THE OMAHA CONTROVERSY.

The Police Commissionership Contest to be Settled in Court.

OMAHA, Aug. 6.—The answer of the A P. A. police commissioners to the petition of the regular fire and police commissioners was filed in the district court yesterday. The hearing will be in the nature of a test of the constitutionality of the new law under which the A. P. A. is

The petition claims that a premeditated plan was arranged by certain individuals to render the law vold, and "that for further prosecution of said plan, Mayor George Bemls procured a pretended injunction to be issued pretending to re-straining the city council from approving the defendants bond, but said injunction was and is illegal and void and of no effect and was procured with the fraudulent purpose and design of preventing the defendin pursuance of the aforesaid corruption, as defendants are informed and believe.

"Defendants further say that no pro ceedings have been commenced by saik plaintiffs to test the rights of those de fendants under the said law by quo war-ranto, and that the said plaintiffs have not commenced the same, and that the allegation in the said plaintiffs' petition that said plaintiffs are about to and will commence said proceedings and pursue them dilligently are without foundation and are not made in good faith, but are made for the purpose of deception, so that said plaintiffs may pretend to be acting in good faith in that regard."

The answer concludes: "If any dual board of commissioners exist it will be because said plaintiffs set aside the law."
