

THAT'S QUEER!

You say a collar and cuff that are waterproof?
Yes.
And perspiration will not affect them?
Yes.
And when dirty you need only wipe them off with a wet cloth or sponge?
Yes.

Wonderful! How are they made?
A linen collar covered on both sides with waterproof "CELLULOID." Looks exactly like a linen collar.

Is it the only waterproof collar and cuff made?
No, but it is the only one made with the linen interlining and consequently the only one that can give entire satisfaction, because it is the best.

How can I know that I get the right kind?
Because every piece is stamped as follows:

Inquire for that and remark anything else, or you will be disappointed.

Suppose my dealer does not have them?
He probably has, but if not, send direct to us, enclosing amount. Collars 25c., Cuffs 50c. State size, and whether collar wanted is stand-up or turned-down.

"If all the gold in mint or bank. All earthly things that man call wealth. Were mine, with every titled rank, I'd give them all for precious health."

Thus, in anguish, wrote a lady teacher to a near friend, telling of pitiless headache, of smarting pain, of pain in back and loins, of depression, weakness and nervous feverish unrest. The friend knew both cases and cure and flashed back the answer, "Take Dr. Pierce's Favorite Prescription." The distressed teacher obeyed, and was restored to perfect health, and her daily duties once more became a daily pleasure. For lady teachers, salesladies and others kept long standing, or broken down by exhausting work, the "Prescription" is a most potent restorative tonic, and a certain cure for all female weakness. Mrs. Rhodie Noah, of this place, was taken in the night with cramping pains and the next day diarrhoea set in. She took half a bottle of blackberry cordial but got no relief. She then sent me to see if I had anything that would help her. I sent her a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy and the first dose relieved her. Another of our neighbors had been sick for about a week and had tried different remedies for diarrhoea but kept getting worse. I sent him this same remedy. Only four doses of it were required to cure him. He says he owes his recovery to this wonderful remedy.—Mrs. Mary Staley, Shelby, Mich. For sale by Grubler Bros., druggists.

A New York Postoffice Robbed.
ALLEGANY, N. Y., July 17.—Burglars entered the postoffice during the night and blew open the safe, securing everything it contained. They took about \$700 or \$800 in stamps and money. The store of James McAtiffe was also entered and an attempt made on the safe, which failed. Neighbors heard the noise and frightened the robbers away.

TORONTO WANTS HOLMES.

Forging a Chain of Evidence Against Him for Child Murder.
TORONTO, July 18.—Although it is known that almost all the clothing of the murdered Pitezel girls was burned, some articles of attire belonging to them were stuffed into the chimney and into holes around the house at 16 St. Vincent street. Some of that clothing has been traced, and the last link in the chain of evidence against Holmes has been practically forged by that discovery. The attorney general's department has taken all the necessary preliminary steps for the extradition of Holmes.

The clew which led to the discovery of the bodies was furnished by Thomas W. Rives, an old man who lives at 18 St. Vincent street, next door to the scene of the tragedy. Last October Mrs. Nudel's house was vacant, and she advertised for a tenant. One Saturday afternoon a quiet appearing stranger called and arranged to take the premises at a monthly rental of \$10. Rives identified this stranger in the portrait of Holmes. He said a widowed sister, then living at Hamilton, was coming down, and that she intended keeping boarders. He obtained the key and left. Holmes returned in a few days, bringing two children with him. Rives saw them in the yard and again on the front veranda. No furniture was brought to the house except an old bed and a very much soiled mattress and a trunk. The expressmen who brought the bedding came when Holmes was out, and the things lay exposed on the veranda in full view of all passers-by for two days.

Soon after this Mr. Rives missed the children. They vanished completely, and Holmes went too. These were some comment on the strange way of doing things, but no suspicion of murder was ever aroused. Then new tenants came, but remained only a short time. Mrs. Nudel employed Rives, who is a carpenter, to make some repairs, and this gave him occasion to pay a visit to the house. He went to the cellar, and there saw that pieces of fresh clay were scattered around. He mentioned this circumstance to Mrs. Nudel, but still nothing was suspected, and the affair was being forgotten when accounts of Detective Geyer's search for the Pitezel children brought the incident again to Rives' mind. He notified the police, and the discovery of the dead bodies followed.

CHOLERA INFANTUM,

July Begins to Reap Its Fearful Harvest.

Put Infants on Lactated Food Early This Summer.

Saves Thousands of Precious Lives Every Month of the Year.

July has begun its deadly work earlier this year than last. Mortality reports from the cities show a sudden prevalence of cholera infantum. "It behooves mothers who are not already using it," said a well-known physician in this city yesterday, "to put their babies upon lactated food forthwith—except, of course, where the mother's milk is absolutely good and plentiful."

"If a child is being weaned this best of all foods should certainly be used. The closest investigation has shown that babies are stronger and grow faster, and that fewer fall ill during the summer when fed upon lactated food than upon any other diet."

"The lactated food, it must be remembered, is in no sense a medicine."

"Like nature's food, its basis is the purest sugar of milk, in proportions to closely represent mother's milk. With it is combined pure barley malt, the finest wheat gluten, and the nutritious elements of the oat, and the mixture is thoroughly cooked by high steam heat. It contains all the properties essential to the maintenance of life and the healthful growth of bone, flesh and muscle. It is palatable and children take it naturally."

