Still Unearthing Evidence Against

the Arch Conspirator.

A LITTLE SKELETON IN CHICAGO.

Bones of a Child Found in Holmes' Chicago House-Murder, Swindling, Bigamy, Conspiracy, Abduction, Forgery and Horse Stealing Charged Against 10m.

PHILADELPHIA, July 25 .- As the days come and go the case of the great crimi-nal Holmes seems to become more and more intricate. Each succeeding twenty four hours some new crime which the authorities lay at the door of the now famous areh conspirator is brought to light. As these crimes are ferreted out persons other than the prisoner appear in roles connected with them which place them, if not in equally as guilty light as the doomed man at Moyamensing, at least as so closely connected with Holmes in razcality as to warrant their being hold as liable as he.

The latest phase of the case is that the Chicago authorities are now confident that Holmes murdered his typewriter, Miss Gertrude Conner, in Chicago. The police authorities of the latter city also believe that they now have sufficient circum-stantial evidence to convict Holmes of murdering the Williams sisters. Friends of the latter have taken up the case, and a warrant for Holmes' arrest on the charge of murdering the girls is expected to be

issued at any moment. Should such a step be taken a requisi-tion would have to be granted before the swindler could be removed from this state. This will be the barrier that will prevent the Chicago authorities from getting Holmes at this time.

District Attorney Graham will hold the prisoner in this jurisdiction until the Can-adian authorities have come to some disposition as regards the Toronto murders. It is thought beyond the shadow of a doubt that the disclosure at Toronto will prove Holmes guilty of killing little Alice and Nellie Pitezel. It is believed that if the Canadian authorities decide to try Holmes he will pay the penalty of his

nime on the gallows. Here are the crimes which up to this time are charged against Holmes: Murder, swindling, bigamy, conspiracy, ab-duction, forgery and horse stealing. The charge of horse stealing just came to light yesterday.

At the time that Holmes is supposed to have inveigled Minnie Williams out of hermoney and property he, in company with Benjamin Pitezel, went to Fort Worth, Tex. Holmes had it given out that he was immensely wealthy. He had a business block located in the town, and gave notes as security for the payment of its construction.

When the building was completed he had it mortgaged before the notes were The townspeople then came to the paid. conclusion that the man was a swindler. He skipped the town in company with Pitozel. On their way north they passed through the blue grass region of Kentucky, where Holmes appropriated to him-self twelve high bred horses from a stock farm' near Lexington. He shipped the animals to St. Louis and sold them. He then escaped, although the detectives wore hot on his trail.

Holmes was visited in his cell yesterday by his counsel, William A. Shoemaker, and to him he for two hours or more spoke freely of the finding of bones and other fragments of human anatomy found in "castle" in Chicago. He declared that the tuft of human hair found in the chimney could not have belonged to Minnie Williams, for the reason that the chimney was a new one, put in after the girl's dis appearance. As to the bones, he said, they were not those of Gertrude Conner, Minnie Williams, or any of the other persons whom he was charged with having murdered. "The police simply don't know what they're taking about," he con-

cloth was a bunch of hair, which, however, was so badly discolored that its original shade could not be determined.

The find was mysterious, as neither the skull nor any of the leg bones were found with the ribs and bits of vertebres. A small phial, containing a peculiar looking fluid. was found with the skeleton, but its nature could not be determined without tests, and it was accordingly sent to a chemist for examination.

Geyer's Search for Howard Pitezel's Body. INDIANAPOLIS, July 25.- Detective Geyer arrived here last evening. He says he is satisfied that Howard Pitezel was never taken away from here, and that Holmes followed his plan in other cities-rented a house here, in which he murdered the boy and buried him, probably under it. It is upon this theory that he will work here. and although he does not admit it, he evidently has some important information which he is not yet willing to make pub-lic. The theory of the shipment of the boy's body from here in a trunk he says is not tenable, as he ran it down and found that the trunk shipped from here to Detroit contained only the clothing of the Pitezol girls.

Toronto Demands Holmes' Extradition. TORONTO, July 25 .- The adjourned inquest on the body of Alice Pitezel was concluded last night. After ten minutes absence the jurors brought in a verdict against Holmes, alias Mudget, alias Howard, of murdering Alice Pitezel in the city of Toronto, on or about Oct. 25, 1894. After the return of the verdict, the coronor made out a warrant for the arrest of Holmes. The warrant was placed in the hands of the attorney general this morning, and the necessary papers will be made out de-manding Holmes' extradition.

Hypnotism in a Damage Suit, PORTLAND, Me., July 25.-Suit was brought yesterday against L C. Young and John F. Cleary, Miss Dora Moses by George H. Morrow for alleged allenation of Mrs. Morrow's affections, the amount of damages claimed being \$20,000. Miss Moses worked for Young, who is one of the largest clothing dealers in this city, and boarded with Mrs Morrow. Mr. Morrow claims that through Miss Moses' good offices Young and his wife became neguninted, and that Miss Moses had undue influence over his wife and hypnotized her so that she fell in love with Young. TRAIN ROBBERS IN OHIO

A Lake Shore Train Held Up by Bandits at Reece's Switch.

BUT LITTLE PLUNDER SECURED.

It is Amerted That the Robbers Got Only 6150 for Their Trouble-The Big Safe, Containing a Large Amount, Resisted Denamite-Five Suspects Under Arrest.

