THE result in Schnylkill county was a squelching that no opponent of Quay other than Gilkeson has ever experienced.

Ir is remarkable that that supposedly un erring organ of public speech in Pottsville couldn't see far enough ahead to get on the right side of the fence.

THE HERALD was highly complimented on the complete and accurate report of the convention proceedings in the different districts, furnished our readers on Saturday.

THERE isn't even a grease spot of Gilkeson left in Schuylkill county to leave a mark on the tail of the coat Quay were when he sat upon the Combine's favorite on Saturday.

Tirk Philadelphia Press should know by this time how little reliance is to be placed upon the statements of its Pottsville correspondence. It has been stuffed with promises.

THE appearance that Messrs. THE results of the Republican state delegate elections in this county set at rest all possible doubt as to the sentiment of the people on the question of the state committee chairmanship, and the farmers' baller plate manufacturers and others who have been so industriously engaged in trying to induce the people to think that which they believed and wanted to believe, was not in accordance with their convictions or the facts of the case, may now close up shop and fall into line with the great majority. If they do not do this they will be in the snow drifts after the state convention is held.

Now THAT the state delegates have been named in the various districts, the attention of local politicans of both parties will be drawn to the formation of the county tickets, and in order to be abreast of the times and furnish our readers with the latest political gossip the HERALD has engaged the services of one of the most racy and well-posted political writers at the county seat, whose letters will no doubt be highly appreciated by all who take an interest in such matters. Every voter and taxpayer of the county should be a student of political economy, and take an active interest in selecting county officials. 'Tis a pity that such is not the case; for were it so there would be a better class of officials selected and less jobbery and extravagance in the administration of the people's affairs. To this end we shall endeavor to create a sentiment that will make itself felt for good government.

CANADIAN COMPETITION.

Large Increase in the Foreign Trade of Our Nowthern Neighbors.

WASHINGTON, Aug. 12.—The extent of the competion of Canada with the United States in foreign markets is pointed out in a buildin to be issued by the secretary of agriculture in a few days. The bulletin is the fourth of the "World's Markets" series in course of publication by the department and embodies the reports of thirty of our consuls in the Dominion.

It shows that the total exports of Canada increased from \$89,000,000 in 1895 to \$118,000,000 in 1894, or 33 per cent.; the imports from \$109,000,000 to \$123,000,000, or 13 per cent.; and the total trade from \$198,000,000 to \$241,000,000, or 21 per cent, during the same period. The largest pro-portional annual increase was in 1892, when the value of the total trade exceeded that of the preceeding year about 11 per cent. During the years 1888 to 1891, in-clusive, the trade of Canada with the United States exceeded that with any other country, but since then the United Kingdom of Great Britain and Ireland has taken first rank, with the United States second.

An important fact is that a lage share of the agricultural products going abroad from Canadian scaports are cereals and flour in transit from the United States. Of \$27,000,000 of such products shipped last year, \$9,000,000 was American merchan-

to 5,500,000 in 1894, nearly 50 per cent., the value declined from \$1,700,000 to \$1,100,-000, or only about 30 per cent. This indidates improvement in the quality of butter exported. The export of cheese has increased notably. While in 1868 it was 5,141,570 pounds, valued at \$630,548, in 1894 it rose to the large figure of 154,977,480 pounds, valued at \$15,488,191. The statisties of the fishing industry and forest products show that the value of the former in 1894 was over \$30,000,000 and the latter over \$80,000,000.

In wood pulp, in 1894, the United States alone imported from the Dominion \$869,-

Race Riot at Kansas City. KANSAS CITY, Mo., Aug. 12.—Three Italians were more or less seriously injured in an incipient riot that occurred at Armourdale. The substitution of Italian labor for that of American on the work of grading on Fifth street, near the Kaw, was the incentive for the disturbance. The Italians had displaced Americans at cheaper wages and were being upraided by the Americans, when some one threw a stone into the crowd. Immediately the air was filled with missiles of all descriptions. The Italians took to flight, closely followed by the irate Americans. Some pursuers and more or less injured. William Edwards, C. Walker and A. H. Godde were arrested. The Italians are badly frightened.

Morristown's Wild Man.