"Best of all, lactated food, with which thousands of little ones have been started on their way to long life, is not expensive. A dollar package will give an infant 100 meals. One of the smaller-sized packages that retail for 25 cents makes 10 infants of the best and most reliable food for infants that there is. It is really more economical, as it is far safer, especially at this season, than cow's milk."

"It is the surest known preventive of cholera infantum."

Rev. Frank A. Domes, pastor of the M. E. church, Greensburg, Ohio, writes:

"I send you herewith a picture of our little girl who has been raised on lactated food. She was born June 22, 1893, and has never been sick to speak of even when teething. During the past summer, she has had nothing but lactated food and thrived on it. We tried several other foods, but found nothing which we liked as well as the lactated. She was ten months old when the picture was taken."

SHENANDOAH IN LINE.

The action of the Daniel H. Hastings Club of Shenandoah, at its meeting Tuesday night, when there was a large and enthusiastic gathering of the members, reflects the sentiment of the people of this county, following as it does so closely the action of that other strong organization of working Republicans, the Pottsville Republican Club. That the people are with Senator Quay in this great campaign becomes more and more apparent every day as they divulge their sentiments through the action of their local organizations.

If the question of Quay or Gilkeson was left to the people, who doubt that the result would be overwhelmingly for the great leader of 1888, when the country was wrested from Democratic control through the brilliant generalship of Matthew S. Quay?

The action of the Daniel H. Hastings club at this time, so pronounced as it is in favor of the man, whose political usefulness is struck at by designing men who are not his peers in anything, is an indication that the two delegates of the First Legislative district of this county will be for Mr. Quay. There can be no other view taken of the club's resolutions. This is especially the stronger view to take because the men who compose the Hastings club, which is now so much more a Quay club than a Hastings club, are the workers in the First district. The opposition is not strong enough to put up a fight there and we are, therefore, led to shout—well and nobly done, Shenandoah.

LOOKS BAD FOR HOLMES.

Weaving Evidence Against Him in Philadelphia and Toronto.

DRAWING THE MESHES CLOSER.

District Attorney Graham Says He Has Convicting Evidence of Murder Against the Prisoner, While Toronto Officials Give a Still Stronger Case.

PHILADELPHIA, July 18.—It was learned at the office of the district attorney that during the two hours' interview which H. H. Holmes, alias Herman Mudgett, had on Tuesday with three members of the district attorney's staff, he said: "I suppose I'll swing for this." This is the only remark dropped from his lips which in any way would tend to incriminate him, but the district attorney takes this as a practical admission of his guilt.

Notwithstanding Holmes' remark, his counsel says he can prove an alibi in his client's case. He says that Holmes was not in Toronto when the Pitezel children were murdered. This, he states, can be proven by Mrs. Howard, Holmes' third wife, who arrived here this forenoon from the home of her mother in Franklin, Ind. The authorities place but little credence in the alibi story, and are satisfied Holmes is the murderer.

Mrs. Howard, when asked about her knowledge of the Pitezel children, said: "Upon that subject I have nothing to say."

She was told it was reported that she would swear that Howard was not in Toronto at the time the Pitezel children were murdered. She replied: "I decline to make any statement on the subject."

Mrs. Howard said that she was at Indianapolis part of last September and October, when Howard and the Pitezel children were there. When asked if she knew the Pitezel children, and that the Pitezel boy had disappeared, she said: "Why I never knew there was such a family in existence, and how could I know what became of the boy? I never heard of the Pitezel family until my husband was arrested."

"Did you ever see the father of the children?"
"Yes, I know him in Fort Worth, Texas, where he worked on a business block which Mr. Howard was building, but he went under another name. I did not know that he had a family."

Mrs. Howard was asked what she knew about Howard having other wives and replied that she knew nothing about it, but had heard it said that he had. Mrs. Howard also stated that she and her husband had lived in Fort Worth from February to April, 1894, and after that had been almost everywhere. Mrs. Howard gave evidence that she knew just where to stop talking. Nothing could be obtained from her that would indicate that she had any knowledge of Howard's crookedness and crimes, or that she is any other than a devoted wife.

This morning District Attorney Graham said there was little chance of Holmes being taken to Toronto to be tried for the murder of the Pitezel girls. He has found evidence, he said, which leads to the conclusion that the body found in the Callowhill street house was Pitezel's, and he is now preparing to try Holmes here on the charge of "murdering Pitezel."

Detective Gray, who unearthed the bodies of the Pitezel girls in Toronto, is in almost hourly communication with the district attorney. Last evening District Attorney Graham received a telegram from him, dated Toronto, which said: "I am going to Detroit to look for Howard Pitezel." Holmes is believed to have murdered Howard in that city, and Geyer is going there to endeavor to discover the body.

It is given out here that Holmes intends to plead guilty of the murder of Howard Pitezel in Detroit. Holmes' sentence in that state would prevent his being extradited to stand trial on the charge of murdering the Pitezel children in Toronto, and by this means he might escape the gallows, as there is no capital punishment in the latter city.
