

CATHOLIC FREE MASONRY

The Nucleus of Such an Order Now Forming in Brooklyn.
BROOKLYN, July 25.—A new order, for the present known as the Knights of Columbus, is forming in Brooklyn, with the probability of its extending not only throughout the state, but all over the country and Canada, and perhaps beyond the borders of the American continent. It is to be a sort of Catholic Free Masonry, and several lodges have already been formed. One lodge is made up almost entirely in its membership from the rolls of the Columbian club in this city.

The purpose of the new order is for mutual help and the furtherance of such schemes of beneficence in the way of life insurance protection for families and the like as may commend themselves to the best judgment of the members.
"It is to do for the Catholics," said one of the promoters today, "what Free Masonry does for such men as may enter that order. Politics will be absolutely tabooed, as it is in Free Masonry, and the founders of the order hope that, with a friendly feeling toward it in the church, a vastly influential membership will be gained."

The idea broached by a few club men of forming such an order grew so rapidly that it has been determined to call a conference of those who would be most likely to join, and a circular for that purpose is now being prepared.

The Last of the Whisky Trust.
CHICAGO, July 25.—General McNulta will soon be released from his trusteeship over the whisky trust, and the rest of the property of the concern not embraced in the sale to take place Aug. 14 will be put on the auction block, and the last vestige of the old trust will disappear, together with its accompanying litigation. A final decree in the case was entered by Judge Showalter yesterday. In the decree he reaffirmed all previous orders, and made perpetual the injunction accompanying the Olmstead bill of Jan. 8, 1895, and the order appointing the receivers.

Gentry Defeats Patchen.
FREEPORT, Ill., July 25.—Ten thousand people saw John R. Gentry pace all around Joe Patchen yesterday afternoon at Taylor's park. Gentry took the lead from the wire and was never headed to the finish, although Patchen was not far back of him until they passed the three-quarter pole, when Gentry pulled away and finished ahead in 2:04 1/2. Gentry went the first quarter in 28 secs., the half in 59 1/2 (which is the fastest half ever paced in public), and the three-quarters in 1:30.

Miss Davis' Assault Identified.
PHILADELPHIA, July 25.—Alleged to have been guilty of committing a brutal assault upon Miss Davis while in the act of robbing the residence of her parents at Atlantic City, two weeks ago, William Brennan, alias "Reddy" Larkins, was given a hearing before Magistrate Jernon yesterday afternoon. Miss Davis, still suffering from the effects of her encounter with the man, came up from Atlantic City in the forenoon. She positively identified Brennan as her assailant.

Linson Proves an Alibi.
INDIANAPOLIS, July 25.—The mystery of the murder of little Ida Gebhardt, whose mutilated body was found in a tool chest Tuesday night, is still unsolved. John R. Linson, formerly a railroad engineer, was arrested, but an almost complete alibi has been established for him. The post-mortem developed the fact that the child had been horribly cut with a sharp knife after the manner of the London ripper. She was thus mutilated before the assault.

Mill Closed Down by a Strike.
BRIDGEPORT, Conn., July 25.—The strike at the J. C. Textile company's works has assumed large proportions. Last Monday 150 weavers went out because the firm refused to discharge two strikers who returned yesterday afternoon. Miss Davis, still suffering from the effects of her encounter with the man, came up from Atlantic City in the forenoon. She positively identified Brennan as her assailant.

A Veteran's Revenge.
NEWPORT, Pa., July 25.—John Matthews, a one-eyed veteran, last night shot and severely wounded Elias Campbell. Several shots were fired, but only one took effect. Last week Campbell caused Matthews' arrest for wife beating, and the shooting was in revenge for the prosecution. Matthews was arrested and sent to New Bloomfield jail to await the result of Campbell's injuries.

Kidnapping at Rio Janeiro.
RIO JANEIRO, July 25.—There is growing excitement in this city over the occupation of the island of Trinidad by the English. The government has dispatched two notes to the British legation of emphatic protest, quoting the order of the British admiralty of 1781, by virtue of which Trinidad was vacated by the English and restored to Portugal.

Mill Enterprises in North Carolina.
WINSTON N. C., July 25.—The Revolution Cotton Mill company and Proximity Manufacturing company are the names of two enterprises just incorporated at Greensboro. The capital stock of each company is \$200,000, all of which has been paid in. Two more companies have been formed in the city and will probably be incorporated this week.

