WEDNESDAY, JULY 24, 1895.

TONIGHT the School Board will have a talk on contracts. The Borough Conneil will rest for a while,

THE boy who strayed away to Canada made a cheap tour of the country, but it was no doubt a heavy drain upon the feelings of his parents.

WE can imagine that the electric railway companies are whispering to the Columbia Brewing Company, "There are others." One of the stepping stones for industries in town is based on court litigation. Even the public water works was forced to tread the stone.

The property owners should not full to heed the notice given by the chairman of the water committee, and send in their names if they wish to connect with the public water works without delay. Every hour for the next two months will count. It will take from two to three hours to regain with what is lost in one, so the importance of promptness is quite appar-

THE notice issued by the Shenandoah Citizens' Water and Gas Company, warning the borough authorities not to lay the pipes of the public water works over those of the company, is purely a step in a business channel and not in any manner a usurpation of rights the company has no claim to, and as some people seem to suppose. The company secured a right of way through this town and until that right is revoked, or annulled, the borough authorities and people in general are bound to respect it; and at the same time nothing can be done lawfully that will in any way interfere with the exercise and any direct or indirect branch of the right of way, As for example, should any of the borough pipes be so located as to be broken or otherwise damaged when the company held responsible for the cost of repairing the break, the pipe broken being in the path of the company in the exercise of its rights under its charter and right of way, which are just as broad as the rights conferred upon railroads and other corporations. The notice should be accepted as it is no doubt intended, a step for protection and a guard against litigation in the fature, and not as an assertion of ownership of public property.

A CUBAN EXPEDITION.

The Revolutionists Have Secured a Vessel in This Country.

TO START AT AN EARLY DATE.

General Rafael De Quesada Will Assume Command of the Expedition, and Preparations for the Start Are Being Pushed with the Greatest Secrecy.

NEW YORK, July 24.—It is an open secret in Cuban revolutionary circles that preparations are being made to send an expe-At the last meeting of the revolutionary party in this city General Rafael de Que sada publicly announced that he would assume command of the first expedition to start for the islands. For some time past owners of vessels have made overtures to the leaders of the revolutionists in New York, many offering their vessels for immediate sale. Some had boats which they wished to charter for limited periods. Proposals of this kind have come from nearly every port along the Atlantic coast. It is said that considerable time has been spent by the Cubans having charge of the selection in examining the vessels offered for sale.

It is generally understood that within the past day or two a suitable vessel has been selected and purchased by this com-mittee. The leaders of the movement in this city decline to discuss the subject, but the Cuban patriots who are not identified with the party as leaders had all heard of the purchase. The vessel is, according to reports, an iron steamer with a power of fifteen knots an hour. Neither the name of the vessel nor the port at which she is now lying could be ascertained.

A well dressed man who declined to give his name, and said that he was an American, speaking English only, en-tered the office of Enrique Trujillo, editor of El Porvenir, yesterday and announced that he had a bundred men, drilled and armed, ready to start for Cuba. He himself would command the force and defray the expense of transportation. Trujillo explained that any such venture would be a violation of the neutrality laws, being inclined to believe that his caller was a

Spanish agent. Gonzalo de Quesada, secretary of the revolutionary party in this city, said: "Dispatches from Madrid say that General Campos advocates sending Generals Wey-ler and Polavieja to assist in the work of the present rebellion. Both these men have records as tyrants and brutes, and many stories are told of their inhuman-

Twenty-one Rounds to a Draw.

WASHINGTON, July 24 .- One of the most clever contests that ever took place before the Eureka Athletic club occurred last night between Johnny Van Heest (white), of New York, and Jerry Marshal (colored), of Australia. Twenty rounds was the advertised limit, but the referee allowed an additional round, and at its close both men were in good condition, so the referce declared it a draw. Marshal was marvelously quick, and it was simply his ability to avoid punishment and Van Heest's ability to stand it that made the result as merits of the men inconclusive Van Heest was cut around the neck and his left wrist was badly strained, but Marshal did not apparently have a mark

THE INDIANS MASSING.

Stilers Preparing to Make an Assault on the Redskins.

MARKET LAKE, Idaho, July 24 .- Cap-Idaho, reservation, came in yesterday from the Jackson Hole country, and reports everything quiet and few if any Indians in the country. Captain Teeters, however, was followed by a courier from the settlers with a dispatch to Governor Richard Schleich and Schleich Richards which tells another story. The courier, Fred White, reports that the In dians have been joined by a large number of Lembi and Ute Indians, and that they have every pass in Jackson's Hole guarded. Scouts from the settlers say the Indians are massing in large numbers, and will no doubt offer a fight.

A prospector named Smith was ambushed by Indians, and was wounded in the breast. He claimed to have cleaned out the band, but scouts sent to confirm it say they found evidences of only one Indian being wounded.

The settlers have brought their women and children to Wilford, and intend to go Indian hunting, and not wait for the redskins to attack them.

This trouble will not interfere with travel to the Yellowstone park, as by the way of Beaver canyon there is no danger of meeting the Indians. Many sensational reports have been sent out, but there has been no fighting. The Indians may yet be persuaded to return to their reserva-tions without any more trouble.

Washington, July 24.—Further brief advices concerning the affairs at Colon have been received by the state depart-ment. They came in a dispatch from Consul General Victor Vifquain, at Panama, Colombia, and said that the troubles were a labor strike, which so far had been of a peaceable character. This statement leads the officials of the department to believe that the troubles will not be of such a serious nature as earlier dispatches indicated might be the case. The pallid countenance, the twitching of the muscles and the almost choking intonations of the arch conspirator as he en-deavored to speak to the guards all told plainly that he was suffering keenly from the change in his wife s demeanor towards
