Those who are shrewdest select the best mediums and advertise judiciously. Such wise advertisers are found every month in the columns of the Evening Herald. They know its worth. They know that it is the only daily in the largest town in the county. These shrewd and the camp they began to quarrel. GROVER sees the handwriting on the wall. He is losing no time in extending the civil service rules.

THE Republicans have set the pace for the enemy, in naming the date of their convention for September 30.

NEITHER the Democrats nor the Republicans of this county appear to believe that the early bird catches the worm. Rather are they like Joey Bagstock, "Sly, sir, devilish funds from the Church of the Annunciasly."

A SOUTHERS admirer recently sent Gov. McKinley a watermelon weighing eightyseven pounds and measuring three feet in length. It is possible we shall hear very little from the Governor for a week or two unless it be in the form of physicians' bulletins.

POTTSVILLE people are very easily satisfied with their summer annaements, as any one Run can readily see. If Lakeside were within five miles of that town and under the management of their electric road what would they do, any how. But-Lakeside isn't.

THE CONVENTION.

The Republicans of the county can congratulate themselves upon the wisdom exercised by members of the Executive Committee in selecting September 30th as the day upon which to hold the county convention. The selection is a wise and proper one, and appears to meet with general approval. The only objections raised come from the Democrats, who had fondly hoped they would be given the opportunity of selecting their ticket after the Republicans had made their nominations, thus gaining an advant- 000. age over their adversaries in case of unwhse nominations by the latter. By the selection of September 30th-the last day upon which nominations can be made and certified to legally-our friends the enemy are left with but two alternatives, namely, either to hold their convention on the same day as that selected by the Re publicans or on some date previous. In either -case they will gain no advantage by reason of unwise nominations or other weakness that the Republican ticket might show. The action of the Executive Committee places the party in a strong position, and one | ful yield of corn expected in Illinois, sent which should be followed up by strong nominations. This is a Republican year, and if the party makes no mistakes Schuylkill will again be placed in the Republican column. This cannot be done, however, without an effort ; and the first step in that direction is in the hands of the party voters. The primaries will be held on Saturday, September 28th and in order to insure a strong ticket it will be necessary for the voters to use wise discretion in selecting delegates to the county convention. They are the men who will be empowered to say what names shall be placed upon the ticket for your suffrage. If the delegates selected are men well versed in the school of politics and hold the interests of the party paramount to any personal consideration, then there need be no fear as to the result of their deliberations. But, if delegates are selected without a view as to their fitness for the position, and who seek the position merely because they represent the interests of some particular candidate, nine cases out of ten they will sacrifice every thing to obtain that candidate's nomination.

He was captured and jailed yesterday. Later a crowd of citizens en-

SENATOR BUTLER'S PROPOSALS

To The Executive Committee Appointed by the Silver Democrats.

WASHINGTON, Aug. 20.-Ex-Senator Butler, of South Carolina, called on Senators Jones and Harris, members of the executive committee appointed by the recent Democratic silver conference, and suggested the following propositions to advocated by the silver Democrats: Repeal the tax on state bank circulation; admit silver to coinage at an equality with gold, at the ratio of 16 to 1; retireall greenbacks and coin certificates; require

national banks to surrender their charters and permit them to take out state charters under national supervision; take the government entirely out of the bankbusiness; stop the issuance of long ing time bonds by the government. The rev-enue should be enough to support the government, but if it is necessary to issue bonds they should be of small denomina tion, in order that our own people may invest their savings in them.

Adherents of Senator Brice Seem to be In the Lend. SFRINGFIELD, O., Aug. 20 .- Many dela-

gates are already here, although the Dem-ocratic state convention does not assemble until tomorrow. The fight between the free silver and the Brice men will occur this evening, when the members of the committee on resolutions and other committees in the organization are selected. There are 808 delegates. The silver men classify them as 343 for silver, 828 for gold and 137 doubtful. The Brice men claim there are 463 for "honest money," and of the 848 claimed by the Thurman men for silver some are doubt-

It is generally believed, since the last counties selected delegates yesterday, that the Brice men will control all the organisation, and have fourteen out of twentyone members of the committee on resolu-tions. Senator Brice, ex-Governor Campbell and other leaders arrived this morn ing and are to dine with John H. Thomas. the free allver leader. This fact is recognized as assuring a compromise before the district meetings are held at 5 p. m. It is believed there will be some agreement at the Thomas dinner as to who will be nominated for governor. If ex-Governor Campbell will not run, then John H. Thomas or James Kilbourne may be

nominated. Both are free silver men. The real issue pending is as to what concessions will be made to the free silver men and yet make the financial record for the party that is desired by Senator Brice. One may get the platform and the other the nominee. There are some bitter contests to be settled while Senator Brice is presiding as temporary chairman, and there may be trouble at the opening of the convention if all the allver contestants are unseated.

In 1846 he was elected to con gress as a Democrat, and re-elected in 1848, declining a third nomination. In 1857 he was elected a judge of the supreme court of Pennsylvania, serving eleven years. In 1868 he resigned his seat on the bench and resumed his law practice in Philadel-phia. In 1870 he was appointed a justice of the United States supreme court, and served until December, 1880, when he resigned.

Alleged Illegal Office Holders.

WASHINGTON, Aug. 20 .- The recent decision of the acting attorney general that Senator Ransom's appointment as minister to Mexico is unconstitutional, because he was serving as senator in the congress which raised the salary of the Mexican minister, has started reports that various other officials are illegally holding office for the same reason. Among the cases mentioned is that of Judge Mo-Kenna, who while serving as a member of the Fifty-second congress was appointed circuit judge of northern California. But as the nine additional circuit judges were created by the preceding congress (al-though Mr. McKenna was a member of that congress) the constitutional inhibition, it is held, does not apply against him.
