Evening Herald.

TUESDAY, JULY 30, 1895.

THE Gilkeson-Quay fight is now assuming a shape that seems to leave Quay a walk over.

IF the pumping station at Davis' Run proves as effective when in full operation as it looks the people of Shenandoah will be justified in placing great pride in it. It is certainly a very pretty plant.

THE approaching Republican state delegate elections are not stirring up much wind. But they may be like a smouldering fire and break out in a great blaze a few days before the day of battle arrives.

WHEN the HERALD reported several weeks ago that the people of Giranlville were making soundings for a water works plant Becker's Item contradicted the report and said the people had dropped such ideas. It now appears that the HERALD was right, as the borough has secured an option for a site for a reservoir at Gordon. Friend Becker should keep better posted on home events.

IT seems paradoxical to all see liquor dealers league appealing for a strict enforcement of the Brook's high license law, The members of the league can bring about a compliance without any trouble. If they obey the law, dealers who are not members will be afraid to violate it. It is hoped special attention will be given dealers who sell liquor to children.

"My Sweatheart of Years Ago," is a beautiful waltz song and chorus. Published for Piano and voice, also Mandolin and Guitar; Mandolin and Piano, Full Band and Orchestra. By way of introduction, either of the arrangements will be mailed to any address on receipt of 15 cents in stamps when ordered direct from ISAAC DOLES, (Pub., ) Indianapolis, Ind. Regular price, 50 cents each. 7-30-1t

#### A Large Waist

Is not generally considered a necessary adjunct to the grace, beauty or symmetry of the womanly form. Within the body, of the womanly form. Within the body, however, is a great waste made necessary according to the condition of things-con-tinually in process and requiring the per-fect action of all bodly functions to ab-sorb or dispel the refuse. When there is irregularity or inaction, indies who value a clean, pure, healthy body will take Dr. Pierce's Favorite Prescription-the only remedy for woman which being once used is always in favor.

any dioctors have failed to cure you, ask your druggist for a 25-cent vial of one of Munyon's Cures, and if you are not bene-dited your money will be refunded. This Company puts up

A cure for every disease SILVER DEBATE

Final Utterances in the Great Financial Controversy.

### OUR NATION'S SILVER PRODUCT.

Both Disputants Agree That It Is Small in Comparison with the Wealth of the World - Mr. Horr Says Free Silver Would Drive Gold from the Land.

CHICAGO, July 30 .- The last day of the Horr-Harvey debate opened yesterday af-ternoon. The day's attack was directed at the question of the feasibility of inde-pendent action by the United States for the remonetization of silver and its free and unlimited coinage at a ratio of 16 to 1 with gold, regardless of the acts of other nations, Mr. Harvey arguing for such action, Mr. Horr against it.

Mr. Horr against it. Mr. Harvey presented a table showing the colnage of gold and sliver from 17.5 to 1978. He did this to show that gold did not seek the mints i tor the first fifty years of the new provide that sliver did not from that threas the 1979. that time till 1873. Mr. Horr declared it was useless to try

and fix the relative value of any two sub-stances by legislation. The law of supply and demand stepped in there, and the his-tory of the world's legislation showed that it was impossible to maintain a fixed ratio between the precious metals.

Mr. Harvey said that gold was irregularly produced and was hearded by the few rish. Silver, on the contrary, when more valuable than gold, was hearded by the mass of the people, thereby conferring a general benefit. It was for this reason that silver had been a more stable metal in the past than gold. Referring to Mr. Harvey's statement

that the remonetization of silver would

#### WILLIAM H. HARVEY.

reduce debts by one-half. Mr. Horr said that by far the largest part of the debts in the United States were less than one year old. 'The short time debts were contracted under the exporting gold basis and to reduce them one-half would be to

Mr. Harvey said the gold advocates feared that debts contracted in gold would be paid in silver, and the man who had stipulated to pay in gold would have to buy it at a premium. This was fallacious. If at the next general election a bimetallic congress should be elected, the rubicon would be passed the next day. Silver would at once begin to appreciate and gold to depreciate, but it would be at a parity before the meeting of congress. Mr. Horr said that the savings bank depositors had \$1,712,000,000 on deposit, which it was proposed to cut in two. Building and loan associations had 1,725,000 deposit-ors, with an aggregate of \$525,552,000 due them. In addition to these were the trust companies, life insurance companies and state banks, all of which were to be allowed to pay in depreciate money. All of this for the benefit of 20,000 silver men. Why, their output was not worth half as much as the eggs yearly laid by the heas of the United States, and was about equal in value to the peakut crop. But the worst feature, he asserted, would be the destruction of all credit. It would bring

did very well then, but the growth of elvilization and commerce had since de-manded a change in the standard. That

standard should be gold. Mr. Harvey, rising for his closing ad-dress said he accepted the present from Mr. Horr of the Chinese colus. He ob-jected, however, to the references of Mr. Horr to the silver coin. The United States was the chief producer of silver. Until 1878 it was the most sacred metal of our coinage. It was the measures of all values. In 1873 it was struck down, as Casar was by the dagger of an assassin

In closing Mr. Harvey denounced the president's foreign policy and financial policy, and declared that the friends of silver were fighting the battle of the people of the world. He declared that a ond declaration of independence in the

United States was needed. It should be said that the attendance at the sessions of the discussion was by card only, and was limited to the capacity of the hall, which was about 200. This space was generally fully occupied.

# Mr. Rockefellant and General Dental.

CLEVERLAND, July 80 .- The answer of onn D. Rockefeller, who was garnisheed in the of \$425,000 several weeks ago by the American Steel Barge company, was filed in the common pleas court yesterday. The defendant claims that he did not at the time of the service have any money be-longing to Alfred or Leonidas Merritt, nor was he indebted to them in any sum whatever. It will be remembered that the Merritts recovered a judgment for almost \$1,000,000 against Mr. Rockefeller in the Minnesota courts, and as soon as the judgment was rendered the barge company, who claimed that the brothers owed them \$425,000, garnisheed Mr. Rockefeller

#### Sava She Was Hypnotized.

PORTLAND, Ore., July 30.-Dolly Agnew, the young womau confined in the county jail on a charge of larceny, only one of many similar previous escapades, has made the startling claim that she is subject to hypnotic influence. She claims that William Woodward forced her to steal in spite of herself. When she is released here she will be taken to Tacoma to answer charges of wholesale thievery from lodging houses hotels, etc., and her friends will endeavour to show in defense that the young woman's oriminal career of the past two years is due to the peculiar power exercised over her by Woodward, her accomplice in some of the robberies.

#### The Cunarder Aurania Detained.

NEW YORK, July 30 - The Cunard line steamer Aurania, which sailed from Liverpool July 20 and Queenstown July 21, and was due at this port on Sunday, has been sighted by three vessels, two of which she signalled that her machinery was disabled. On July 27 the Aurania was spoken by the North German Lloyd steamer Saale. Captain McKay reported a light defect of the engine. Repairs were being made, and he hoped soon to be able to resume his voyage. What the nature of the damage was Captain Maller was unable to ascertain, but it was not serious.

### BODICES AND HATS.

Silk Crepons With Oriental Designs-Pop-

pics, Roses and Bluets. Bodices continue to be highly fantastic, in strong contrast with the sovere simplio ity of the overfull skirts, few of which have any trimming whatever. Many bod ices are different both in color and material from the skirt and sleeves, silk or velvet brightest colors.
