Settlement of the Discussion Desk Contracts.

THE SCHOOL BOARD AOTS!

The Written Recommendation of the Committee is Rejected Upon a Change of Opinion Brought About by Inspection.

A special meeting of the School Board was held last evening to consider the report of the committee on buildings and repairs concerning the bids for school desks which have been the subject of so much public discussion. The members of the board in attendance were Messrs. Ogden, Trezise, Hooks, Edwards, Lee, Price, Devitt, Morgan, Conry, Connors and Manley.

The committee submitted a written report in which it recommended that the new desks required be purchased from the local agents (for desks manufactured by the Bloomsburg company,) O'Neill Bros. The bids for the desks were as follows: O'Neill Bros., \$3 per desk; J. H. Evans, Wilkesbarre, \$2.50; Max Reese, town, \$2.33. The desks Messrs. Evans and Reese represented are manufactured in western states. The members of the committee are Directors Lee, Conry, Edwards, Manley and Hooks.

When Director Morgan moved that the recommendation of the committee be adopted Director Hooks stated that he had changed his mind since the meeting of the committee and had become convinced from a personal inspection of the desk recommended that it was not satisfactory, as it might be, and he moved an amendment that the desk represented by the Wilkesbarre man be purchased.

Directors Conry, Devitt and Manley spoke to sustain the recommendation and said the desk covered by it was worth fifty cents more than the other.

Director Edwards said he considered the western desk the cheapest and that a guarantee of ten years, or twenty years, if required, could be had. He said he would like to give preference to the Messrs. O'Neill, because they are neighbors, but he didn't think it right for the board to pay the extra fifty cents.

Director Hooks said he would vote for the western desk because he believed it was right and for the benefit of the taxpayers.

In response to a question Director Lee, chairman of the committee, stated that when the desk matter was decided Directors Hooks, Manley and Conry voted for the recommendation and the other Directors didn't vote either way.

Director Manley said the chairman declared the motion carried unanimously.

Director Hooks said that was not the question. The question was which the Board would take. The Directors were in session as a whole board, he said, and as one he had changed his mind considerably and he didn't care who knew it.

After Director Lee stated he believed that on the night of the meeting the committee was in favor of the desk recommended, but that an examination of hinges had caused a change of opinion the question was put and the amendment prevailed by a vote of 7 to 4. The motion as amended was then put and carried by a similar vote and upon Director Conry calling for the aye and nay vote Directors Ogden, Trezise, Hooks, Edwards, Lee, Price and Morgan voted in the affirmative and Directors Conry, Connors, Devitt and Manley voted in the negative.

The recommendation that the contract for the blackboards be awarded to a Slatinton firm was covered by the motion to adopt.

When the bids were called for it was intended to purchase 175 desks, and that made the difference between the highest and the next highest bidders \$87.50, but the committee subsequently discovered that there were on hand a number of desks that could be repaired and made fit for use, and the number of new desks were cut down to 84, so that the saving by the rejection of the recommendation is \$42.

Camp Notes.

The following notes are furnished by a townsman who is in camp with the National Guard at Mt. Gretna:

John Fogel is getting fat and likes this country so well that he is almost tempted to stay here.

Steve Lindenmuth puts in his spare time taking rides on the narrow gauge railway. Lewis A. Hopkins paid a visit to Lebanon and thinks it is a very dull place. He was on guard duty on Sunday and could not go to church.

Wren Brown says he prefers Ringtown to Mt. Gretna.

Many nice young girls come to camp to see us, and our boys are not backward in showing them around.

Our company was inspected on Wednesday and highly complimented.

IN JUSTICES' COURTS!

Two Officers Arrested on Charges by Mrs. Yodkois.

THEY ENTER BAIL FOR TRIAL

The Woman Charges Policeman Walatits and Constable Gibson With Housebreaking—It is a Sequel to the Recent Raid.

Mrs. Yodkois, who owns the house at the southwest corner of Centre and Bowers streets, that was recently raided by the police as a disorderly place and in which four women and two men were placed under arrest, has retaliated by preferring charges against two of the officers who took part in the raid.

Last night Policeman Walatits and Constable Gibson were required to appear before Justice Lawlor and answer complaints of forcible entry and housebreaking preferred by Mrs. Yodkois. Each of the officers furnished \$500 bail for appearance at court. In making the raid the police forced open a door of a bedroom and Mrs. Yodkois says the officers she has charged broke in the door.

The police claim the prosecution is spite work and say that when the case comes to trial there will be an array of several prominent people as witnesses to prove the character of the house raided. The police also say that since they have started the warfare on disorderly houses obstacles of all kinds have been thrown in their way through sympathy with the people arrested and jealousy and the sympathizers are continually urging suits against the police on all technicalities.

The School Buildings.

Contractor M. P. Fowler expects to have the South Jardin street public school building completed by August 1st. It will be one of the prettiest, most substantial and most modern equipped school house in the county. If the expectations of the contractors are realized the School Board will have ample time to put the building in condition for the opening day of the school term. A new second grade grammar school room has been arranged in the Lloyd street building by removing a partition and making a room 38 1/2 by 24 1/2 feet in size. The change added a length of 11 1/2 feet to the room.

A NEW NEWSPAPER.

It Will be Known as "The Schuylkill County Advertiser."

Another evidence of the rapid advance Schuylkill county is making has just come to light. A large enterprise, in the shape of a county newspaper, is to be started in Pottsville, the first issue appearing some time next month. The new publication is to be known as The Schuylkill County Advertiser. While the business office will be in Pottsville, the paper will be printed at Port Carbon, and one of the most complete newspaper, book and job printing plant in the county is to be installed. The Advertiser will cover a very large field, contemplating nothing less than a news force embracing the whole of Schuylkill county. Its columns will contain news from every town and hamlet in the county; and considering that there are just one hundred and one of them, The Advertiser must certainly be a large paper to take care of this field. The proprietor and manager of the new publication is Walter E. Noland, a newspaper man of wide experience. Speaking of his new venture, he said: "We intend to furnish as much news to each town as the local paper can give, besides giving a resume of the more important items from the county. In politics we will be independent. I believe in the best man winning, and I shall always give him my help, but I shall owe allegiance to no party. My main object is to give Schuylkill county a good weekly county newspaper, and I shall use my best endeavors to advance the interests of the county." Mr. Noland has purchased the plant of the Port Carbon Trolley, published by John R. Boyer, son of the editor and proprietor of THE HERALD. A large addition will be made to it. Frank Chester, who has been connected with Mr. Noland for the last five years in the newspaper business, will be The Advertiser's editor. Mr. Boyer will take charge of the county at large.

IF YOU HAD A LOAD OF WOOD TO SELL

And told every man you met that you had a load of wood to sell and every man you met would in turn tell every man he met that you had a load of wood to sell, it would be a matter of time before you would know that you had a load of wood to sell, and directly you would not have any load of wood to sell. We have not got a load of wood to sell, but we have loads of groceries to sell and we are going to tell it to every body who reads this paper, and when these are gone we will get more.