Connors' Wound Proves Fatal.
PHILADELPHIA, July 25.—Joseph Connors, the young man who last week in a moment of jealous anger shot Kate Connelly at his home, 2744 Kensington avenue, and then shot himself, died yesterday at the Episcopal hospital. His victim, who is in the same institution, is recovering.

THE EDITORS' TRIP.

One of the Most Enjoyable They Have Ever Had.

The excursion of the Pennsylvania State Editorial Association last week was one of the most enjoyable in the history of the organization. The main body met at Harrisburg on Monday, and left for Buffalo, N. Y., by special train on Tuesday morning. At Sunbury and Williamsport many representatives of the association joined the party. The special arrived at Elmira, N. Y., at 1:30 p. m. and after allowing half an hour for refreshments proceeded to Canandaigua. The journey between these points is a delightful one. Buffalo was reached at 6 p. m. on Tuesday.

The Pennsylvania Railroad Company furnished the special train from Harrisburg to Canandaigua and the New York Central and Hudson River railroad furnished transportation to Buffalo, and both companies afforded the excursionists excellent accommodations. At Buffalo the excursionists were quartered at the New Tilt and the Genesee hotels. Both are first-class places and are excellently managed. They can be unhesitatingly recommended.

On Wednesday a trip was made to Depew, a new but flourishing industrial town located eight miles from Buffalo. The train for this trip was furnished by Mr. C. A. Beach, superintendent of the Lehigh Valley Railroad Company. Depew is but two years old and yet has a population of 5,000, with electric railways, water, gas, electricity and many other conveniences of modern cities. The industries of the place are making remarkable strides. They give employment to 1,200 men, but as soon as the shops in course of erection are completed the working force will be increased to 5,000. The site of the town is large and the working people have ample opportunity to secure their own homes. The prospects of plenty work are very bright. Four large railroads pass through the town and they enjoy great traffic.

The party returned to Buffalo in time for lunch and spent the afternoon sightseeing in the city. In the evening a complimentary production of "Sam'l of Posen" was witnessed in the opera house.
On Thursday the N. Y. C. & H. R. R. Company placed another special train at the disposal of the newspaper men and their ladies and a trip was made to Niagara Falls, that point being reached at 10:30 a. m. The majority of the excursionists stopped at the International Hotel and others secured quarters at the Imperial and Porter. All the hotels were found first class.

While at the Falls a visit was made to the power house of the Cataract Electric Power Company, which has succeeded in harnessing the mighty waters of Niagara for a distribution of power through New York and New Jersey. The inspection revealed many features of intense interest and Mr. Rankin, the superintendent, devoted considerable of his valuable time to an explanation of details. Sightseeing followed a luncheon. Those who secured carriages and guides from the Miller & Brundage Coach Company, of Niagara, were fortunate. The fees charged are moderate, and the satisfaction secured is worthy many times the charge. Right here it may be stated as a warning that when people go to Niagara Falls they can escape swindles by stopping at first-class hotels and hiring carriages from such companies as the Miller & Brundage. The charges are higher than many of the inducements offered, but they are the cheapest in the long run.

On Friday morning the Association proceeded by rail to Lewiston and there boarded one of the passenger steamers of the Niagara Navigation Company for Toronto, Canada, arriving at that beautiful city at 10:30 a. m. A trip about the city was made on the electric belt line and many important points were visited in carriages. At noon a sumptuous dinner was served at the Hotel House at Toronto and at 2 o'clock the excursionists embarked on the Chippewa for the return trip to Lewiston. Arriving at that place a number of the excursionists boarded the trolley cars for a trip along the Canadian side of the Niagara to Niagara, Canada, where they crossed the suspension bridge and sought their respective hotels. At 6 o'clock Friday evening all hands boarded a train of New York Central sleepers homeward bound.

