NARCOTI-CURE is popular because it allows the patient to use all the tobacco he wants while under treatment, or until the "craving" and "hankering" are gone. It is then no sacrifice to throw away

Gentlemen:—Replying to yours of the 1st, would say that I have used tobacco for 46 years, and of late have consumed a 10-cent plug a day, bestides smoking considerably. I commenced to use tobacco when I was only II years old, and have never been able to give up the babit until I took Narcoti-Cure, although I have tried other so-called remedies without effect. After using your remedy four days, all "hankering" for the wing disappeared, and in four days more smoking became unpleasant. I have no further desire for the weed, and experienced no bad effects, whatever. I am gaining in flesh, and feel better than I have for a long time. To all who wish to be free from the tobacco habit I would say, use Narcoti-Cure.

Yours truly, W. N. WAITE.
