FOREMAN CHARLES ROLFE.

Superintendent of One of the Biggest Composing Rooms in America.

Up in the top story of The Globe building, where the typesetting and other machines do everything but talk, says the Boston Globe, there is a pleasant-faced, clear skinned, light complexioned man of 32, who has been with the Globe ever since the birthday of that great paper.

Nervous headaches that well-nigh drove him to distraction first introduced him to Paine's celery compound. That was five years ago, and until that time he was one of the most pronounced opponents of prepared remedies to be found in the city.

Just how Paine's celery compound was first brought to his attention he does not remember, but it has done him so much good that the compound has no more enthusiastic champion living. He is as happy as any one in the enjoyment of good health could be, and for that happiness he gives full credit to Paine's celery compound.

"I am always ready to recommend Paine's celery compound when I here of a case similar to my own. Some five years ago I was suffering from headaches which were sometimes so severe during working hours of the night that I would clasp my hands over my head to 'hold the top on,' the pain being excruciating. These attacks would occur sometimes as often as three times a week. Sleep was out of the question, the pillow seeming but a block of wood.

"Just at the time I was suffering most I bought a bottle of Paine's celery compound, began at once to take it, and before a week had passed the headaches began to disappear. I felt almost a new man before the bottle was empty. I purchased more, and for two years kept it in the house for use

whenever I felt a return of the old pains. It never failed in giving me relief. The other members of my family also began to take it—my wife for a feeling of general weakness, she being at that time much 'run down' and never feeling well enough to perform the work of the home. Within a week she was, as she expressed it, 'as well as ever in her life,' and similar reports came from all our friends to whom we had recommended it.

"I feel confident that in nervous headaches and a 'run down' system the compound will be beneficial every time, if not a perfect cure.

"In some instances we have not only recommended it, but furnished it to very aged friends, and the effect of one bottle has seemed marvelous, one particular old friend of mine telling me that before one bottle had been used he 'felt at least ten years younger, and certainly had not felt as good for two years.'

"During the last five years I have used a great many bottles of the compound—that is, in my home. I am positive that it is a sure cure for nervous headaches and a broken-down feeling, especially in the case of elderly persons.

"There is one case in particular I call to mind, in which Paine's celery compound asserted its good qualities. We had a young married lady friend, who was nursing her 4-month-old child, and I found that she could not perform her household duties on account of the weak condition she seemed always to be in. On the recommendation of my wife and myself she took one bottle of the compound, and before two weeks had passed was able to do her own washing even, in addition to housework. About three bottles were used. I have yet to hear from any friend to whom I recommended it other than the most favorable results."

Anyone who suffers from that terrible plague, itching piles, will appreciate the immediate relief and permanent cure that comes through the use of Dean's Ointment. It never fails.

FINANCE AND TRADE.

The Boom in Steel and Iron Surprises Even the Trade. New York, June 29.—Bradstreet's weekly review of trade says: Dominating business conditions of the week are the continued large demand for and further increases in prices for iron and steel which have surprised even the trade.

There are a few evidences of a revival of trade in the south, but merchants at almost all leading cities in that region report that demand continues very moderate, and collections are slow. General business on the Pacific coast continues in contrast to that elsewhere, but what is being exported from San Francisco as fast as it can be loaded into ships. Wheat flour shipments to Europe are to be resumed from mills at Vallejo, after a suspension of over one year.

The only changes west and northwest are continued improvement in cereal crop conditions, and the stimulus to business by the continued firmness of demand for iron and steel.

E. G. Dan & Co.'s review says: Business is better, although the crop outlook, affecting prospects beyond the near future, is a little less distinct. There is more ground for doubt about winter wheat and cotton than a week ago, and threshing receipts are comparatively low, though the prospects for spring wheat are exceedingly good. The labor troubles are passing with frequent advances in the rate of wages paid.

An Alleged Murder Conspiracy. DALLAS, Tex., June 29.—J. S. Dickerson, a jeweler, killed a 24-year-old boy about 8 o'clock in the morning, who he claims was a burglar. The body was identified as that of John F. Reeves, son of a rich planter of Chico, in Wisconsin. The dead boy and his 13-year-old brother, Tobe Reeves, were witnesses in the federal court again; William Hamon, charged with counterfeiting silver coin, and had been in Dallas several days. Friends of the Reeves family declare that the boy was not a burglar, but that some conspiracy led him to where he was killed to get him out of the way as a witness.

Legislators Who Do Not Legislate. CHICAGO, June 29.—Governor Altgeld may have to resort to other measures than his plan of continuously reconvening the Illinois legislature if he persists in attempting to secure the enactment of laws on arbitration, Pullman rates, etc. Both houses yesterday, after considerable tumult, but little or no business, voted to adjourn until July 9. The Democrats voted against adjournment, but were overwhelmed by the Republicans. An attempt to cut off the pay of members during the lengthy recess was defeated.

Insurance Taxes for Cities and Boroughs. PITTSBURGH, June 29.—Governor Hastings has signed the bill which provides for the payment by the state treasurer of one-half of the tax on premiums paid by foreign insurance companies to treasurers of cities and boroughs. The governor vetoed seven bills, among them one amending the title of the Baker ballot law where it is supposed to be defective, and one authorizing county commissioners to sell and convey to actual settlers lands belonging to counties.

Two Killed by a Train. READING, Pa., June 29.—White Michael Dalton, aged 28, and Michael Cominsky, aged 26, were walking on the Reading railroad tracks in the morning they were struck by the Williamsport express and instantly killed. The men had stopped aside to allow a freight train to pass and then attempted to cross to the up track, when the express came along. They were hurried down a twenty-foot embankment.

I May Do as Much for You. Mr. Fred Miller, of Irving, Ill., writes that he had a severe kidney trouble for many years, with severe pains in his back and also that his bladder was affected. He tried many so called kidney cures but without any good result. About a year ago he began use of Electric Bitters and found relief at once. Electric Bitters is especially adapted to cure of all kidney and liver troubles and often gives almost instant relief. One trial will prove our statement. Price only 50c for large bottle. At A. Wansley's drug store.

"But evil is wrought by want of thought, As well as want of heart."

If you want of thought mothers allow daughters to become frail and puny. Overstudy in girls induces uterine disorders and weaknesses, and blights their future happiness as wives and mothers. Joined to proper hygienic care, Dr. Pierce's Favorite Prescription is a priceless remedy in such ailments, its value becoming even more apparent every year. Using it, the weak, debilitated school girl gains color, flesh and spirits, losing those deadly headaches, tormenting backaches, languor, dejection, and other symptoms of functional irregularities, and nervous debility. It never harms the most delicate girl.

Robertsdale, Huntingdon Co., Pa. World's Dispensary Medical Association: GENTLEMEN—I cannot sufficiently express to you my gratitude for the benefit your medicine has conferred upon my daughter. Of late she has suffered no pain whatever. It is simply marvelous. You have just reason to call it your "Favorite Prescription," and to stake your reputation as a physician on it. A favorite prescription it is, indeed, to you and to thousands in this land, and I believe will be to suffering women the world over. Yours gratefully, THOMAS THIRLWELL
