HON. THOS. V. COOPER'S FIGURES.

He Declares senator Quay Will Win by 42 Majority.

Ex-Republican State Chairman Thomas V. Cooper, was interviewed at his home in Media and gave out the following diag-nosis of the situation regarding the prescan be a similar on regarding the pres-ent State contest. He places Senator Qany's majority at 42, if the battle is waged to a finish, which the ex-Collector hopes it will not. Moreover, he declared that Hastings and Gilkeson will n t carry more than sixteen counties, all told. He gives Gilkeson 124 delegates in the State Convention. Ex-Chairman Cooper is strong

for a compromise and said: "Conceding the truth of a Philadelphia Combine newspaper that Hastings and Gilkeson have won all sixteen delegates since Qaay declared his candidacy, it compels the conclusion that Quay is still match or a majority of 40 if the fight more

safe for a majority of 42, if the fight goes to a finish, which I hope it will n t. "I figure this way: One hundred and fifty-three delegates have been elected, of which number Quay has 101. Then there is one from Sullivan county willing for a compromise and auxious to vote that way. ingularly enough, nearly all the 16 delegates claimed by the Combine are from counties having Superior Judges, so wrapped up in local interests that they feared to instruct for Gilkeson. "Probably, like myse f, they wan; peace, and want it bad enough to fight for the processing of the peace and the second

These counties are Lickawanne, Willard; Northampton, 4 for Reederr Centre, 2 for Beaver, the latter, of course, being for Hastings and anything the Governor wants.

'Only Clearfield," said Mr. Cooper, "Is outside of the radius of the Saperior Court appointees, for Sullivan means peace. also a remarkable coincidence in politics that the counties getting these Judges were first to hold their delegate elections. Nothing could have been better planned to give Colonel Gilkeson a boom. I dare not suggest that it was so planned, though the new Combine embodies some far-seeing new Containe embodies some far-seeing men. If this boom continues probably Quay would be more willing for peace than he seems to be now. He might yet yield to my persuasive powers. But it cannot continue, Bucks will swell it, and after Bucks not eight counties remain for Gilke-son, whereas 136 delegates are to be chosen, 70 from Philadelphia and 66 from the country districts.

These facts will bring the result as stated, and if Quay gets 15 out of Phila-delphia he may have the 79 majority he deipuia ne may nave in: 7.9 majority be claims. That he will have a majority will be conceded by those who best understand the State. Iplace it at not less than 42, but I hope it will be unanimous, both foi Quay and Hastings. Neither is running against the other, and some of the 166 county delegates yet to be chosen can be very wisely instructed to vote in this way, and, thus holding the balance of power those so instructed, can, along with the judicial delegates for Rice, Reeder, Beaver and Orlady, settle the fight. This can only be done at the primaries by printing tickets, allowing instructions upon the State

THE SILVER CITY FLOOD. Great Destruction of Property, but Not a

Life Lost. SILVER CITY, N. M., July 01.—Between 8 o'clock and midnight Sunday night five inches of rain fell in this city and in the mountains to the north. Before 9 o'clock the water was fushing down the moun-tain sides in torrents, and a few minutes here the builteen structure of the other water

later the business streets of the city were filled with a flood from four to eight feet The grade of the streets is heavy, deep. and water rushed through them with such swiftness that crossing was impossible. A foot bridge which had been constructed so that people in the lower part of the town could cross to a place of safety in case of a flood was washed away, and all means of getting out of the flooded district was cut off.

The night was intensely dark, and for three hours the people of the city were torror stricken. Several people gave themselves up for lost when some of the weaker buildings began to crumble before the destructive floods. Nine buildings were washed down, but not a life was lost.

In the business part of the city many buildings are settling, and the amount of the loss may reach thousands of dollars more than the losses which are now cortain. Some estimates place the loss as high as \$300,000. The railroad company has sustained a heavy loss, and it will take more than a week to repair the tracks so that trains can be gotten here. Telegraphic communication has just been re-established.

THREE WORKMEN KILLED.

Bodies Fearfully Mangled by Exploding Dynamite.

CHICAGO, July 24 .- Three mon were instantly killed and a fourth badly injured by a premature explosion of dynamite on the drainage canal, near Willow Springs. The dead are: William Kelly of Mar-quette, Thomas Soaker of Chicago and Joseph Smith, residence unknown. Mat-they Healey seatured thew Healey received a severe scalp wound. Kelly, Soaker and Smith were preparing a blast, and were pressing the dynamite into the hole, when suddenly the blast, which was almost completed, went off. All three men were hurled high in the air and came down fully 200 yards from the scene of the explosion. All were mangled in a most horrible manner.

Over a hundred men were at work close to the blast when the explosion occurred, and it is a wonder that the loss of life was not much greater. They made a wild break for cover when the shower of rock began to fall, and all escaped injury with the exception of Healey, who was struck by a place of rock.

No cause is known for the explosion, as all the men were careful and experienced in the handling of dynamite.

Miners Want Coal Prices Advanced.

WILRESDARRE, Pa., July 24.-The Inde-pendent Union of Mine Workers of America have petitioned the coal operators of the Wyoming valley to advance the price of coal in order that the operators may be in a better position to give the miners an increase of wages. Attention is called to the fact that while some of the necessaries of life have advanced in price during the past year the wages of miners have reduced. The operators are asked to at-tend a conference to be held at Pottsville. The coal operators here say the deplora-ble condition of the coal trade will not warrant an increase of miners' wages, and they all decline to attend the conference. It is not apprehended that their refusal will cause a strike.

A Chicago Firebug's Confession KENOHSA, Wis., July 24.-Bernard Roso-now, one of the mon arrested in connection with the burning of the plant of the Chicago Bedding company, has confessed that he applied the torch. According to Rosenow's statement he was to receive \$300 for the job. He said one of the men now under arrest made him the offer, but he says he only received \$50 after the job
