

Afoot or on Horseback

Means a condition of uncertainty. That's just the condition of any man who wants to push his business and hesitates for a moment in regard to advertising. Those who are shrewdest select the best mediums and advertise judiciously. Such wise advertisers are found every month in the columns of the **EVENING HERALD**. They know its worth. They know that it is the only daily in the largest town in the county. These shrewd and clever advertisers know what they are about. They are never "afoot or on horseback," but are always leading the procession.

THURSDAY, AUGUST 22, 1895.
The most important question just now is water.
What did Little Gikleson do with it—his majority, we mean.

CARDINAL GIBBONS, who has been in Europe for several months past, is expected home this week. A rousing reception will be tendered him on his arrival in Baltimore.

The summer exodus of Americans to Europe is steadily on the increase. The latest reports indicate that this summer beats the record and returning tourists experience great difficulty in finding accommodations on the steamers unless they have taken precautions to secure berths a month or two in advance.

The British government has a lot of subsidized merchant vessels in the North Pacific ocean, which are available as cruisers in time of war, and many members of their crews receive retaining fees as members of the Royal Naval Reserve. The United States can profit by this example, and in time of peace prepare for war.

The building of racing yachts has been carried to such a point that both the Defender and Valkyrie, like too-finely bred animals, are very tender in some of their parts, the former in her rigging and spars, while the latter strained herself badly in crossing the ocean and may need temporary patching to be able to race.

An act of assembly provides that no officer or employe of any bank or banking institution can act as notary public. This was learned when ex-Governor Pattison made request recently of Governor Hastings to appoint a Miss Dunlap a notary public, who was an employe of the Philadelphia Surety Trust Company, of which the ex-Governor is president.

Those famous shipbuilders, the Cramps, launch another fleet steamer from their yards to-day. It is the Comanche, of the Clyde line, which is expected to reduce the time between Philadelphia and Jacksonville, Florida, by 24 hours. Her interior fittings are patterned after the St. Louis and St. Paul of the American line and will have superior accommodations for 200 first-class passengers.

A CONNECTICUT clergyman is reported to have preached a sermon recently, during the course of which he thanked the Lord that the apple blossoms in that section had been destroyed by frost, so that there were no apples; consequently there could be no cider and the cause of temperance would be benefited to that extent. With equal propriety he could have returned thanks that the corn crop in Iowa is likely to be destroyed by hot blight, so that the production of whiskey would be curtailed; and that the water supply in this county is short, so that dealers of milk could not dilute their product.

The more the facts in the case of ex-Councilman Waller are disclosed the more imperative becomes the necessity for vigorous action by our State Department. Recent disclosures tend to confirm previous reports that his sole offense was criticism of the brutalities of the French soldiery in Madagascar in their campaign of subjugation. The outrages committed were such that could not be condoned and the ex-Councilman's condemnation of them in letters to his wife and a native friend were the excuses for imprisoning him. The apparent indifference of the state authorities is criticized severely and it is gratifying to know that action for his relief has at last been taken.

CAMPBELL THE NOMINEE.

Named to Oppose Bushnell for Governor of Ohio.
SPRINGFIELD, O., Aug. 22.—The Democratic state convention here made all its nominations without opposition. The convention was in session from 10:20 till 2:40, and the nominations were completed in a half hour after ex-Governor Campbell had been drafted for the standard bearer. The ballots were all on the minority report, on credentials and resolutions, and the time was thus consumed in the contests between the gold and silver men. The gold men, headed by Senator Brice, had claimed that there would be less than 300, and probably not more than 200 of the 808 delegates vote for free silver. The silver men claimed they would have no less than 300, and probably 350 delegates. It developed that there were 270 free silver delegates. It was a fighting minority, but it did not carry the fight further than to the platform. The nomination for member of the board of public works is said to be the only free silver man on the state ticket, although the silver lines were not drawn on the candidates.

There was considerable enthusiasm over the nomination of Campbell. He defeated ex-Governor Foraker in 1892, and was defeated for re-election as governor in 1891 by William McKinley, Jr., the present incumbent. The nomination of Campbell means an aggressive campaign in Ohio, where McKinley is now recognized as a candidate for president and Foraker for senator, the fate of both depending largely upon the pending contest between Campbell and Bushnell for governor. It is generally understood that Governor Campbell was induced to make the race by promises of support for the presidential nomination in the event of his success next November, in which contingency he again confronts his old opponent, McKinley, should the latter be nominated. And in co-operating with Senator Brice for a Democratic legislature ex-Governor Campbell is also again confronting his old opponent—Foraker. It is thought that the contest between these old leaders in Ohio will overshadow the currency question and other issues.

The full ticket is as follows: For governor, James E. Campbell; lieutenant governor, John B. Pennington; state auditor, James W. Knott; state treasurer, William T. Mooney; supreme judge, William F. Fairbanks; member board of public works, Harry B. Keefe; clerk of supreme court, J. W. Cruikshank.

