

THE EDUCATION OF PLANTS.

More than a hundred years ago a Jesuit missionary found a certain bark (now called calisaya or cinchona) in use among the tribes of Peru as a cure for fever. This led to the discovery of quinine—its alkaloid and active principle. Originally containing but a very small percentage of the active principle, the bark of this tree, under careful cultivation, now yields several times the amount.

By the same method the Shakers of Mt. Lebanon, (N. Y.) have developed, but as to quantity and quality, the medicinal principles of the herbs from which the Shaker Digestive Cordial, their well-known remedy for indigestion and dyspepsia, is now made. They have persuaded nature to do for suffering humanity vastly more than she at first intended. As quinine is without a rival in its own field so this preparation of the Shakers is destined to become, for all the ailments of the digestive tract,—now grouped under the general head of dyspepsia.

Some of the symptoms calling for its use are as follows: Distress after eating; sickness and nausea; pains in the head, chest, sides and back; foul taste in the mouth and the rising of an offensive gas from the stomach; costiveness and irregular action of the bowels; variable appetite; sick headache; ringing in the ears; palpitation and heartburn; loss of sleep; the "fidgets"; a tired and weary feeling; sore muscles; mental depression, etc.

To relieve and cure this universal disease (the source of most others), the Shaker Digestive Cordial is expressly adapted. Like quinine it is a specialty, a specific. Its good effects are felt at once. Unlike quinine it is pleasant to the palate, always effective, never harmful. For this the Shakers pledge their reputation as herbalists. And its success thus far bears them out.

GET A MOVE UPON YOU and help along the Fourth of July demonstration.

THERE should be a general cleaning up of the town the day before the Fourth. Thousands of strangers will be here and a good impression should be made upon them.

IF the nuisances already complained of are not abated it will be in order to report the same to the State Board of Health, and then somebody will get hurt.

THE Traction and Lakeside Electric Railway Companies are making preparations to carry large numbers of people on the Fourth. The officials of the roads realize that the day is to be a big one.

WITH Pawnee Bill's Wild West with us on the Fourth and the big demonstration by the people at least ten thousand people ought to be drawn to the town.

Comes high—The roof.

When Ponce-de-Leon sought to find the fountain giving back lost youth, it may be that he had in mind that draught which seems to make a truth.

Out of the fabled ages old, For drinking it the old grow young. It is, indeed, a draught of gold, Surpassing all by poets rung. The draught meant is Dr. Pierce's Golden Medical Discovery, of course. It is a most potent rejuvenator of the weakened and debilitated system. It drives out all poison, all impurity, enriches the blood, and makes the old and worn out feel young and vigorous. Ponce-de-Leon didn't discover it, but Dr. Pierce did, and he rightly named it when he called it a "Golden Discovery."

Dr. Pierce's Pellets cure permanently constipation, indigestion and headaches. All dealers.

Sir Julius Panchefote's praise of the St. Louis continues to excite English people greatly.

GERMANS CHEER FRANCE

Cordial Greetings for the Former Enemies of the Empire.

GREAT DAY FOR EMPEROR WILLIAM

The Nations of the Earth, Through Their Warships, Do Him Honor on the Opening of the Baltic Canal—Fine Appearance of Uncle Sam's Vessels.

HOLTENAU, June 21.—With much pomp and ceremony, and with the great powers of the world, through the guns of their warships, saluting him, Emperor William of Germany yesterday formally opened the Baltic and North Sea canal. He entered the western opening of the new waterway at Brunshutzel, not far from Hamburg, shortly after daylight on board the Imperial yacht Hohenzollern and arrived at the eastern opening of the canal here shortly after noon.

There were three mishaps, all of a slight nature, during the passage of the Imperial procession of about twenty vessels through the canal. The North German Lloyd steamship Kaiser Wilhelm II grounded for a short time, but sustained no damage. The Russian gunboat Groznoyetschki apparently deranged her machinery, for she was taken in tow by a tug, and the British royal yacht Osborne, with the Duke of York and his suite on board, grounded near Levensau bridge. This was the most serious mishap of the day, as all the vessels following her had to anchor for a long time. However, she was eventually floated and proceeded on her way to Holtenuau, after having caused a bad break in the procession.

