THE REVOLT IN CUBA!

Insurgents More Formidable Than Generally Supposed.

DELAYING THE CAPTURE OF TOWNS

A New Arrival From Havana Declares the Revolutionists Can Capture Important Strongholds at Any Time. Spaniards Lost Heavily.

NEW YORK, Aug. 13.—The steamer Seneca of the ward line, which arrived here from Cuba yesterday, brought several Cuban passengers. One gentleman from Havana, who would not permit the use of his name, asserted that the insurrection is more formidable than is generally believed. The rebels, he said, desire to establish a government under the protection of a strong power, preferably the United States. They are not anxious for absolute independence because negroes form a majority of the inhabitants of the island, and would dominate the government.

Therefore the rebels are delaying the capture of important seaport towns, which the gentleman from Havana says they could easily accomplish, because their plans for the future are not yet matured. To secure possession of cities would mean recognition as belligerents to the rebels, and as they are not yet ready for such recognition they will continue their present methods of making war for a time.

The Havana man asserts that there are 8,000 sympathizers with the revolution in Havana; that 30,000 revolutionists are in the field, and that the Spanish have lost 15,000 men, more than two-thirds of the number dying from disease. Campos, he says, cannot hold out long.

Another passenger on the steamer was Senor Ricardo Cabrera, a wealthy sugar planter of Cienfuegos. He declined to discuss the revolution, on the ground that he might injure his business and jeopardize his interests by making statements that would be partisan either way. He admitted, however, that he had heard that yellow fever was decimating the Spanish forces, and that the insurgents were not affected by it.

Disgraceful Scene in Court.

OMAHA, Aug. 13.—A fight occurred in the criminal division of the district court, in which the presiding judge, C. R. Scott, Bailiff Savage and Attorney W. D. Brackett were involved. The court became furious because the attorney took issue as to a statement of facts. The lie was passed, and Scott ordered the offender from the room and his bailiff assaulted the lawyer. The two clinched and went to the floor, while the honorable court danced around the struggling men, expressing his wrath in undignified terms. Other lawyers interfered and ended the fight. The attorney was at once cited to appear tomorrow to stand trial for contempt.

Trinidad Belongs to Brazil.

WASHINGTON, Aug. 13.—The archives of the state department have been searched to see if there was anything in the claim put forth that the United States, as the conqueror of the Confederate states, had any claim to the Island of Trinidad, over which there is now a dispute. Nothing of the kind could be found, and it is not believed at the department that there is anything in the claim. An official of the department who has been looking into the matter says there is still doubt that the island belongs to Brazil.

Another Strike of Miners Threatened.

CHARLESTON, W. Va., Aug. 13.—There are strong indications that 600 miners employed on Lapp creek will strike. The men are paid fifty-five cents per car of entry coal. They claim that the car holds nearly three tons, though supposed to contain only two, and they demand that car measurements shall cease and that operators put in scales, but continue the present rates for mining. Operators claim that the cars now in use hold only one and seven-tenths tons.

TWO THRIVING ORGANIZATIONS.

What Young Men Have Accomplished by Thrift and Enterprise.

In the hustle and bustle of every day life some very important and deserving things frequently escape observation and attention, especially where the maintenance and conduct of these things are unattended by any of the outward display which usually draws the attention of the public, and it is perhaps on this account that more publicity has not been given in the past to two local organizations which have attained a very meritorious standard and show what young men who are inclined to make proper use of their spare moments can accomplish. They also show that there are many young men in the town whose tastes drift into channels for mental, physical and social improvement, and they have accomplished their object by surrounding themselves with so many pleasant diversions that, instead of gradually falling by the wayside, tied by a routine order of things or an irksome system of discipline, they stand united, happy and prosperous.