For this delightful trip the association is indebted to Messrs. J. E. Wood, assistant passenger agent of the Pennsylvania railroad; George H. Daniels, general passenger agent of the New York Central and Hudson River railroad; W. I. Beaudouin, traveling passenger agent of the same company; Charles A. Beach, superintendent of Lehigh Valley railroad; Mr. Greenwood, of the International Hotel, Niagara; Mr. Rankin, superintendent of the Niagara power house; the Miller & Brundage Coach Company; L. J. Murphy, traveling passenger agent of the Niagara Navigation Co.; Rev. Wilson, pastor of the finest church (Methodist) in the city of Toronto, and

The Original Blowout.
"You have often heard the expression 'We had a great blowout last night,' used in connection with a dance or some sort of amusement," said a gentleman yesterday. "Do you know the origin of the word 'blowout'?" No? Well, I'll tell you of it. Away back in the thirties the cotton mills at Lowell, Mass., were furnished with operatives from the families of the farmers living about the town. The sons and daughters of the sturdy farmers held positions in the mills, and coming from such good old stock there was a sort of social spirit developed among the employees which is not found in factories in these days. From the factories of Lowell some prominent people have come. Helen Hunt Jackson was employed there at one time.

The hours were long, and in winter time lamps had to be provided to give light to the workers. It was before the days of kerosene, or, as they used to pronounce it when it did come out, "kerosen," with the accent on the 'o.' Whole oil lamps were burned. They were lighted on Nov. 1 regularly every year, and their use was dispensed with on May 1. It was the operation on this latter date that originated the word 'blowout.' When the bell sounded on this day to quit work, all lamps were blown out simultaneously, not to be lighted again until November. This was called the 'blowout,' and after this a dance or supper would be given, which at first was called the 'blowout dance.' The 'blowout supper' until finally any festivity attending the extinguishing of the lamps for the year was called the 'blowout.' So the word 'blowout' was originated."—Pittsburg Dispatch.

Full soft with starch and glass lenses. The linen collar starts the morning. Full soft at nighttime it is seen. All washed, wrinkled and forlorn. That's what you must expect of such a collar; it's the linen of it. The stand-up collars won't stand up, and the turn-down collars will wilt down. The easy, cheap, and pleasant way out of this is to wear "CELLULOID" COLLARS AND CUFFS. These goods are made by covering linen collars or cuffs on both sides with "CELLULOID," thus making them strong and durable, and water-proof, not affected by heat or moisture. There are no other waterproof goods made this way, consequently none that can wear so well. When soiled simply wipe them off with a wet cloth. Every piece of the genuine is stamped like this:

Insist upon goods so marked if you expect full satisfaction, and if your dealer does not keep them, send direct to us enclosing amount and we will mail sample. State size, and whether a stand-up or turned-down collar is wanted. Collars 45c. each. Cuffs 50c. pair. THE CELLULOID COMPANY, 427-29 Broadway, New York.

Last summer one of our grand children was sick with a severe bowel trouble. Our doctor's remedies had failed, then we tried Chamberlain's Colic, Cholera and Diarrhoea Remedy, which gave very speedy relief. We regard it as the best medicine ever put on the market for bowel complaints.—Mrs. E. G. Gregory, Erielecks town, Mo. This certainly is the best medicine ever put on the market for dysentery, summer complaint, colic and cholera infantum in children. It never fails to give prompt relief when used in reasonable time and the plain printed directions are followed. Many mothers have expressed their sincere gratitude for the cures it has effected. Cures the Tobacco Habit
IN 4 TO 10 DAYS
OR MONEY REFUNDED.

Use All The Tobacco You Want Till Your "Craving" is Gone.

NARCOTI-CURE is the only remedy in the world that acts directly on the nerves and drives the nicotine from the system in from four to ten days. It leaves the patient in better health than before taking, and is warranted free from any injurious ingredients.

NARCOTI-CURE is popular because it allows the patient to use all the tobacco he wants while under treatment, or until the "craving" and "hankering" are gone. It is then no sacrifice to throw away tobacco forever.

NARCOTI-CURE is sold at the uniform price of \$5.00 a bottle, and one bottle cures. Money refunded if a cure is not effected when taken according to directions.

Gentlemen:—Replying to yours of the 1st, would say that I have used tobacco for 46 years, and of late have consumed a 10-cent pipe a day, besides smoking considerably. I commenced to use tobacco when I was only 11 years old, and have never been able to give up the habit until I took NARCOTI-CURE, although I have tried other so-called remedies without effect. After using your remedy four days, all "hankering" for chewing disappeared, and in four days more smoking became unpleasant. I have no further desire for the weed, and experienced no bad effects, whatever. I am gaining in flesh, and feel better than I have for a long time. To all who wish to be free from the tobacco habit I would say, use NARCOTI-CURE.
Yours truly,
W. N. WAITE.