Both shores of the canal were lined with cavalry and infantry throughout the passage of the procession, and every point of vantage along the route of the new waterway was occupied by thousands of people, gay decorations were to be seen everywhere, flags innumerable floating from every point, and an immense amount of powder was burned by the assembled squadrons when his majesty, on the Hohenzollern, emerged safely and triumphantly from the Holtenuau lock of the canal.

One of the features of the day was the warm and friendly reception given to the French gunboat Sarcos as she steamed through the canal in the procession. The French flag was cheered to the echo, and the bands played the "Marseillaise" as the French ship went by.

Another good feature of the celebration was the dinner given on board the Hoche, the French flagship, to the officers of the German battleship Bayern, who had entertained the French officers on Wednesday. Upon the latter occasion the German commander toasted the French president at the same time as he toasted the German emperor, and referred to the international feeling of comradery existing among naval men all the world over.

The French commander, Admiral Monard, at yesterday's dinner, on board the Hoche, responded with a similar toast, which was vigorously applauded, and so the utmost good feeling seemed to prevail on all sides.

In short, Emperor William appears to have engineered a brilliant spectacle in which he, and not the canal, seems to have been the central figure, and it is safe to imagine that it was one of the proudest days of his life.

Last, but not least, it is pleasant to know that the warships of the United States—the New York, Columbia, San Francisco and Marblehead—formed a striking feature of the naval display. They stood out grandly among the other warships, their white hulls gleaming in the sunshine, contrasting prettily with the dark hulls of the foreign warships, and their smart appearance causing them to be greatly admired by all.

No Tror'le at Congress Mine.

PHOENIX, Ariz., June 21.—A telegram has been sent by the Italian consul at Denver to Governor Hughes asking him to protect the Italian laborers in the Congress mine, eighty miles north of Phoenix, adding that the consul had telegraphed Secretary Olney the situation and asked his interference to protect their lives. Later a telegram from Secretary Olney arrived, saying: "Protect the Italian miners at Congress mine." N. O. Murphy, delegate to congress, telegraphed immediately and received the reply: "No trouble here, and but few Italians employed."

Constable Shot by a Tramp.

LANCASTER, Pa., June 21.—Constable Robert Leech, of West Hempfield township, and ex-Constable James Callahan, of Columbia, attempted to arrest a gang of six tramps on a Pennsylvania railroad bridge near Columbia, but met with determined resistance. Callahan was shot by one of the gang, the bullet entering his mouth. Thinking Callahan dead they were preparing to throw Leech over a high embankment when Callahan began firing at them, and all fled. Callahan's condition is serious.

Lambert's Appeal Served.

LAMBERTVILLE, N. J., June 21.—Any doubt that may have existed in the mind of the sheriff of Camden county as to the stoppage of his right to hang Theodore Lambert by the appeal taken to the United States supreme court was dispelled when Lawyer Siple served the appeal on him. It is signed by Judge Green, of the United States circuit court, and acts as a stay of execution until further action of the United States supreme court. Lambert was to have been hanged next Thursday.

To Speak for Monometallism.

INDIANAPOLIS, June 21.—Ex-Congressman William D. Byrum has entered into an agreement with the Sound Money league to make twenty "sound money" speeches in Indiana of a non-political nature. The opening speech will be made July 5, and Mr. Byrum will thereafter make two speeches a week. Most of these speeches are to be delivered in southern Indiana, where the silver sentiment is the strongest.

Forfeited \$7,000 Bail.

RICHMOND, Va., June 21.—Frank S. Smith, alias Parker, was arrested in January for swindling W. S. Withers, of Gloucester county, out of \$7,000 by means of a gold brick. He failed to appear in court yesterday, and forfeited his bail. It is rumored that Parker has sailed for Europe.
