SATURDAY, AUGUST 3, 1906.

SHOULD the people of Turkey Run organize a fire company they should receive all reasonable encouragement and aid the borough can give them.

THE drop in the temperature which has been experienced during the past few days has brought the weather down to a coldest point which has placed it among the coldest days of summer known in the history of weather prognostications.

OPEN air concerts form a boon of which few towns in the states can boast, and the people of Shenandoah should consider themselves fortunate that their town is one of them. The concert given by the Grand Band last night drew a large attendance and the land lost none of its popularity through it.

THE Hastings club is a very lively corps, and is causing some of the Philadelphia and Pottsville anti-Quay organs considerable uneasiness. The apparatus, when it walks the streets of Harrisburg one hundred strong, will make the dry bones in the Gilkeson graveyard rattle.

FROM the progress of the public water works management, as made up to date, it would seem that the first thing the borough should do is to make an official map of the location of all steps. If such a map has been made, it must be lost, as it seems next to impossible to turn off a water in one part of the town and not disturb the distribution of another part that is not interested.

NOTWITHSTANDING the attempts of the Pottsville Club to ridicule it, the Hastings Club will go to Harrisburg when the Republican state convention is held and will show the representatives of the party who will assemble there that the reports that the club is a mushroom organization of a handful of men are wholly without foundation in truth. The Hastings Club will be in line at least one hundred strong, and will shout for Quay, too. Stick a pin there.

THE people should exercise for leanness and not complain of the tearing up of streets merely for the purpose of putting out an evil. The public water works cannot be put into operation without rendering considerable inconvenience to teamsters and others for a while, and the undertaking of making the connections is not one that can be carried out as systematically as older established branches of industry. Of course, where there may be unnecessary delay, or apparent neglect, a complaint cannot be criticised.

SENATOR QUAY will win his fight with the Gilkeson people on a very respectable margin. It is now a certainty that he will have enough staunch votes to win. There will be no compromise. Talk of a compromise, after such a war as has been waged against Mr. Quay, is absurd. His friends very properly consider the fight against him as personal, and a compromise is simply out of the question. It is a fight to the finish, in which Senator Quay is bound to win, and the result will in no manner impair the strength of the Republican party in Pennsylvania.

THE county superintendent of public schools throughout the state reports that the number of applications for positions as teachers in the schools has greatly increased. In view of this it has been suggested that the standard of qualifications be raised. The remedy suggested is a very good one and will be of vast benefit to the rising generation. It is a well known fact that there are many people teaching school who are not really competent to do so, and we must say that Shenandoah has been very fortunate in this respect.

THE Hastings club, in endorsing the administration of His Excellency, Daniel H. Hastings, has simply done that which every loyal Republican can and should do. We may have differed with the Governor on some questions which have come before him for official action, but as a whole his administration is so far above that of his Democratic predecessor that it becomes a pleasure not only to Republicans, but thousands of Democrats as well, to accord the governor all that is due him in this respect. His desire to preside over the Republican state convention is a laudable one and is an honor that is accorded but few. The friends of Matthew Stanley Quay, as well as the Junior Senator himself, concede him this. It is plain, therefore, that there is no opposition to the Governor, nor should there be. But with Little Gilkeson, matters are different.

Decided in Favor of the Fenny.
PITTSBURG, Aug. 3.—An opinion favorable to the defendants has been filed in the famous case of Samuel Baber et al., heirs of John Barber, against the Pennsylvania Railroad company, in which the plaintiffs lay claim to the property on Pennsylvania avenue, in this city, occupied by the extensive office buildings of the company. The claim involves about \$2,000,000 and has been fought in various courts for about five years. It is probable that the plaintiffs will appeal to the United States supreme court.

An Aeronaut's Fatal Fall.
PHOENIX, A. T., Aug. 3.—Aeronaut Burke made an ascension by night in a hot air balloon, but in descending in his parachute he fell on top of a house, sustaining injuries from which he shortly afterwards died. His partner, Nelson, made an attempt a short time before. Nelson had got a short distance from the ground when one of the ropes broke, precipitating him to the earth. He escaped with a broken arm.

