The Railroad Man, The Clergyman, The Business Man,

and all other men who have to look neat while at work, should know about "CELLULOID" COLLARS AND CUFFS. They look exactly like linen, wear well and being *waterproof* do not wilt down with heat and moisture. They do not soil easily and can be cleaned in a moment by simply wiping off with a wet sponge or cloth. Do not confuse these in your mind with composition goods. Every piece of the genuine is stamped like this:

TRADE CELLULOID MARK.

Ask for these and refuse anything else if you wish satisfaction. Remember that goods so marked are the *only* waterproof goods made by coating a linen collar with waterproof "Celluloid," thus giving strength and durability. If your dealer should not have the "Celluloid" send amount direct to us and we will mail you sample post-paid. Collars 25c. each. Cuffs, 50c. pair. State size and whether stand-up or turned-down collar is wanted.

The Weather.

For eastern Pennsylvania, New Jersey, Delaware, Maryland and the District of Columbia, clearing and warmer; southerly winds.

"If all the gold in mint or bank,
All earthly things that man call wealth
Were mine, with every titled rank,
I'd give them all for precious health."

Thus, in anguish, wrote a lady teacher to a near friend, telling of pitiless headache, of smarting pain, of pain in back and loins, of dejection, weakness and nervous, feverish unrest. The friend knew both cases and cure and flashed back the answer, "Take Dr. Pierce's Favorite Prescription." The distressed teacher obeyed, was restored to perfect health, and her daily duties once more became a daily pleasure. For lady teachers, saleswomen and others kept long standing, or broken down by exhausting work, the "Prescription" is a most potent restorative tonic, and a certain cure for all female weaknesses. WILL ARBITRATE THE DISPUTE.

War Between Peru and Bolivia Averted by the Papal Ablegate.

LIMA, Peru, July 16.—The extreme state of irritation and excitement which existed here when it first became known that Bolivia had made a peremtory demand for immediate satisfaction of her claims shows some signs of abatement, and it is now believed that a mode of peaceful settlement may be arrived at through the good offices of the papal legate.

The acute crisis in the relations between the two countries were precipitated by the demand of the Bolivian minister to Peru, on behalf of his government, for immediate satisfaction for the outrages committed on the frontier between the two countries by the Cacerist forces during the late civil war.

The Peruvian government replied that it was disposed to entertain the demand for satisfaction, and was inclined to recognize the justice of the claim advanced, but the government refused the demand of Bolivia to salute the flag.

The papal delegate to Peru has suggested that the point in dispute should be submitted to arbitration, and the Peruvian government has accepted the idea.

At the time of leaving his stopping place here he had nearly $200 in cash, a watch and a valuable ring, besides $1,300 in the Drovers and Mechanics' National bank. He called at the bank Saturday and checked largely on his account. He appeared to be in a dazed condition. A check from him was first presented to the bank. Payment was refused, and the men who presented the check then went out and got Dr. Hart in person. He was seen on Thursday afternoon in company with two men. His family believe he is in Baltimore in bad hands.

A COMMON CAUSE OF SICKNESS.

IN WARM WEATHER NOTHING SO DANGEROUS AS DECAYED FOODS.

Every one knows or ought to know that decayed foods are poisonous. Boards of Health seek to prevent their sale.

We now have in mind the results which follow the decay and decomposition of foods after they have been eaten, for unless digestion occurs within a reasonable time after our meals, decomposition sets in.

If dyspeptics will stop and consider for a moment some of the symptoms of their trouble, such as disagreeable breath, eructations of gas or bad taste in the mouth, they will understand that they all must come from decaying foods that ought properly to have been absorbed into the system.

Spots before the eyes, dizziness, sleeplessness, dyspeptic headaches are but a few of the effects following the absorption into the blood of poisons developed from decomposing and undigested food that lies in the stomach.

It was a recognition of this important fact that caused the Mount Lebanon Shakers to devote so much of their time to the preparation of a remedy for dyspepsia, and nothing is more efficient than the Digestive Cordial which they have recently placed on the market.

The importance of their invention will be appreciated when we realize what a proportion of the community are victims of some form of stomach trouble. Thousands of pale, thin people who have little inclination to eat, and what they do eat causes them pain and distress.

Its action is so prompt that relief frequently follows the very first dose. It restores the appetite and increases the weight. Plumpness and strength take the place of weakness and that care-worn expression which points out the dyspeptics in every community. The local druggists are now giving away interesting descriptive pamphlets.

Hawley, of Pittsburg, has hit twenty-one men in the games he has pitched this season.

The Discovery Saved His Life.

Mr. G. Cailliouette, Druggist, Beaversville, Ill., says: "To Dr. King's New Discovery I owe my life. Was taken with la grippe and tried all the physicians for miles about, but of no avail and was given up and told I could not live. Having Dr. King's New Discovery in my store I sent for a bottle and began its use, and from the first dose began to get better, and after using three bottles was up and about again. It is worth its weight in gold. We won't keep store or house without it." Get a free trial bottle at A. Wasley's drug store.

Last summer one of our grand children was sick with a severe bowel trouble. Our doctor's remedies had failed, then we tried Chamberlain's Colic, Cholera and Diarrhoea Remedy, which gave very speedy relief. We regard it as the best medicine ever put on the market for bowel complaints.—Mrs. E. G. Gregory, Fredericksburg, Mo. This certainly is the best medicine ever put on the market for dysentery, summer complaint, colic and cholera infantum in children. It never fails to give prompt relief when used in reasonable time and the plain printed directions are followed. Many mothers have expressed their sincere gratitude for the cures it has effected. She then sent to me to see if I had anything that would help her. I sent her a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy and the first dose relieved her. Another of our neighbors had been sick for about a week and had tried different remedies for diarrhoea but kept getting worse. I sent him this same remedy. Only four doses of it were required to cure him. He says he owes his recovery to this wonderful remedy.—Mrs. Mary Sibley, Sidney, Mich. For sale by Gruhler Bros., druggists.

FROM THE CHICAGO NEWS.

Give me a spoon of oleo, ma,
And the sodium alkali,
For I'm going to make a pie, mamma,
I'm going to make a pie;
For John will be hungry and tired, ma,
And his tissues will decompose;
So give me a gramme of phosphate,
And the carbon and cellulose.

Now give me a chunk of caseine, ma,
To shorten the thermic fat;
And hand me the oxygen bottle, ma,
And look at the thermostat;
And if the electric oven's cold
Just turn it on half an ohm,
For I want to have supper ready
As soon as John comes home.

Now pass me the neutral dope, mamma,
And rotate the mixing machine,
But give me the sterilized water first
And the oleomargarine,
And the phosphate, too, for, now I think,
The new typewriter's quit,
And John will need more phosphate food
To help his brain a bit.
