EVENING HERALD THE THEORY OF THE DIGESTION OF FOOD.

OF FOOD.

The human stomach is a pear-shaped bag into which all food drops at once when swallowed. Three things happen:—the blood rushes into the substance of the stomach (not into its inferior) to heat it; thousands of little duets or pipes pour cepiously forth a fluid called the gastric juice; and, then, the stomach begins a wave-like, churning movement which thoroughly mixes the gastric juice with the food, and by-and-by changes the whole into a gray looking, semi-liquid paste called chime. This is digestion as it takes place in health.

But, look you! If the stomach fails to furnish the gastric juice, or fails to furnish the gastric juice, or fails to furnish the gastric luice, or fails to furnish the stomach and turns sour, puirefies, ferments—as it would in a warm, moist air outdoors. This is indigestion, dyspepsia or gastritis. Having no other way of escape the poisons so engendered pass into the circulation and set up a train of results like these; headache; foul taste in the mouth; loss of appetite and nausea; furred tongue; disordered heart action; nervous weakness and prostration; chills followed by heat flashes; distress and weight in the chest after eating; fugitive muscular pains, followed in time, by grave local ailments, etc. All this, bear in mind, comes of a more or less complete fulure of the stomach to secrete gastric juice. fallure of the stomach to secrete gastric

fallure of the stomach to secrete gastrie juice.

Having studied this subject for many years the Shakers of Mt. Lebanon, (N. Y.)—famous as medical chemists and herbalists—sought among the plants cultivated by them only for a remedy which should have the distinct and especial effect of stimulating the flow of gastrie juice to a normal amount and at the same time of the full, natural digestive strength. No other so-called remedies for dyspepsia have this purpose in view, yet it is the absolutely essential thing. Successful in their efforts, even beyond their hopes, they have placed their discovery on the market under the name of he Shaker Digestive Cordial. Its effects are immediate and radical. Relief is felt at once and a permanent cure soon follows. It is the sure and scientific remedy for Indigestion and dyspepsia.

Will Join the Professional Ranks.

NEW YORK, June 25.—Walter C. Sanger, of Milwaukee, and W. P. Sims, of Washlugton, two of the most prominent bicyclists in America, were yesterday sus-pended from the racing track of the League of American Wheelmen by Chair-man Gidson. A telegram to the American Wheelmen from Philadelphia says that the two riders were suspended for thirty days from all races, and Walter Sanger is reported to have said that he will immediately join, the professional ranks. The charge against Sims is that at the races at Waltham, Mass, last week he accepted a check in lieu of the prize won by himself. Sanger is charged with a like offense, as well as with selling his

Urging Welsh Workmen to Strike. PITTSBURG, June 25.-Officials of the Amalgamated Association of Iron and Steel Workers announce that conferences have been held with the representatives of the Welsh Tin Plate Workers' union, and had been positively assured that there would be a general strike in the tin plate factories in Wales in August. The Amalgamated officials are urging the Welsh workers to strike because if a lower rate of wages should prevail it would necessitate reductions in the tin plate factories in this country in order to compete with the foreign tin. While the Amalgamated officials do not state positively that the tin plate workers of America will contribute toward the strike, they indicate as much.

Murder Conspirators Convicted.

FORT SMITH, Ark., June 25 .- The jury in the Kittenringe case in the United States court returned a verdict of guilty against all three defendants, Mrs. Mary A. Kittenringe, George Washington Fra-zier and Richard Calhoun. This ends the most important and mysterious murder case ever tried in Arkansas. The victim was Mrs. Kittenringe's husband, who was beaten to death by the side of the read near his home at Muldrow, I. T., for, it is claimed, \$2,000 insurance on his life. The prosecution's testimony revealed a conspiracy of long standing.

Another Row in the Italian Deputies. ROME, June 25.—The Italian deputies had a noisy sitting yesterday. During the debate on the Cavalotti-Crispi quarrel, involving charges by Signor Cavalotti of a scandalous connection on the part of Proscandalous connection on the part of Pre-mier Crispi with the Banca Romana, the president's refusal to allow Signor Cava-lotti to speak led to an uprour and the sitting had twice to be suspended.

Entombed in a Mine Since October. SHAMOKIN, Pa., June 25.—The bodies of George Brown and William Bucavage,

who lost their lives in the Luke Fidler mine fire on Oct. 8 last, were recovered yesterday. All of the five victims have been found, but twenty dead mules still remain in the drowned out workings. The remains of Brown and his laborer were badly decomposed.

Murdered His Bride of a Day,

Boston, June 25.-Frank Brown, an Italian, who was married Sunday night, fired four shots at his bride yesterday, one of them taking effect in her left side. Af ter the shooting Brown fled without coat and hat, and ran in the direction of Chelsen, since which time he has not been seen. The victim died soon after.

Killed by a Lightning Flash. SAVANNAH, June 20.-A house in Cnyler Swamp, near this city, in which some negro blackbarry pickers had taken refuge, was struck by lightning yesterday after-noon. Maria Johnson was killed, an in-fant was fatally injured and Jane Bell

in Bank. The wholesale slaughter of the innocent lambs by the Sands & Astley circus fakirs is the talk of the town says the Potteville
Miners' Journal. Very little pity is
expressed for those who tried to beat the
fakirs but got beat themselves and then squesied. Potsville furnished the bigg at crop of suckers that the skin game frater-nity met with this sea-on. The suckers bity met with this season. The suckers were so thick that they held their heads up and whistled for bait. What is most surprising is that the tellows who read the papers and know all about the tricks of the professional gambiers were bigger suckers than the Rubes.

One of the biggest swindles was thwarted by a combination of circum-stances. George Coover, of Indian Run, came to town on circus day to see eights and fell into the hands of the fakirs. He was told that if he could show up \$750 by 3 P. M. he would draw the cash prize of \$1,500, which was only offered at every county seat. He hastened to Hasseler's tobacco store to get the money, but was advi ed to go home and steer clear of the gamblers. Coover has money in the Miners' National Bank, but as the bank was closed be tried all be knew how to get it out. He went to see L. C. Thompson, who is a brother of the president of the bank, and was told to look up Cashier De Frebn. Coover said he wanted to close a land deal and had to be at Indian Run at 3 o'clock. Mr. De Frehn had one of the combinations, but as Mr. Stein had the other and was at Tumbling Run, Mr. Thompson orgued to send a messenger after him. But it was too late to do that if Coover intended to meet his ergagement with the circus sharper at 3 o'clock and so the movey still remains in the bank-