Mrs. Corbett Gets Her Divorce.
NEW YORK, Aug. 3.—Judge Gilchrist, in the superior court, signed a decree granting Mrs. Ollie Corbett an absolute divorce from her husband, Puglist James J. Corbett. The decree provides that Corbett shall pay his wife \$5,000 a year alimony. In case Mrs. Corbett remarries she will forfeit the alimony. She is authorized to resume her maiden name of Ollie Lake, and can remarry. Corbett cannot remarry until his wife is dead.

Pittsborough a Champion Biacastm.
PHILADELPHIA, Aug. 3.—In a horsemaking contest in this city last night Puglist Bob Fitzsimmons broke the record by forging thirty horse shoes in twenty-seven minutes. His opponent, John Corbett, of this city, made the same number in twenty-eight minutes, the same number in twenty-eight minutes, the same number in twenty-eight minutes, the same number in twenty-eight minutes.

Canada and Prohibition.
LONDON, Aug. 3.—The hearing of the provincial prohibition appeal before the judicial committee of the privy council, to decide whether the power to pass prohibitory liquor legislation belongs to the federal or the provisional authority in Canada, which began on Thursday, has been adjourned until Tuesday. The appeal is against a judgment of the supreme court of Canada. Questions touching upon the right to prohibit the manufacture and sale of intoxicating liquors were also raised.

Killed by a Thunderbolt.
FLAGSTAFF, A. T., Aug. 3.—At Grant Cannon Blatchley and Lewis Porter and Arthur S. Renton, visitors from Stamford, Conn., while returning from a visit to Bessie Point sought shelter under a huge boulder during a thunder storm. A thunderbolt struck the rock and Blatchley Porter was instantly killed. Lewis Porter and Arthur Renton were thrown from under the rock and rendered unconscious. Renton was the first to recover, and thinks he was unconscious half an hour.

Russia Ignores Ferdinand.
LONDON, Aug. 3.—A semi-official statement issued in St. Petersburg disposed of the rumors that Russia would probably recognize Prince Ferdinand as ruler of Bulgaria. The statement is to the effect that Russia will never enter into relations with the existing illegal Bulgarian government, which has been forced upon the principality by a usurper. Russia simply demands that a prince shall be chosen in accordance with the provisions of the Berlin treaty, with the concurrence of the porte.

France and the Waller Case.
WASHINGTON, Aug. 3.—Falling to receive any assurance of progress from Ambassador Eustis in the Waller case, Acting Secretary of State Debe has again cabled him to press the request for the record of Waller's trial in Madagascar, and has instructed him at some length as to the position which he should take in presenting the case. It is stated that Mr. Eustis is directed to say that a final refusal to furnish a complete transcript will be accepted by this government as a denial of justice.

They found but few of their countrymen located in Canada, only one Japanese living in the large city of Montreal, where he had been alone for ten years.

Miss Thomas Will Recover.
CINCINNATI, O., Aug. 3.—Two weeks ago Nellie Thomas was received at Cincinnati hospital and fifty needles and pins were extricated from her limbs. She had been doing yesterday by imbedding needles in the flesh. Yesterday, for the first time, she was able to sit up and walk. The physicians say she will recover.

THE QUINLANS CONFESS.

They Will Testify Against Holmes on Promise of Immunity.

CHICAGO, Aug. 3.—The police have at last obtained a partial confession from Pat Quinlan, the janitor of Holmes' castle, and have, they believe, positive evidence that Benjamin F. Pitelzel was murdered in this city by Holmes and the corps sent to Philadelphia.

The confession was wrung out of the Quinlans by means of a tip given the local officers by Detective Geyer, of Philadelphia, who was in this city yesterday. The exact nature of the story told by the Quinlans the police will not reveal, and in fact, Chief Balenoch and Inspector Fitzpatrick had both denied that Quinlan or his wife made any confession at all.