Six weeks ago I suffered with a very severe cold; was almost unable to speak. My friends all advised me to consult a physician. Noticing Chamberlain's Cough Remedy advertised in the St. Paul Volks Zeitung, I procured a bottle, and after taking it a short while was entirely well. I now most heartily recommend this remedy to anyone suffering with a cold. Wm. Kell, 678 Selby Ave., St. Paul, Minn. For sale by Grubler Bros., Druggists.

Shipwrecked Seaman Arrive.
NEW YORK, Aug. 22.—The steamer Doran, yesterday arrived from Kingston, Jamaica, brought as passengers Captain McGillivray and twenty-four distressed seamen, being the crew of the British steamer Argonaut, abandoned at sea Aug. 6, off the Jamaica coast. The Argonaut sailed from Halifax on July 29 for Port Morant, Jamaica, with a cargo consisting principally of fish and lumber. On Aug. 6 the vessel sprung a leak. So rapidly did the hold fill that the crew had to take to boats inside of half an hour. They saved nothing but the clothes they stood in. Captain McGillivray and his companions landed safely at Holland Bay on the 7th. The Argonaut went down shortly after being abandoned.

Defending the Southern Negro.
BUFFALO, Aug. 22.—Representative Howard, of Alabama, while delivering a lecture at Crystal Beach last night, touched on the negro question in the south. He said: "The white men of the south are themselves responsible for the so-called negro outrages, for which they stonch the negro's vote, they then have stolen the virtue of his wife, his mother and his daughter. When the negro sees these things what can you expect of him but that he will lose all respect for human virtue."

A Prominent Inventor Killed.
NORTHAMPTON, Mass., Aug. 22.—Joseph Kneeland, a well known inventor, was struck by a passenger train and almost instantly killed while attempting to cross the tracks of the Boston and Maine at this place. THE PROPOSED PACIFIC CABLE.

Hawaii's Congress Indorses the Subsidy Asked for Its Construction.

SAN FRANCISCO, Aug. 22.—The steamer Australia has just arrived with advice from Honolulu to Aug. 14. The senate and house have ratified the cable contract made by President Dole with Z. S. Spaulding, who will ask the next congress for an annual subsidy of \$250,000.

The contract signed by this government grants an exclusive franchise for twenty years, but provides that the grant shall not prevent any foreign government having existing treaty rights with the republic of Hawaii allowing any such government to do so to land a cable upon the Hawaiian group for other than commercial purposes, from any point on the North American continent. The government agrees to pay the contractor an annual subsidy of \$40,000 for twenty years from the date of the establishment of the telegraphic communication between Honolulu and a point at or near San Francisco, and the islands of Hawaii, Molokai, Maui and Kauai.

Work on the cable must begin on or before May 1, 1897, and the line must be completed by Nov. 1, 1898, otherwise the contract is void. If Spaulding fails to obtain assistance from the United States the Hawaiian government may cancel its contract. The company will be exempt from duty on material, taxes and port charges in addition to other privileges. The maximum rates for messages shall be \$1 per word.

The Hawaiian government has received a communication from the British government acknowledging that the military court which tried those participating in the January uprising was legally established. The British foreign office concedes that every prisoner with the exception of V. V. Ashford had a fair and impartial trial. Ashford was recently pardoned and exiled. He is now in California.

Victorious Philadelphia Weavers.

PHILADELPHIA, Aug. 22.—The strike of the inlarn carpet weavers ended today, when all but two of the employing firms signed the schedule for an increase in wages of 7 per cent. This was the outcome of a meeting of employers at the Manufacturers' club last night, and is said to have been induced by the action of John Gay's Sons, one of the largest firms, employing about 300 hands, in promising to sign the schedule, after having maintained a vigorous stand against the strikers up to this time. In some mills the increased rate will go into effect this week, but it will not be generally adopted until Sept. 16, the date fixed by the weavers in their recent ultimatum.

RESCUED.

On Lake Erie's Shores.—The Captain's Wife Tells the Story.—It Will Interest Many People.

(From the Buffalo Evening News.)

If you were to call at 27 Front Avenue you would find a pleasant elderly lady, Mrs. Captain Hensley by name. Her kindly smile and joyous manner are to no small extent due to the escape she has had. Her own words can better describe her rescue and one can easily understand her present happy condition when they realize what she has gone through. She says: "About five months ago I had an attack of sickness which lasted for a week and since that time I have been subject at intervals to similar attacks, some of which were longer in duration. It is hard for me to describe how I suffered. The pain would commence in my head, after which it would seem to pass down my body and settle in my back, my sides ached, my face ached, and I had a feeling of great distress in the bowels. The increased pain which seemed to come from lying down, would be almost unbearable, my face would hardly stand on my feet, dizziness made it almost impossible; this feeling was always with me even after the violence of the attack passed over. The last attack I had was the worst, and was so bad I would not have been able to tell this story but for Doan's Kidney Pills. As soon as I commenced their use I found immediate relief. The pain in my back and sides left me and the dizziness went with it; the bloating in my face and body disappeared and all distress in my bowels was gone. I have great faith in Doan's Kidney Pills; in a short time they did a great deal more for me than all the plasters and medicines which I had resorted to in seeking relief and cure. I hope always to be able to procure them."