One of these very worthy organizations is the National Club. Its headquarters are in the Beckett building, corner of Main and Centre streets, which is a superb location, being in the heart of town and in direct line with the scenes of all important demonstrations. This club comprises 180 members in good standing ranging from 21 to 35 years of age. Applicants for membership must have attained the age of 21 years. The object of the club is social advancement and mutual aid. The club is also political in its character, but not a political club. All its members are Democrats, and the example set by what they have attained is an excellent one for the young Republicans to follow. It is a power in local politics, though

not a political organization in the generally accepted sense. The initiation fee is \$10 and each member pays into the treasury 25 cents per month as dues. No provision is made for sick benefits, but in case of the death of a member the club donates to his parents, or family, \$100. Meetings are held twice a month, on the Mondays following the P. & R. C. & T. Co. pay days. During the meetings the routine order of business is interspersed with debates and talks on political and general topics of the day for the enlightenment of the members on the reigning issues, and in this particular the club partakes of a pronounced literary character. It is also an athletic organization. When the club was first organized it occupied a room in the Centre street extension of the Beckett building, but it made such rapid strides in popularity and membership that more commodious quarters were required and the club leased a room on the third floor of the Main building. Continued prosperity increased the necessity for more rooms and the club has occupied the entire floor for more than a year past. One of these rooms is 25x30 feet in size fitted up as a gymnasium and is equipped in No. 1 order for the purpose. It contains a rowing machine, pulling machine, Buffalo home trainer, a quarter circle, parallel bars, horizontal bars, punching bag, boxing gloves, dumb bells, numerous pairs of athletic shoes, Indian clubs, a head machine and other apparatus found in first-class gymnasiums. The parlor is handsomely furnished and, among other valuable things, contains two frames valued at \$50 each which contain the photographs of all the members. The sitting room is also handsomely furnished and decorated and among the features of wall decorations are striking photographs of every notable battle fought in the United States, an evidence of the patriotic sentiment of the organization. The club is in excellent financial condition. It has \$700 in cash and this, with the estimated value of its gymnasium outfit and other property, makes its total valuation about \$2,000. Its officers are: President, James McAtee; Vice President, P. J. McCarty; Recording Secretary, Joseph Coughlin; Financial Secretary, Thomas Scanlan; Assistant Secretary, Peter Monaghan; Treasurer, Patrick J. Devers; Trustees, M. J. Ward, Thomas Brennan, Hugh Dougherty, Janitor, Thomas McGeever; Board of Control, J. W. Burke, William J. Scanlan, Anthony Flaherty, J. J. Maley.

THE GYMNASIUM CLUB.

The other organization referred to is the Gymnasium Club, which was organized in 1883 and has 110 members in good standing. It occupies a room of great size on the top floor of the Beckett building, at the southeast corner of Main and Oak streets. This club differs from the other in that it has no recognized political tendencies. Its object is, as the other, principally social advancement and to keep the members interested. Its internal arrangement embraces a musical and an athletic club. The musical part of the organization includes an orchestra of ten pieces, which boasts of the ownership of two flutes, four violins, one bass violin, one kettle drum, one bass drum, one cornet, a baritone and two clarinets—a and b. The gymnasium is also admirably equipped, notably embracing two mattresses valued at \$125, a net 30x70 feet in size and valued at \$45, a double trapeze, eight pair of dumb bells, four pair of Indian clubs and 45 aerobic suits. The main room occupied by the club is divided into eight compartments, seven being assigned for special purposes, namely orchestral room, secretary's office, costume room, janitor's storage, smoking, reading and instructor's room. The club has \$550 on deposit in the First National Bank and its gymnasium and other property is estimated at \$1,500, making a total valuation of \$2,050. The club also has mutual aid as one of its objects and on the death of a member donates \$100. In case of sickness the unfortunate member is given the proceeds of an entertainment, or ball. The initiation fee is \$1 and the monthly dues 50 cents. The officers are: President, Thomas Lambert; Vice President, M. P. Durkin; Recording Secretary, George Dallas; Financial Secretary, P. J. Scanlan; Assistant Secretary, P. J. Maher; Treasurer, William Durkin; Trustees, Felix Geiger, John Graham, J. J. Jenkins; Janitor, Anthony Carl.

WILL COMPLETE THE CHAIN

An Important Step Taken in Electric Railway Circles.

