WHEN CHARLES I. WAS BEHEADED

Only one man in the vast crowd present knew why the blood spurted from the monarch's severed arteries—namely, Dr. Harvey, the Court Physician, who discovered the circulation of the blood.

For asserting this fact he was reviled and persecuted, and came near to losing his own head. But the world has grown more intelligent and broad-minded since then, and when the Shakers of Mt. Lebanon (N. Y.) announced their discovery of an absolute remedy for indigestion and dyspepsia it was welcomed both by the people and the physicians.

For ages dyspepsia has been the bête-noire, the black beast, the bug-bear, of the medical profession.

We knew it to be the real cause of nine tenths of our ailments, yet have never been able to master it. Its symptoms are numerous and perplexing—many of them falsely considered (and wrongly treated) as distinct diseases. Among them are: distress after eating; sickness and nausea; pains in the head, chest, sides and back; bad taste in the mouth and offensive gas rising to the throat; costiveness and irregularity of the bowels; variable appetite; heartburn and palpitation; sick headache; ringing in the ears; nervousness and loss of sleep; weakness and mental depression, etc.

The Shaker Digestive Cordial relieves and cures this condition as nothing else ever did. It is prepared with rare mountain herbs, cultivated by the Shakers. For many years this people have studied the disease, and humbly and faithfully sought the remedy. Having found and tested it they confidently offer it to the world—full of sufferers. None who try it will be disappointed. It relieves immediately.

That you may learn whether it is adapted to your case the Shakers have placed trial bottles on the market at ten cents—for sale by nearly all druggists.

Italy's warships were warmly greeted on their arrival at Spithead.

Mrs. Rhodie Noah, of this place, was taken in the night with cramping pains and the most distressing colic. She took half a bottle of blackberry cordial but got no relief. She then sent me to see if I had anything that would help her. I sent her a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy and the first dose relieved her. Another of our neighbors had been sick for about a week and had tried different remedies for diarrhoea but kept getting worse. I sent him this same remedy. Only four doses of it were required to cure him. He says he owes his recovery to this wonderful remedy.—Mrs. Mary Sibley, Sidney, Mich. For sale by Gruhler Bros., druggists.

Last summer one of our grand children was sick with a severe bowel trouble. Our doctor's remedies had failed, then we tried Chamberlain's Colic, Cholera and Diarrhoea Remedy, which gave very speedy relief. We regard it as the best medicine ever put on the market for dysentery, summer complaint, colic and cholera infantum in children. It never fails to give prompt relief when used in reasonable time and the plain printed directions are followed. Many mothers have expressed their sincere gratitude for the cures it has effected. Dog Days Here.

Wednesday the dog days began. They will continue until Tuesday, August 27, a period of just seven weeks. During this term it would be well for humanity to be careful in the matter of diet, as often a bad spell of sickness is averted by giving heed to what they partake. More particular attention should be given to the diet of little children, who should not be given too rich food.

The Discoverer Saved His Life.

Mr. G. Calloway, Druggist, Revere, Ill., says: "To Dr. King's New Discovery I owe my life. Was taken with grippe and tried all the physicians for miles about, but of no avail and was given up and told I could not live. Having Dr. King's New Discovery in my store I sent for a bottle and began its use, and from the first dose began to get better, and after using three bottles was up and about again. It is worth its weight in gold. We won't keep store or house without it." Get a free trial bottle at A. Wasley's drug store.

What a Word Will Do.

Byron reminds us that a word is enough to rouse mankind to mutual slaughter. Yes, there is power in a word—Marathon, for instance, Waterloo, Gettysburg, Appomattox. Great battles these, but what a great battle is going on in many a sick and suffering body. In yours, perhaps. Take courage. You can win. Call to your aid Dr. Pierce's Golden Medical Discovery. It acts powerfully upon the liver, cleanses the system of all blood-poisons and impurities; cures all humors from a common blotch or eruption to the worst scrofula, salt-rheum, "fever-sores," scaly or rough skin, in short, all diseases caused by bad blood. Great eating ulcers rapidly heal under its benign influence. Especially potent in curing tetter, eczema, erysipelas, boils, carbuncles, sore eyes, scrofulous sores and swellings, hip-joint disease, "white swellings" and enlarged glands.

Dr. Pierce's Pellets cure permanently constipation, biliousness, sick headache and indigestion.

The Roberts Colliery Reopening.

The Roberts colliery, situated near St. Clair, Pa., will resume operations about July 15. Since this property passed into the possession of A. S. Van Winkle he has remodeled the breaker and put in new machinery, besides making other improvements for the better handling of the product of the mine. Mr. Van Winkle is considered especially fortunate in securing this property, as we learn it is one of the most valuable deposits of coal in the region, the Mammoth vein running about 30 feet in thickness, and the Primrose vein showing up in great shape, both of the best quality. Besides these the Back Mountain and other veins of good average thickness will develop later on.

This product of the colliery will go to market over the Pennsylvania R. R. system, and it is the opinion of disinterested parties that in a short time the production will prove a most valuable source of revenue for the P. S. V. division of the P. R. R. We understand Mr. Van Winkle intends putting this coal on the market in the best possible preparation and sending out each car in first-class condition. The development of the Roberts colliery and the already large capacity of Coleraine, together with the large tonnage from the Stout or Minesville colliery, puts Mr. Van Winkle in the front rank of the largest individual shippers of anthracite coal.

We learn that "Coleraine" still has a strong hold with buyers of gilt-edge Lehigh coals of the market, and it would not surprise us if in the near future the Roberts should become of the best Schuylkill coals.—Saward's Coal Trade Journal.
