

BURGLARS RAID GIRARDVILLE.

Enter Four Places and Get Considerable Booty.

Early this morning burglars entered four different houses at Girardville and, after robbing them, succeeded in making their escape without detection.

The houses entered were those of John Groody, conductor for the Schuylkill Traction Company, Thomas Brennan, Mrs. Gorman (saloon) and John Burns. Groody was the heaviest loser.

THE MONROE DOCTRINE

It May Again Lead Us Into International Complications.

GERMAN VENEZUELAN INTERESTS.

They May be Used as a Subterfuge for Acquiring an Island Off the Coast, and This Would Call for Interference by Uncle Sam.

WASHINGTON, June 18.—There is reason to believe that the United States government will have occasion at no distant day to give another interpretation of the Monroe doctrine as applicable to the acquisition of an island off the coast of Venezuela to be used by Germany for a naval station.

An enormous amount of German capital has been invested in Venezuela of late under peculiar circumstances. The government wanted a railroad through a rich and productive valley, and a German syndicate stood ready to build the road on condition that Venezuela would guarantee 7 per cent. on the capital invested.

It was supposed that about \$4,000,000 would amply cover the cost of the road, but the actual outlay reached about \$8,000,000. By the terms of the guarantee Venezuela now becomes responsible to the German syndicate for a 7 per cent. return on this \$8,000,000.

It is said to be this and similar German interests that are inclining the German government to regard with favor the acquisition of an island off the Venezuela coast to be used as a naval station, and as a sort of base of operations for Germany on the American continent.

The circumstances are such as to lead to the belief that the United States will be called upon again to define to what extent the acquisition of territory by foreign powers on South American soil, is compatible with the Monroe doctrine.

Great Britain already possesses an island at the mouth of the Orinoco, on which a powerful naval station has been established. There are two other islands near by, owned by Venezuela, either of which would be well adapted to Germany's needs.

Official intelligence has recently reached here that Sir Vincent Barrington, representing the most extensive British interests in Venezuela, has most strongly urged upon the British government the importance of an amicable settlement with Venezuela as a means of protecting British investments in that country.

THAT'S QUEER!

You say a collar and cuff that are waterproof?

Yes. And perspiration will not affect them?

Yes. And when dirty you need only wipe them off with a wet cloth or sponge?

Yes. Wonderful! How are they made?

A linen collar covered on both sides with waterproof "CELLULOSE." Looks exactly like a linen collar.

Is it the only waterproof collar and cuff made?

No, but it is the only one made with the linen interlining and consequently the only one that can give entire satisfaction, because it is the best.

How can I know that I get the right kind?

Because every piece is stamped as follows:

Inquire for that and refuse anything else, or you will be disappointed.

Suppose my dealer does not have them?

He probably has, but if not, send direct to us, enclosing amount. Collars 25c., Cuffs 50c. State size, and whether collar wanted is stand-up or turned-down.

THE LAST HOPE.

A Delegation of Citizens Will Urge a Veto of the Quay County Bill.

In response to letters sent out to the members of the Legislature and representative citizens, inviting them to meet at the office of Hon. C. N. Brumm, in the Shisler building, to consider the new county bill and the best method to pursue to have it vetoed, there was a full attendance.

It was learned that the petitions now being circulated through the section of the county to be taken from us if the bill is approved, are finding ready signers. In Rahm township over 500 signatures have been obtained and Delago comes to the front with the name of every citizen on the petitions.

All the big coal and railroad companies are opposed to the measure and they will send representatives to Harrisburg. A committee composed of Hon. C. N. Brumm, Senator Coyle, Hon. Joseph Wyatt, Burr S. Payne and C. Shumway, was appointed to co-operate with the County Commissioners and interview the Governor to-day. This committee was also instructed to draw up resolutions in the form of a petition expressing the sentiment of the citizens and the following was reported and unanimously adopted:

To His Excellency, Daniel H. Hastings, Governor of Pennsylvania.

We, the undersigned Senators and Representatives of the County of Schuylkill, respectfully represent that

WHEREAS, The people of Schuylkill county are almost unanimously opposed to the dismemberment of our county because they believe that it will be seriously detrimental to their business interests, and will materially disorganize and weaken their political power and organization and largely demoralize their most excellent school system and render assunder many of their dear social ties and destroy much of its history of which they are proud; and

WHEREAS, Almost all the residents of a territory contemplated to be taken from the County of Schuylkill earnestly appeal to us as their representatives to use all the means in our power to prevent the consummation of this wrong upon them; and

WHEREAS, The bill was log-rolled through by broken promises against the will of all the Senators and Representatives of Schuylkill county; and

WHEREAS, The bill though purported to be a general bill is purely local in its effect, we believe that it would be hurtful and pernicious in its operation. Therefore be it

Resolved, That we earnestly request your Excellency to exercise your constitutional power and veto this unjust measure. And we will ever pray, etc.

The committee was also empowered to invite representative citizens to go to Harrisburg and use their influence. The committee went to Harrisburg last night.
