TESTING THE PUMPS.

Councilmen Spend a Day Inspecting at Davis' Run.

WITH NO DEFINITE RESULT

Operations With and Without the Condensers Attached to the Pumps Leave a Question Undecided.

At eight o'clock yesterday morning several of the Councilmen left town in carriages and drove to the public water works pumping station at Davis' Run to make an inspection of the plant, but more especially to make a test of the pumps with and without the condensers. The Councilmen who made the trip were Messrs. McGuire, Kane, McElhenny, T. J. James, D. R. James, Gable, Kerns, Dougherty, Hand and Reese. Superintendent Betteridge also drove over. Councilman Schoppel and Town Clerk Kinney, of Girardville, were also in the party. They were a special committee appointed to inspect the plant and make a report to their Borough Council, which has an option on a water shed at Gordon and contemplates constructing public water works.

Several townsmen followed the borough fathers to the valley and witnessed the operations, among them Messrs. B. R. Severn, F. C. Reese, Daniel Brennan, Phillip Gable and Justice J. J. Carlin.

Upon arriving at their destination the Councilmen first went to the reservoir and looked over it very carefully. They found everything in excellent condition. There is an abundance of good water in the reservoir and the surrounding grounds look neat and clean.

Several townsmen followed the borough fathers to the valley and witnessed the operations, among them Messrs. B. R. Severn, F. C. Reese, Daniel Brennan, Phillip Gable and Justice J. J. Carlin. Upon arriving at their destination the Councilmen first went to the reservoir and looked over it very carefully. They found everything in excellent condition. There is an abundance of good water in the reservoir and the surrounding grounds look neat and clean. Councilman Schoppel and Town Clerk Kinney, of Girardville, were also in the party. They were a special committee appointed to inspect the plant and make a report to their Borough Council, which has an option on a water shed at Gordon and contemplates constructing public water works. Superintendent Betteridge was sent to a hotel at Brandonville and he ordered a dinner for the party. He returned and stated that a feast would be ready at two o'clock. This stopped the inspection and Councilman McElhenny then turned his attention to the pumps. "Mac" doesn't know much about water pumps, but he knows how to raise the wind and as the Councilmen spent the whole day on the expedition they had occasion to feel grateful to him for the kick he made. The object of the test made was to find out whether it is more economical to operate the pumps with the condensers, or by having them exhaust into the atmosphere. The question is still debatable. Councilman Gable says that a six-day test will be required to decide the point. The Councilman claim that yesterday's work showed that the results were about equal, but he maintains that a weighing of coal and other tests would show a result in favor of the operation of the pumps without the condensers. There is still a big difference of opinion among the Councilmen on the question and it is not likely that the condensers will be dispensed with. Many of them believe that exhausting into the atmosphere consumes a greater amount of coal, and Fireman Casey says such has been the case with the pump which has been disconnected from the condenser. The engineer also claims that the pumping capacity with the condenser is greater. Councilman D. R. James seems inclined to dispense with the condensers if it can be shown they pollute the water that is forced back into the reservoir. Councilman Gable says the pollution is a natural consequence. One thing the latter Councilman succeeded in demonstrating to his colleagues was that the glands of the plungers were kept screwed too tight. This, alone, several of the Councilmen said, was worth the trip. During the test the pumps were operated at 55 poles, or 14 revolutions per minute. This meant a pumping of a fraction over 41,126 gallons per hour, or 495,916 gallons per day of 12 hours for each pump, and there was room to increase the capacity considerably. The test was made with 100 pounds of steam. The Councilmen returned at about 5:30 o'clock last evening.

For example, put a couple of drops of Thomas' Electric Oil on a bit of cotton and place it in the ear. The pain will stop in a few moments. Simple enough, isn't it? Will Play on Conditions. EDITOR HERALD:—The bakers, of town, are willing to play the butchers a game of base ball next Thursday afternoon according to their challenge, but before the game comes off the butchers must pay for the last game. Moreover, they must pay the money down for the coming game, or else say nothing about ball playing.

TOSH AGAINST SCOTT.

A Warrant Was Issued For the Sheriff Today.

CHARGES OF BRIBERY MADE

The Complainant Alleges That the Sheriff Gave Him Money to Work For the Latter's Nomination in the Convention.

It would seem that Chief of Police Tosh of town is determined to press his complaint against Sheriff Alexander Scott to the bitter end. Mr. Tosh instituted quo warranto proceedings some months ago to have the Sheriff ousted from office, alleging that anti-election promises had been made, but a few days ago, after argument by counsel for both sides, the Attorney-General dismissed the application, stating that the charges had not been sustained.