Notwithstanding the denial of the police, however, it is positively known that Quinlan made and signed a confession, because it was left where Quinlan's signature on the document could be seen, although the subject matter under which he wrote his name could not be ascertained. Today, however, it was learned that a confession was made covering all the details of the actual place in which the crime was committed. The police declare that by Monday they will have indisputable evidence that Pitelzel came to his end through the direct agency of H. H. Holmes. The confession was the latest kind of work, and at the price of a promise of immunity from punishment for all part the Quinlans may have borne in the murder of Pitelzel and other crimes committed by Holmes.

FINANCE AND TRADE.

The Usual Midsummer Halt Affects Business in General.

NEW YORK, Aug. 3.—R. G. Dun & Co.'s weekly review of trade says: There is a perceptible halt which may deceive if attributed to wrong causes. Trade two months late in springing forward into July a large share of business belonging to April or May. Seeing a rush of orders out of time many imagined it would continue, and hurried to give other orders. The Jan. of two months' business income lifted prices. Then other orders came to anticipate a further rise. But the midsummer halt was inevitable, and it is yet somewhat uncertain how much improvement will appear after it. Larger stocks than were immediately wanted have been taken by traders, as prices were advancing, and these tend to limit orders.

On the other hand, there has been an enormous increase in the working force and a considerable increase in wages paid, which enables people to buy more freely. Strikes of some importance appear, but do not yet threaten to last long.

Failures for the week have been 261 in the United States, against 230 for the same week last year, and 28 in Canada, against 14 last year.

The Assassination of Editor Olmos.

CITY OF MEXICO, Aug. 3.—The assassination of Editor Olmos in the city of Puebla has excited intense interest, both here and at this capital. It is now said that Olmos was suspected of being the publisher, as well as the editor of the mysterious weekly paper called Voice of Puebla, in which the administration of Governor Martinez was violently attacked and his reelection hotly opposed. Genevieve Olmos, a sister of the murdered editor, publishes a remarkable letter in a journal in this city in which she says she found her brother almost hacked to pieces, with many wounds made by knives and daggers. She intimates that he was killed by the secret police.

Beaver Island Swept by Flames.

MADISON, Wis., Aug. 3.—The probability is that a hundred residents of Beaver Island, located in Green Bay, at the entrance of the Straits of Mackinac, have been burned to death in the forest fires which have desolated the entire island during the last few days. Wednesday night the island was enveloped in flames, which could be seen for many miles out in Lake Michigan. The inhabitants, who are employed in fishing and lumbering, number about a hundred. The island is ten miles from mainland, and it is not believed that aid could have been secured in time to save life and property.

The Manitoba School Difficulty.

WINNIPEG, Aug. 3.—Sir John Schultz, governor of Manitoba, has transmitted to Premier Greenway a communication from the Dominion government asking Greenway to state just how far he will go in compromising the Catholic school difficulty. Sir John, after transmitting the communication, took the train for Banff, in the Rocky mountains, where Sir Mackenzie Bowell, premier of Canada, now is. The startling rumor is circulated here that if Premier Greenway persists in his refusal to remedy the grievances he and his ministry have dismissed from office by the Manitoba governor.

Four Tramps Killed in a Wreck.

CANTON, O., Aug. 3.—A freight on the Pittsburg, Fort Wayne and Chicago railroad broke in two on a heavy grade near Stark siding. The train cars were wrecked. THE GREAT MORA CLAIM.

Antonio Mora's Children Sue for a Slice of the Intendancy.

NEW YORK, Aug. 3.—Application was made yesterday for the granting of letters of administration upon the estate of Juan Maria Mora, one of the famous Mora claimants. The petition is made in the name of Jose Manuel Mora, a son, with residencies at Philadelphia and New York. The application is made for the purpose of eventually bringing proceedings in the nature of a suit to recover a half interest in the famous Mora claims, aggregating \$1,500,000, which the Spanish government has just decided to pay in three installments of \$500,000 each.

It is claimed by Jose Manuel that his father, Jose Maria, who died in Rio de Janeiro, Brazil, in 1892, and Antonio Maximo Mora, his brother, were in partnership in the large and valuable plantations on the island of Cuba, just outside of Havana, and that the property was confiscated by the Spanish authorities during the Cuban rebellion of 1871. It is understood that Antonio Maximo Mora denies that any partnership existed between himself and his brother, and that he will vigorously contest the attempt on the part of his brother's children to recover a part of the claim.

