

RESTLESS CHILDREN.

Feverish Nights and Days Devoid of Appetite.

Diet Must be at Once Changed When Children do Not Thrive.

Lactated Food Checks All Wasting Disorders of Hot Weather.

An infant should be abed and asleep, as the fowls are, by sundown, at least. During the long night's sound slumber the tiny limbs wax stronger and growth is by far the most active.

MARY C. REYNOLDS.

The prime factor in maintaining this steady growth and in escaping debilitating summer disease to which children are so apt, is lactated food—a food that does not disagree with the delicate stomach, that is eaten with zest and appetite, that is absolutely insured against contamination, and amply capable of furnishing strength and a solid increase in flesh and blood.

Lactated food is made with the express intention of forming a perfect substitute for healthy mother's milk. Its basis is sugar of milk; with it is combined the nutritive parts of wheat, barley and oats, producing a pure food which meets every requirement of the growing child.

It is ignorance on the part of nurses and parents that is to blame for the summer disorders, diarrhoea and cholera infantum. Children must eat well, digest well and be protected from impurities in their food to grow rapidly, and to escape sickness.

Our little Mary is a perfect picture of health, having used lactated food since she was two months old. She has always been perfectly well, and we think that this is largely due to her use of lactated food.

A baby's whole duty is to keep strong and well. The parents' duty is to give the infant the best food in the world—and that is lactated food. All druggists supply it.

Our devil puts in a little of his spare time improving his mind by reading the exchanges with a chunk of pie in his left hand but his peculiar antics yesterday were so unusual that the editor-in-chief glanced up in surprise when he found him trying to stand on his head.

Distressing kidney and bladder diseases relieved in six hours by the "New Great South American Kidney Cure." This new remedy is a great surprise on account of its exceeding promptness in relieving pain in the bladder, kidneys, back and every part of the urinary passages in male or female.

One good mother is worth a hundred schoolmasters, said George Herbert. Men are what their mothers make them. But if the mothers are peevish and irritable, through irregularities, "female weakness," and kindred ailments, they find no pleasure, no beauty in the care of their babies.

To those about to become mothers it is a priceless boon. It lessens the pains and perils of childbirth, shortens labor and promotes the secretion of an abundance of nourishment for the child.

An accident occurring to one of the generators at the power house of the Schuylkill Traction Company yesterday necessitated the withdrawal of two cars off the line, which will somewhat impair traffic. The damage, however, will be repaired in a day or two.

The item that appeared in the HERALD a few days ago concerning two young women of Ringtown who took their first ride on a steam railroad has brought out the fact that a very prominent young man, who is over 25 years of age, was born near the outskirts of Mahanoy City and has lived in this town for 12 years, paid his first visit to Pottsville on Wednesday last.

The tunnel being driven at the West Shenandoah colliery cut the Seven Foot vein in the fifth lift last night, at a depth of 1446 feet from top of the slope. The lowest point at which the vein was previously worked was 850 feet. The vein has not all been developed yet but will be in a few days. The tunnel will be continued south to the Mammoth vein. The officials are highly pleased at the success of the undertaking.

While the team of horses belonging to U. S. Broisach were hitched in front of Brohat's grocery store this morning, one of the animals became entangled in a tree box, and it was with difficulty that it was prevented from serious injury. The only damage done, however, was to the tree and the box surrounding it.

Six weeks ago I suffered with a very severe cold, was almost unable to speak. My friends all advised me to consult a physician. Noticing Chamberlain's Cough Remedy advertised in the St. Paul Volks Zeitung I procured a bottle, and after taking it a short while was entirely well. I now most heartily recommend this remedy to anyone suffering with a cold. Wm. Keil, 678 Selby Ave., St. Paul, Minn. For sale by Gruhler Bros., Druggists.

John Probst, of Pine street, Mahanoy City, was before "Squire Lawlor this morning charged by Abraham Susswein, of town, with receiving stolen goods. It appears that the cow in question is the property of a party residing at Jacksons, and that Probst sold it to the prosecutor as his own. The latter also had a cow in his possession that belongs to Mrs. Lackey, of Brandonville, and it has been secured by Constable Phillips and turned over to the owner. Probst is now in the lockup.

Lakelide evidently was in the possession of a mob on Thursday, judging from the reports. Jacob Westner, a cripple, of Mahanoy City, was knocked down by a gig containing two drunken men on Thursday evening and injured about the head.

Mahanoy City appears to have had a very lively time of it Thursday; between brawls, accidents, etc., there is work for the doctors for awhile. Shenandoah used to hold the record in this respect, but we fear we will have to surrender it to our neighbor.

Thousands of people are subject to bowel trouble in some of its various forms. Dr. Fowler's Ext. of Wild Strawberry is an unfailing remedy in all such cases.

Montgomery, Pa., August 15, 1895.—Alfred Steel, a citizen of this borough and a union by trade, left Montgomery June 4th in search of work. He bought a ticket for Mount Carmel, and promised to write to his family in a few days, and send for his tools soon as he should obtain employment at his trade. Up to this date his anxious family have received no word from him, and the most diligent inquiries have proved futile.

Investigation shows that he used his ticket to Mount Carmel. Mr. Steel is a man sixty-nine years old, five feet eight inches in height, and stoop-shouldered; partially bald, and has a thin chin beard and grey moustache. His left forearm is tattooed with an anchor, a shield with the stars and stripes, and the initials "U. S. A." and "N. Y." A wound below the right knee has left a large scar and indentation. At the time of his disappearance he wore a grey suit and derby hat. It is feared by Mr. Steel's family that he has either been accidentally killed, or become prostrated by sickness to such an extent that he is unable to realize his condition and situation. Any news as to his whereabouts will be gratefully received by his wife, Mrs. Sarah Steel, Montgomery, Lycoming county, Pennsylvania.

THAT'S QUEER!

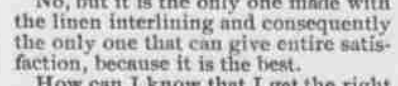

You say a collar and cuff that are waterproof? Yes. And perspiration will not affect them? Yes. And when dirty you need only wipe them off with a wet cloth or sponge? Yes.

Wonderful! How are they made? A linen collar covered on both sides with waterproof "CELLULOID." Looks exactly like a linen collar.

Is it the only waterproof collar and cuff made? No, but it is the only one made with the linen interlining and consequently the only one that can give entire satisfaction, because it is the best.

How can I know that I get the right kind? Because every piece is stamped as follows:

TRADE MARK. Inquire for that and refuse anything else, or you will be disappointed. Suppose my dealer does not have them?

The probably has, but if not, send direct to us, enclosing amount. Collars 25c., Cuffs 50c. State size, and whether collar wanted is stand-up or turned-down.