At the time the decision was rendered Mr. Tosh stated that the case had by no means ended and developments of today substantiated his statement. This morning Constable Matt Giblin received a warrant issued by Justice Doblin and sworn out by Mr. Tosh, charging the Sheriff with bribery. The constable went to Frackville to make service.

The law under which the warrant was issued is embraced in section one of the Act of Assembly to prevent bribery and fraud at nominating elections, etc. The law reads:

"That hereafter, if a candidate for any office within this commonwealth shall, directly or indirectly, give, offer or promise to give or procure any other person to give, offer or promise to give, to any elector, any gift or reward in money, goods or other valuable things, or any security for the payment or delivery of money, goods or other valuable things, or any office, employment or privilege, on condition, express or implied, that such elector shall cast, give, retain or withhold his vote, or use his influence at a nominating election, or delegate election, or cast, give or substitute another to cast or give his vote or use his influence at a nominating convention, for or against the nomination of any particular candidate for nomination, so as to procure such person to be voted for, at any election to take place, the person so bribed, procuring, influencing, abetting, endeavoring or offering, either directly or indirectly through others, their aids or abettors, to procure the person to be voted for by such electors, shall be guilty of a misdemeanor, and on conviction shall be sentenced to pay a fine not exceeding three hundred dollars and be imprisoned for a period not exceeding three months."

The specific charge made by Mr. Tosh in the warrant is:

"That, on the 13th day of August, 1894, and afterwards, Alexander Scott did corruptly promise this deponent that if he (Scott) was nominated and elected Sheriff he would appoint Tosh (him) his deputy in the Sheriff's office; and also at different times gave this deponent money to vote and work for him, to wit: at Shenandoah, in front of John Roberts', \$10; and at Frackville, \$10; in D. H. Lewis' saloon, \$10; said several sums were given to this deponent to be used in interest of election of Scott and was always coupled with promise that he (Scott) if he was elected, would appoint this deponent, T. Tosh, a deputy sheriff in the Sheriff's office."

Constable Matt Giblin served the warrant on Sheriff Scott this morning in the Sheriff's office at Pottsville. Mr. Scott at once sought the advice of counsel and W. J. Whitehouse, C. E. Breckons and T. E. Beddall, Esqs., prepared a bond in the sum of \$500, which was signed by Frank Haus and presented as security for the Sheriff's appearance for trial.

A HERALD reporter accosted the Sheriff in relation to the matter and was referred to C. E. Breckons, Esq., who said there was nothing more to say than that the Sheriff's answer to the charge was a general denial.

Gave Him Punch. While Special Officer Mullahey was standing at the corner of Centre and Bowers streets at an early hour Saturday morning three Poles approached and asked him what he was after. Mullahey told them to go about their own business. They invited the officer to go with them to get a drink, and upon getting him in a alley one of the men punched him. Policeman Lee had been watching the Poles and was promptly on hand when the punching started. The man who struck Mullahey was arrested and paid fine and costs before Chief Burgess Burns.

Watson House Free Lunch. Nice lunch tonight. Cream soup tomorrow morning.

Look at the Balance. There is still a small balance of goods left at Coffey's grocery, 34 East Centre street, which must and will be sold at a sacrifice. Molasses, 5 cents per quart; cheese, 3 pounds for 25 cents; earthen crocks, 3 and 5 cents each. Families in need of preserving jars, tea cans, buckets, mirrors and two pair of scales, will find excellent opportunities here. 29-3f

Final Excursion. The second and last excursion to Atlantic City over the Philadelphia & Reading railroad will take place on August 2nd. Full particulars will be announced in due time. Give teething children Luk's soothing syrup.

The Water Spouted. A lead joint was blown out of a pipe of the public water works at the corner of Emerick and Coal streets yesterday morning and before the water could be turned off a large excavation was made about the pipe. Superintendent Wasley, of the old water company, turned off the water in the absence of Superintendent Betteridge, who was with the Councilmen at the pumping station. Men were put at work to make repairs yesterday afternoon.

OUR VIEWS ON THE TWO POLITICAL QUESTIONS OF THE DAY.

On the Silver Question

You bring us the silver, and we will give you the best value for it in groceries than any other store in town.

On the tariff, Tariff "for revenue only." That is, we put on just enough tariff to produce sufficient revenue to pay us for fourteen hours work every day.
