THE Holmes horror grows worse and worse, and there is no knowing where the schustly revelations will end. Evidence against the wretened man accumulates as investigations proceed in the cellurs and surroundings of the house which be occupied.

In the Leathan-Cain Poor Directorship contest at Bloomsburg, the fact was elicited of no serious nature. About ten or twelve that the assessor had given a tax receipt which had been used by from five to ten object was to scare them into leaving and different persons to vote upon. Truly Centralia needs to be Lexowed.

SHERMAN is the only man who has said that he is not a candidate for the Presidency and would not accept the office if it were tendered him. Several others have intimated that they do not care for it, but the probability is that they want it more than anything else in the world.

The talk about a third term for President Cleveland will likely end there, "Barkis is willin', " no doubt, but it is questionable if the Democratic party will try any doubtful experiment of this kind, as the sentiment of leading Democrats are not as favorable to him as they were some years ago. One object lesson in a generation is sufficient.

### QUIET AT SPRING VALLEY.

But the Exiled Negroes Have Not Yet Returned to Their Homes.

SPHING VALLEY, Illa., Aug. 7 .- The situntion is very quiet in the city. The ne groes are making no effort to come back. The reports about armed negroes coming from Peoria and Chicago to avenge Sunday's affair caused no unusual excitement here. They would not have only the Italian miners to deal with, but every white miner in the city as well, numbering in the neighborhood of 2,000. Word was sent

from Ladd and Toluca yesterday promising the whites all the assistance sary in case of an invasion of blacks from other towns.

In case of an invasion 5,000 white miners could be mustered together in this city less than two hours. The whites of this city do not apprehend any danger in that direction. They do not express the least sorrow over the event of Sunday, and invite a fair and impartial investigation They claimed to have endured the out-rages of the blacks as long as they could, but they are severe in their criticism of the sensational tales told in several dispatches to the morning dailies. A whole list of names have each day appeared as wounded and likely to die.

An Associated Press correspondent, who was on the ground and witnessed Sunday's battle from beginning to end, has succeeded in discovering but one negro shot, and the injury is only a flash wound were assailed with sticks or stones, but no attempts were made to kill. The prime never come back again. Everything has gone along smoothly since the negroes were driven out.

O. H. are as one in regard to it, and the coming convention will be unquestionably, the Irish leaders say, the largest ever held in this country in connection with the Irish question. Over 2,000 delegates have aldy signified their intention of attending the coming gathering.

THE HEATHEN CHINEE

Another Missionary Writes of the Barbarities at Changtu.

CHICAGO, Aug. 7 .- Letters from Rev. W. M. Uperaft, at Chung Kung, China, show that the Chengtu massacre was clearly premeditated. Mr. Uperaft savs: "The present occupation of the mis-

sionaries in Chung Kung may be scribed as a permanent council of war. As the reports come in from different parts of the province we begin to understand how widespread and serious are the riots. So far as can be learned not only Chengtu but the entire western part of the province has been raided.

THE CREW OF THE VALKYRIE

Will be Isolated After Their Arrival at Sandy Hook.

NEW YORK, Aug. 7.-It is understood that very little will be seen of Valkyrie III by New Yorkers until the day of the first race. According to present arrangements the cup challenger when she arrives here will be met at Sandy Ifook by a health officer, who will pass her, thus doing away with the necessity of coming to Upper Quarantine, and enabling her to anchor in the Horseshoe, back of Sandy Hook. This step, it is said, will be taken in ylaw of the attention which is generally heatowed upon the crews of cup challengers when they visit this country and anchor off Bay Ridge and elsewhere, This attention in several cases, it is claimed, has interfered materially with the work of the crews.

The American representative of Lord Dunraven, Mr. H. Maitland Kersey, has chartered the big propellor City of Bridge-port, which will act as a tender to Valkyrie III, and on board of this tender the crew of the English yacht will eat and sleep. In order to provide for the accom-modation of the Valkyrie seamen, carpen ters are erecting fifty berths on board the City of Bridgeport, and cooking utensils are being purchased for their use. City of Bridgeport will have on board all spare spare, salls, rigging, etc. Valkyrie III, and will be a floating hotel and storehouse for the use of the crew of the cup challenger and her belongings.
