NUGGETS OF NEWS.

Fierce forest fires are reported in Michigan, and several small settlements are said to have been wiped out.

Eighteen-year-old Mrs. William James, a bride of three weeks, was kidnapped at North Indianapolis, presumably by Will-

iam Lowe, a former sultor. A duel between Colonel Smolentz, the Grecian minister of war, and Colonel Vas-

alliadis, a member of the deputies, occur-red resterday. Neither was injured. The New York City Directory, just out,

indicates a population of nearly 2,000,000 in the city of New York, not including the residents of the newly annexed Westchester territory.

Several hundred male residents of Vineland, N. J., all armed, are searching for Walter Squirrell, a negro, who is charged with assaulting the 6-year-old daughter of Charles Mingin.

vice of the professors in the medical department of the Vermont university, more especially that of Prof. A. P. Grinnell, dean of the university, and Dr. S. M. Roberts, professor of diseases of children, and under the investigation and direct supervision of Prof. C. S. Boynton, the manufacture of lactated food was begun. It has saved thousands of bables' lives and enabled thousands mere to grow up strong and big and blessed with sturdy constitu-

The use of Instated food does away with any anxiety regarding cholera infantum. Luctated food is as pure as mountain air. It agrees with children's stomachs even when they are made sensitive by summer

A host of mothers have to thank lactated food for the joy of seeing their drooping, silent, white-faced little ones turn to bright-eyed, charming bables, that eat and sleep and grow in a way to delight any mother's heart. Great numbers of such mothers have written that nothing else would agree with their children but lactated food.

A trial of less than two weeks will tell its own story in baby's weight, eyes, cheeks and spirits. Nursing mothers find lactated food just adapted to their own peculiar needs. It nourishes both mother and child. And this is what one would expect from a knowledge of its rich, blood-making icgredients, using pure milk sugar as a basis of mother's milk; there is added the riches gluten flour of wheat and oats. These are subjected to high steam heat nuder presure, and while in constant motion and erfectly cooked the extract of the finest malt barley is added, making this a partially digested food that is easily assimilated by the feeblest stomach.

Invalids and aged persons find lactated food the most grateful to their weak stomachs of any nutriment they can take.

Orders left at the new office in the Refowich building on South Main street will receive prompt attention

Mrs. Rhodie Noah, of this place, was taken in the night with cramping pains and the next day diarrhoea set in. She took half a bottle of blackberry cordial burgot no relief. She then sent to me to see if I had anything that would help her. I sent her a bottle of Chamberlain's Colic, Cholera and Diarrhoea Hemedy and the first dose relieved her. Another of our neighbors had been sick for about a week and had tried different remedles for diarrhoea but kept getting worse. I sent him this same remedy. Only four doses of it were required to cure him. He says he owes his recovery to this wonderful remedy.—Mrs. Mary Bibley, Sidney, Mich. For saie by Gruhler Bros., druggists.

FINANCE AND TRADE.

A Business Flood of Remarkable Volume for the Mouth of July. NEW YORK, July 13 -R. G. Dun & Co.'s weekly review of trade says: A business

flood so strong and rapid that the con-servative fear it may do harm is out of season in July, but the seasons this year lap over and crowd each other. May frosts and frights, it is now evident, kept back much business that would naturally have been finished before midsummer, and the delayed culmination of one season gets in the way of efforts to begin another on time. But the volume of business, how-ever it may be measured, is remarkably large for the month, even in a good year The exaggerated fears about crops have passed, the syndicate is believed both able and determined to protect the treasury, and the time draws near when the marketing of new crops will turn interna-tional balances if speculation does not hinder.

Bradstreets' review says: At the close of the second week in July the condition of trade generally remains practically un-changed, although commercial and industrial activity at many points continues more conspicuous than usual at the midsummer season. Prices generally continue strong, exceptions being found among the cereals, hog products, coffee and lead, while as significant as anything oise are the exceptionally favorable outaging promise for the wheat and corn crops throughout the central, western and northwestern states.

There were 265 failures in the United States this week, as compared with 197 Inst week, 229 in the second week of July, 1894, and 398 in a like week in 1898.

CLEVELAND, July 18.—Some of the rall-way men now declare that they know why Calvin S. Brice bought the Pittsburg, Akron and Western road a short time ago. They claim to know with certainty that he is forming a great railroad system, which will be the shortest route between Chicago and New York and have ramified tions to many of the great business cen-ters. The line will be between the Van-derbilt system on the north and the Pennsylvania on the south and will cross the Erie in several places.

Church Robbers at Atlantic City. ATLANTIC CITY, July 13.-St. Nicholas Roman Catholic church and the First Baptist church, in this city, were entered by thieves during the night. Several sacred vessels valued at \$100 were stolen from the first named building, and at the First Baptist church the contribution boxes were rifled and the study of Pastor Cross broken into. Among the booty taken was a collection of antique coins from oriental countries, valued at several hundred dollars.