Morristows, N. J., Aug. 12.—Wild, in-coherent cries and unearthly screams, procoeding from the thick underbrush along the river for a fortnight, have excited the residents of Ridgewood avenue, and a posse will try to catch the lunatic from whom they proceed. While Frank Brown and James Timmons were fishing they were confronted by a wild looking character, who demanded them to stop fishing "for my pearls." "The grounds belong to my castle," he continued. "You are ponchers and thieves, and you can't rob me. I'll call my minions and have you east in the most and drowned." he continued, waving his hands majestically.

JAPAN'S TREATY WITH CHINA

It Places the Conquerors on a Footley

With All Payored Nations, WASHINGTON, Aug. 12.—Word reaches the Japanese legation that the new Jap anese minister at Pekin has begun the negotiation of a treaty of commerce and navigation with China, and that every thing is moving smoothly, without the difficulties that had been contemplated. This new treaty follows the treaty of peace made at Shimoneseki, which briefly cited that when peace was fully restored a new commercial treaty would be formed. It is an important document, as it gives in detail the terms on which China is to treaty recited only the general fact.

The negotiations have proceeded far mough to show that Japan will have the avored nation clause as to commerce. This will be the first time China has granted this clause to Japan. It assures to Japan the lowest rate of duty on articles sent to China that the latter country exacts from any other country. Japan is thus placed on equal terms, for the first time, with Great Britain, the United States and other great powers.

Another feature of the new treaty is the stablishment of Japanese consular courts in China for the trial of Japanese. This is to insure the Japanese against the rude judicial system and harsh punishments of China, and is similar to the consular courts that other leading nations Though the quality of butter exported maintain in China. But as Japan has decreased from 10,300,000 pounds in 1868 rais-d her judicial system to a high plane, abolishing all relies of brutal punishments, there is found to be no need of foreign courts in Japan. Great Britain and the United States have agreed to abolish their consular courts in Japan. and following this new order of things Japan will not let Chinese consular courts be established there, although they insist that Japan should have the same protecother powers against the crude methods of justice in China.

Fortune Awaits a Fugitive.

SHAMOKIN, Pa., Aug. 12.-A detective in the employ of the Russian government prived in town in search of John Koronwski, a fugitive member of a royal famic, who is hiding in this country because he believes that he is the murderer of his brother Frank. The detective, John Ruffinski, says that the murdered brother lived three months after his head had been unded in by John, and confessed that be latter had merely acted in self defense. ince the supposed murderer came to this country his aged father died from grief and left him his estate valued at \$300,000. The detective falled to locate his man, but claimed that he secured evidence showing that he is now working in the mines up in the Luzerne anthracite re-

Terrific Storm of Rain and Wind,

DANVILLE, N. Y., Aug. 12,-A terrific rain and wind storm, accompanied by heavy thunder and sharp lightning, passed over this section yesterday, lasting nearly two hours. Many trees were twisted off and blown down. Lightning struck in several places and much damage was done among the farming community, fields of grain being flattened to the ground, and corn being tangled up and blown down. A cloudburst on the Lackawanna caused a bad landslide. The storm is remarkable for the large volume of water that fell in the short space of time, nearly four inches being registered.

Desperate flattle in a Box Car.

ASHTABULA, O., Aug. 12.-Six men had a desperate battle in a box car between Eric, Pa., and this place. Three stone cutters named H. G. Eastlick, Bert Smith and John Meinhart boarded the train at Eric to come to Ashtabula. At a water tank three tramps entered the car. When the train had got under way again two of the tramps drew revolvers and requested the men to hand over what money they had. Smith had a revolver and showed fight. In an instant a battle between him and the two tramps was in progress. Eastlick was shot through the groin, Smith received a wound in the neck, and one of the tramps had a bullet through his neck. Upon the arrival of the train here the wounded men were cared for. The tramp, who gave his name as John Cuddy, of Waterbury, Conn., is in a critical condition.

New York's Excise Law Fight.

