of an organized effort of the miners in the district. The Fleece paid its June dividend at the regular rate of two cents a share, but the directors have decided that monthly payments will be suspended until they find out the extent of their losses. In an interview one of the officials of the company makes the statement that at times the amount stolen has exceeded one-half of their monthly output. If such be the case this robbery becomes stupendous, as the output of this bonanza mine has averaged at least \$40,000 per month. These colossal figures seem possible only when the extraordinary richness of their high grade ore is taken into consideration. The company has announced a reward of \$1,000 for information leading to the arrest and conviction of every person implicated in these robberies. The managers insist that there has been an organized gang at work making shipments to various parts of the state, and even to Mexico, from where the ore was shipped to the smelters. They say they will run down every member of the gang if it costs them \$50,000 to do so. They have placed sentinels at all the workings to prevent further thefts. Some time ago the Victor, of Cripple Creek, felt called upon to discharge its entire force because of similar pilfering of high grade ore, which amounted to thousands of dollars. The plan of having but one entrance to these high grade mines and of a rule that the working force going in and going out shall make a complete change of clothing will probably follow as the only corrective measure for this evil, which has been growing in recent years.

**Lauer's Lager and Pilsner Beers,** Finest, Purest, Healthiest. Chris. Schmidt, Agent 207 West Coal Street, Shenandoah. NEW FASHIONS. The Godet Even for Trained Skirts—Yellow Lace. Fashions of the Henri Quatre period are to be revived this season. Its peculiarities are not of the tempting order. Its skirts are wide and full, its sleeves distended and fully slashed and the waists much whaleboned. It remains to be seen if women, to whose repertory of pastimes skating and bicycling are being rapidly added, will condone or condemn these faults and take kindly to the revival or simply ignore it. As to crinolines, the great width of the fashionable skirt and its distension by means of wire and horsehair would seem to be a forewarning of its coming, and one wonders if faith in the common sense of wome-

**LANDED ON CUBAN SOIL.** An Important Expedition from Key West Arrives Safely. MEN, GOLD AND AMMUNITION Brought by the Vessel, Which Was Chased Twice by Spanish Cruisers, but Succeeded in Out Steaming Her Pursuers—Martí Was Betrayed. GAINESVILLE, Fla., June 17.—The following letter, written by Major F. P. Bunn, of the Cuban army, has been received by a friend in this city. Major Bunn was formerly from Pennsylvania, and has been in the Cuban service three months. The letter is as follows: "ARENAS RIVER, Cuba, June 10.—The most important expedition that has landed Cuban soil from the United States is landed to-day. It consists of 100 men, 1,000 repeating rifles, 2,000,000 rounds of ammunition and \$50,000 in gold, under command of Colonel Hernandez. The vessel which conveyed them left Key West June 6, and sailed for Bahía Isabela, where it took on the men and cargo. She was chased twice by Spanish cruisers, but managed to outsteam them and arrived here before day this morning. "We are now making arrangements to join Gomez at Tunas, province of Camaguey, where he has his headquarters. We have a march of about forty miles before us, but hope to join him on the 12th. The landing was protected by a battalion of troops from Gomez's army, who hope to join him without serious fighting, as no Spanish soldiers are in this immediate neighborhood. "I am just recovering from attack of yellow fever, but shall risk joining my command again. We have positive news that Martí is dead. He was betrayed into Spanish hands by a trusted Cuban guide and shot down in cold blood before he could escape. I hope to have more definite news of his death and other matters as soon as I rejoin my command. "Spain is said to have paid \$18,000 for Martí's assassination. "Many small armed bands are in the vicinity of Havana. Martinez Campos awaits more troops from Spain at Nuevas Masas. Antonio Maceo, Miro and other leaders, with 2,000 men, are near Sibana in possession of a small town. They had a fierce battle between Gibara and Holguin on a railway bridge, which was afterwards burned. A convoy has been captured. Many prisoners were taken and a large sum of money was captured. "Guanebaco, an hour's ride by rail from Havana, is greatly excited by the appearance of strange ships in the offing. General Arderius, second commander of the Spanish forces, has ordered a concentration of troops to prevent a landing of filibusters. Cuavitas, near Santiago, was burned by the insurgents under Major Duran on the 6th. Oliva, the guide that is claimed to have assassinated Martí, is in the Hospital Principe Alfonso, wounded dangerously in the left breast with a rifle ball, said to have been inflicted in battle, but it is thought the Cubans tried to kill him.
