CUBANS ENCOURAGED.

Campos' Demand for More Troops Pleases the Insurgents' Sympathizers.

New York, Aug. 17.-President Palma, of the Cuban revolutionary headquarters, said today that a distinguished Cuban, now in this city on a secret mission, has received a letter dated Aug 4, from his brother, one of the best known artists in Cuba, describing an engagement that had taken place on that day.

The letter in part says: 'General Go-mez, with 800 Cubans, attacked a convoy of Spanish troops going from Guiamaro to Port au Prince today. The Spaniards, under Isaiz, numbered 1,600, and were well equipped. The fighting was hot and heavy, and at one time the patriots almost succeeded in capturing the convoy. A Spanish major and another officer were killed, also seventy soldlers. The Cuban

It is reiterated every day at Cuban head-quarters that the lack of detailed news is wing to the strict censorship exercised by the Spanish authorities over the mail and telegraph lines. President Palma and his colleagues profess to believe, however, that the engagements that have so far taken place have been mostly in favor of their side. They point to the fact that in asking for more

Shot His Wife and Then Cut His Throat. ALLENTOWN, Pa., Aug. 17 .- At Egypt, this county, John Phillipi shot his wife in the neck and then cut his own throat. The woman is badly wounded, but may recover. Phillipi died almost instantly. He was the night watchman at the American Cement works, and was never known to have had any trouble with his family. Phillipl was a native of Hungary and returned quite recently from a trip to that untry, where he received an inheritance of \$15,000. The couple have two children living, three having died recently. It is believed that Phillipi's mind was unbalanced as the result of an accident, his skull having been fractured five years ago.

A Boy's Miraculous Escape.

CAPE MAY, Aug. 17.—Al bert Phillips the Sycar-old son of Russel Phillips, a photographer of Alexandria, Va., slipped away from his father while on the incoming express on the West Jorsey railway yesterday afternoon, and either jumped or fell off. The train was going at the rate of forty miles an hour, and, strange to say, the little fellow not only escaped instant death, but was not injured in the slightest degree. He was picked up and carried to the home of his grandfather, where his father found him wreathed in smiles when he arrived after a fruitless search for the body.

FINANCE AND TRADE Leading Manufacturing Industries Especially Busy for the Season.

New York, Aug. 17.—Bradstreets' review of trade says: Midsummer quiet is more conspicuous than a week ago, though less so in industrial than in commercial lines. As a rule, leading manufacturing industries are exceptionally busy for the season, and it is worth adding that the increase in output of demand and prices of iron and steel still continues. Gross and net railroad earnings returns for the first half of the present year shows very satisfactory aggregate gains over last year, a period of great coal and railroad strikes and of financial and industrial depression and derangement. The best showings in net earnings are made by the central western, eastern and southwestern roads, while the only decreases noted are in the granger and

R. G. Dun & Co.'s raview says: It is a belated season. A frost may set every-thing back. The heavy business which ought to have been done in May and June was pushed into July, so that the midsummer decline due in July comes in Au-With this in mind one is not surprised to find the shrinkage from July to August rather more conspicuous than

mannal. The disappointing crop reports of last Saturday, though evidently distrusted, essen confidence in regard to the future of trade, even while some speculators gain by them.

Back of all doubts is the fact that the industries are doing better than anybody could have expected. Wages in the iron and steel industry have been generally advanced and strikes are few. Minor metals change little, though large sales lift lake copper to 12)4 cents. Textile imports have been very heavy, and advances in cotton goods to some extent check buy-ing, while Fall River spinners are organ-izing for restoration of wages paid before the panic.

Failures for the week have been 196 in the United States, against 219 for the same week last year, and 38 in Canada, against 45 last year.

GENERAL S. B. MAXEY DEAD.

Veteran of Two Wars and Twice United States Senator. PARIS, Tex., Aug. 17.—General S. B. Maxey died yesterday at Eureka Springs, Ark, of a complication of diseases inci-dent to old age. His remains were brought

to this city for interment today. He was born in Todd county, Ky., March 31, 1825, was graduated at West Point with General Grant, served in the Mexican war under General Scott and was at the slege of Vera Cruz, the battle of Cherubus county and storming of Che-pultepec. He came to Texas in 1853 and was state senator of the Eighth judicial district from 1858 to 1800, when he was elected to the state senate, which position he resigned and raised the Ninth Texas infantry, Confederate volunteers. He was

shortly made a brigadier general and later

a major general, and distinguished himself on many battle fields. After the war he resumed the practice of law, and in 1875 was elected United States senator over Hon. John H. Reagan and ex-Governor Throckmorton, and was re-elected in 1881 over the same opposition. He was defeated for a third term in 1887 because he would not yield to the popular clamor against railroad and other corporations, since which time he has lived in re-

JAPAN'S GREAT STORM.

Over a Thousand Lives Lost Through Hurricane and Flood.

San Francisco, Aug. 17.—Reports have been received here to the effect that Japan had been visited by a terrible storm on the 24th and 26th of July. The hurricans swept across Kiusha, passed along the shores of the island sea, crossed over the central districts of the mainland and emerged into the Pacific ocean.

Its track was everywhere marked by great loss of life and destruction of property, and as the catastrophe was followed heavy rainstorm, inundations added their devastating effects to the havor wrought by the wind. It is calculated that over a thousand people wers killed or drowned.

Ujina, the town that served as a military basis during the recent war, felt the full force of the tempest. The place was completely swamped by the sea, and over 160 boats were smashed. Among these boats were 120 belonging to the army stores department. They were laden with supplies destined for the use of the troops in the Liao Tung peninsula.

Currency Reformers in Parliament. London, Aug. 17 .- A meeting of the members of parliament favorable to currency reform was held in the house of commons yesterday. Sir William Henry Houldsworth, member for the northwest division of Manchester, Conservative, who was a delegate of Great Britain at the Brussels monetary conference, presided. It was resolved to form a parliamentary committee, its members being engaged to promote an international conference for the purpose of considering what measures can be taken "to remove or mitigate the evils resulting from the fluctuations growing out of the divergence in the relative value of gold and silver."

Deadly Duel Between Doctors. PORTLAND, Ore., Aug. 17 .- The report of several shots in rapid succession heard to come from the office of Dr. H. R. Holmes, in the Dekum building. The tenants of the building rushed in and found the prostrate bodies of Dr. Holmes and Dr. Robert Ausplund, each of whom was holding a smoking pistol in his hand, and both badly wounded. Ausplund's wounds will undoubtedly result fatally. It is thought the duel was due to a criticism of Holmes of Ausplund's method of treating a patient in the Portland hospital when Ausplund called at Holmes' of fice to make him retract.