NEW YORK, Aug. 12.-Yesterday was a pretty "dry" day, but a shade pleasanter for the thirsty who have learned the scheme for securing drinks behind doors apparently closed. Few liquor dealers took advantage of the privilege of keeping their places open, which has lately been decreed to be legal, provided liquors are not given away or sold. Steve Brodie had no end of trouble in carrying on a charitable enterprise in his saloon. Brodie was giving away lemonade and taking a collection for a free ice fund when the police arrested him for breaking the Sabbath law, but he was promptly discharged by Magistrate Cornell. Afterward he was arrested twice, but each time he was released and resumed business.

Murder at a Picnie.

SCOTTDALK, Pa., Aug. 12.—The iron-workers' picnic at Ellsworth Park was broken up by a murder about 11:30 o'clock Saturday night. John Gallagher, of Everson, stabbed James Welsh, of this place, in the neck, completely severing the jugular vein, causing death in a few minutes. Gallagher, who had been a nonwindow worker during the big striks last year, was chased out of the grounds by a crowd, and after running about 150 yards he turned and stabbed Welsh, who was nearest to him. He made his escape.

FINANCE AND TRADE.

The Remarkable Strength Displayed in Iron and Steel Production.

NEW YORK, Aug. 10 .- R. G. Dun & Co's weekly review of trade says: Business continues unusually active for midsummer, and though there is perceptible relaxation there are no signs of reaction. The one change of great importance which the past week has brought is eminently helpful—the amicable settlement between coal miners and employers in western Pennsylvania, Ohio and Indiana. It is said that about 100,000 men will have their wages increased after Oct. I by this adjustment, and while the enlargement of purchasing power is of consequence, it seems even more important that a chronic cause of controversy has been removed by the new agreement as to company stores. There is no important change in crop prospects, and in this respect no news is good news

The features of the business week are a continuance of the remarkable strength of the demand for the increase in the profluction of and the advance in prices of steel and iron, practically all first class producing plants having been into service, and not a few of the cripples. Striking as was the demand for and advance in the price of wheat, leather, cotton and other staples for a month or two, following March 1, no rebound since the depres-sion of 1894 has been stronger or more surprising than that in iron and steel. Of the same nature is the evidence of improved business conditions shown by the activity in almost all manufacturing lines more particularly of course those in which iron and steel are employed.

Negro Miners Return to Spring Valley. SPRING VALLEY, Ills., Aug. 10.—Acting Mayor Hicks, with the city council, led about fifty deputies out to No. 3 mine yes terday. Shortly after the arrival of the deputies the colored miners arrived from Seatonville, with Representative Buckner at their head. The negroes appeared to be a littled frightened, and were not com-fortable. They were lowered down into the mine and put to work along side of the white miners, but there was no trouble. No one attempted to obstruct the program. The shaft is guarded, but everything is so calm that protection will apparently not be needed, after a few days. The general belief is that the negroes will gradually leave Spring Valley when the guards are withdrawn.

To be Taken Back to Germany,

WASHINGTON, Aug. 10 .- A warrant for the surrender to the German authorities of Johannes Meyer has been issued from the state department. Meyer was wanted on a charge of embezzlement, and was held for extradition by a United States commissioner in New York. Warrants were also issued for the return to Germany from New York of Oskar Heilmann allas Oskar Heidmann, and Mathilde Heinze, allas Heidemann, who are charged with the murder of the woman's husband in Sarne, Prussia. The woman poisoned her husband with arsenic procured by Heilmann, ber paramour.

Tried to Kill His Sister and Himself. NEWARK, N. J., Aug. 10 .- Recently Mrs. Elizabeth Fenz, of No. 153 Bowery street, instructed a saloon keeper not to give her brother, Peter Suljer, any more beer, This so angered Suljer that he sought revenge, and yesterday he followed his sister into the kitchen of her home and stabbed her seven times in the back and left arm with a large penknife. He then out his own throat. Suljer is dying at the City hospital and Mrs. Fenz is in a serious condition at her home

Dashed His Head Against a Post, DURHAM, N. C., Aug. 10.—James M. Jones, a elgarmaker from Richmond, Va., ommitted suicide in a singular manner here. He entered a saloon and was denied liquor because of his intoxicated con-dition. Without warning he threw him-self head foremost against the corner of an iron post, fracturing his skull, and died in a short time.