A MISSING LINK TO BE SUPPLIED

The Schuylkill Traction and Shamokin and Mt. Carmel Electric Railway Companies to Build a Line From Ashland to Centralia.

It now looks as if the chain of electric railways between Mahanoy City and Shamokin is about to be completed. In fact, initial steps to that end have already been taken to construct the connecting link between Ashland and Centralia and assurances are given that the project will be pushed to a speedy completion. More than this, it is announced that a charter for additional lines to stretch out to Locust Gap and Gordon has been applied for.

This new step is the result of a conference held at the office of Dallas Sanders, president of the Schuylkill Traction Company, at Philadelphia, between the leading bondholders of the Schuylkill Traction Co., and those of the Shamokin-Mt. Carmel Electric Railway Company. The matter was then discussed in all its various phases. The Shamokin-Mt. Carmel Electric Railway Company are very anxious that these connections be made, and especially the one between Centralia and Ashland. When the meeting adjourned everything looked very favorable for the construction of the lines.

A gentleman prominent in the movement has stated positively that the line from Ashland to Centralia will be built, and thus form the connecting link between the Schuylkill Traction Co. and the Shamokin-Mt. Carmel Electric Railway Co. systems. The former company have not got the power at their plant to run the new line, but it can and will be furnished from the latter company's plant at Green Ridge, and if in time the lines from Ashland to Gordon and Locust Gap are built it may be necessary to construct an additional power plant at Ashland.

The cost of building the line to Centralia from Ashland will not be very much, but if the other branches are constructed it will run into very many thousands of dollars. At the conference the gentlemen were told that the business men of Ashland were very desirous of having these roads built. It was decided to ask them to show just how much they were interested by subscribing for stock, and all will be given an opportunity to do so within the coming two weeks.

Special to Private Families.

The Columbia Brewing Company has introduced a family bottling system and will be prepared to serve the beverage to private families at a moment's notice. The beer is superior to any put in the market and is well recommended.

Gardenville's Theatrical Season.

The bookings for the coming theatrical season at the Palace theatre, Gardenville, are better than those of last year, when many Shenandoah people attended the performances with pleasure. The house is a well managed one and books good shows. As the Traction company's cars run close it is very easy of access.

The only baby medicine—Lull's Syrup.

School Board Meeting.
The members of the School Board will meet to-morrow evening to inspect the new school building on South Jardin street and to fill vacancies in the corps of teachers.

For any of those unexpected emergencies common to children in the summer, Dr. Fowler's Ext. of Wild Strawberry is an unfailing cure. It is nature's specific for sun-stance complaint in all its forms.

Pay Days.

The employees of the Philadelphia & Reading Coal & Iron Company, in the Ashland and Gardenville districts, will be paid to-morrow.

The Foot Race.

Interest in the foot race to take place at the Trotting park to-morrow between Charles Kirlin and E. B. Brunum has made the event one of the most important in amateur sporting circles that have taken place here for some time. It was announced to-day that the race will be run between 6 and 7 p. m.

Pulled In Tramps.

Police men Tush and Kerwin last night arrested three tramps they found asleep on the platform of the Pennsylvania depot. The tramps are serving 48 hours in the lockup.

Signing the Goods.

The officers of the School Board are busy attaching their signatures to the new four per cent bonds. Each officer will be required to sign his name over 5,000 times.

The only baby medicine—Lull's Syrup.

Contract Awarded.
T. H. Snyder was to-day awarded the contract for painting the interior of the Turkey Run school building.

No need to suffer with neuralgia, lumbago, neuritis, emipis or colic. Dr. Thomas' Electric Oil cures all such troubles, and does it quickly.

FISHERMAN'S LUCK.

In fishing around the market we found a couple barrels of extra fine Norway mackerel cheap. Very fat and white. Not large. Weight about 3-4 of a pound. 14 cents a pound. We have the big ones, too; weigh 1 1/2 to 1 3/4 pounds, for little more money. These are the finest fish caught, and we can not always buy the small ones.