THE OMAHA MUDDLE.

American Protective Association Adherents Ignore the Court and Governor. OMAHA, Neb., Aug. 3.—The police commissioners acting under the American Protective Association police law are doing business in Omaha, regardless of the fact that the district court restrained the city council from approving their bonds. The outboard organization in the council has a working majority and the court's order was ignored. As a result a citizens' volunteer guard of a hundred men is on duty at the police station to maintain peace and assist the regular police force in holding possession of city property.

Messrs. Brockett, Vandervoort and Foster were given their certificates as police commissioners by the attorney general and commissioner of public lands and buildings. The governor warned them that their course was illegal. The Omaha council held a special session to approve the bonds, but were met with an injunction returnable today in the district court. The order was ignored with a hurrah, and then the police commission appointed a full police force. They will make an effort to get possession of city property, and blood may flow. There is much inflammatory talk, and several companies of militia in different parts of the state have been notified to be in readiness to move to Omaha in the event of trouble.

Governor Holcomb is preparing to maintain the law and is using all means in his power to conserve peace and have the whole squabble carried to the supreme court. At 11 o'clock last night the district court issued a second injunction restraining the new police commission from interfering with the old force or any municipal property or from acting in any capacity. The case will be heard this afternoon. The new commission has not yet indicated its action on this injunction.

The Ishpeming Strikers.

ISHPEMING, Mich., Aug. 3.—The Ishpeming and Negaunee strikers held a big demonstration at Ishpeming yesterday. Almost 8,000 men were in the line of march from the park at noon. Some of the speakers made an effort to induce the men to visit the mines to ascertain what concession the companies are prepared to make, but the matter was voted down. The men will not listen to compromise talk. It is certain that the companies will not recognize the union in any regard and are preparing for an indefinite shut-down of their works.

Miss Flagler Kill a Trespasser.

WASHINGTON, Aug. 3.—Miss Betsy Flagler, daughter of General D. W. Flagler, chief of ordnance, United States army, shot and instantly killed a colored boy named Ernest Green, who was stealing fruit in the yard of the Flagler residence, No. 2144 California avenue, Northwest. Miss Flagler was arrested, but the coroner's jury exonerated her and she was released from custody, the jury declared: "We believe that the shots were fired carelessly and indifferently, and not with murderous intent."

Held on a Heinous Charge.

FAIRMOUNT, W. Va., Aug. 3.—Scott Smith, proprietor of the World's Fair road house here, was committed without bail yesterday on a charge of committing a brutal assault upon Louie Conway, a 10-year-old girl. She is a granddaughter of the noted pioneer, Isaac Williamson. The excitement here is intense, and trouble is anticipated. The penalty for the crime is death.

Mrs. Talmage Seriously Ill.

BROOKLYN, Aug. 3.—Friends of Mrs. T. DeWitt Talmage, wife of Rev. Dr. Talmage, have received advices that she is seriously ill at Danville, N. Y., and may not recover.

NUGGETS OF NEWS.

The rainy season has stopped military operations in Cuba. Joseph Thomson, the noted African traveler, died in London. The continued rains in France are causing serious anxiety for the fringe. Mayor Street, of New York, appointed J. H. Fitzpatrick an examiner of the civil service board. He is a Democrat. Fresh detachments of French troops have been ordered to Madagascar to replace the invalided troops, who are ordered home. Corbin and George, horse thieves and murderers, had a desperate battle with officers near Salt Lake City. The outlaws escaped. The Spanish courts have declared void the will of Don Alexander Soler, who bequeathed several million pesos to Queen Regent Christina. While in the middle box of the excursion steamer Day Star, at Providence, R. I., last night some bolts, from American Flagging, were killed by the unexpected starting of the boat. At Danversfield, Tex., seven men called James Mason, a negro, of his house and shot him dead. His wife and child were also shot. The child will recover, but the woman will die.