Tongno, July 23 .- Just after midnight train No. 37 on the Lake Shore cond, to as attached an express car, which runs W - Buffalo and Chleago, was r E sear's switch, midway betwee Archhold and Stryker, forty-four mile west of this city. When some distance west of this city. from the switch the engineer saw the switch was turacd, displaying the red light, and at once turned on the air brakes several shots were fired at the cab. One f the shots put out the houllight. When the train stopped four robbers went to the express car, in charge of Messenger C.

B. Nottleman, of Buffalo, and ordered him to open the door and come out, Nettleman refused, and the robbers threatened to blow up the car. He then came out. When the door was opened the four men entered. They secured the contents of the local safe, amounting to

about \$150, and then went at the big safe, which contained considerable money Since the Kendalville robbery the exprescompany has supplied its cars with dyna mite proof safes, and this safe stood the test of four dynamice cartridges fired by the robbers. This discouraged them, and

they jumped from the train and disappeared. The trainmen believe that the desper-

does were old railroad men, but as all were masked with handkerchiefs none were recognized. Altogether there were six men in the party. The large safe, which resisted the attacks of the robbers, contained a large amount of money.

The description of the leader of the ban dits tallies exactly with that of the tall countryman who led the Kessler raid. His men in both robberies addressed him as Jim, and in both instances he displayed the daredevil bravado and absolute au-

thority over his men. James P. Stark, a clerk in Superintend-ent Johnson's office on the Lake Shore road, was on the train at the time of the robbery. He was seen at his home, and gave the following account of the robbery 'I think it must have been about 1 o'clock when it happened. I was sleeping in the smoking car at the time, and was awakened by hearing several shots as the train came to a standstill. The conductor said that the train was being held up. I did not go outside to investigate, being satisfied from what I heard that something was going on. Soon after hearing the shots I heard four explosions of dynamite, and then all was still, and soon the train pulled out for Stryker. I went into the express car afterwards and the messenger said he saw only four men. The robbers did not make an attempt to get into the passenger coaches. When the robbers left the express car one of them shook hands with the messenger and apologized for putting him to so much

WAUSEON, O., July 25 .- Five men are under arrest here on suspicion of being connected with the hold up of the Lake Shore train at Reece Station. The deteo tives refuse to state what evidence there is against them. Two tramps who were on the train jumped off when the shooting began and ran back to Archbald and notified the Lake Shore people there, and in less than three hours a special train carrying the sheriff of the county and a posse with several Lake Shore officials and de tectives, arrived at the scene of the hold The sheriff and his men, as well as the detectives, immediately started to scour the adjacent country. "For Charity Suffereth Long."

"Matron of a Benevolent Home and knowing the good Dr. Miles' Nervine has done me, my wish to help others, overcomes my dislike for the publicity, this letter may give me. In Nov, and Dec., 1893, The inmates had the "LaGrippe," and I was one of the first. Resuming duty too soon, with the care of so many sick, I did not regain my health, and in a month I became so debilitated and nervous from sloeplessness and the drafts ma my vitality, that it was a question if I could go on. A dear friend advised me to try Dr. Miles' Restorative Nervine.

I took 2 bottles and am happy to say, I am in better health than ever. I still continue Its occasional use, as a nerve food, as my work is very trying. A letter ad-dressed to Milwaukee, Wis., will reach me." June 6, 1994. MHS. LAURA C. PHOENIE.

Dr. Miles' Nervine is sold on a positive guarantee that the first bottle will benefit. All druggists sell it at \$1,6 bottles for \$26, or it will be sent, prepaid, on receipt of price by the Dr. Miles Medical Co., Eikhart, Ind.

Dr. Miles' Nervine **Restores Health** tinued, "when they say I murdered so many persons and buried their bones indiscriminately in every nook and corner I could find throughout the country.

"Quite a while ago I made a statement to the Philadelphia authorities that they were liable to find human bones in many different places all over the continent. I then frankly admitted that I had been engaged in a number of insurance swindies which didn't pan out. One of these was for a \$40,000 polley, and had to be abandoned in an embryonic state because the officers of the company became sus-picious. The idea was to have the bodies of a woman and boy found in their home and afterwards the corpse of a man with a bullet in his head, to make it appear a case of murder and suicide.

"I got two bodies from a graveyard to corresont the wife and son, but the husband's body had not yet been procured when the insurance agents learned of the scheme and the bodies had to be disposed of the best way I could do so. I had them embalmed and put in trunks which were sent to a cold storage warehouse. Before my preparations for getting rid of the bodies could be completed, however, the manager of the storage house notified me to take the trunks away or he would sell the contents. I did so, and the holles were buried in separate places. Where they are the police must find out."

Holmes said that the subterranean tank found in the Chicago establishment had served as nothing more harmful than a vat for illuminating oil used on the premises. The dumb waiter was accounted for by the fact that during the World's fair there had been a restaurant on one of the

upper floors of the building. In the transfer of properties between him and Minnie Williams, Holmes added, in which he had secured the Fort Worth property, a note in the shape of a mort-gage was given by Minnie Williams, and indorsed "Horace A. Williams," who was supposed to be her brother. She never had a brother, however, and the indorser was Holmes himself.
