MANY MINERS DROWNED!

Caught Like Rats in a Trap Near Central City, Colo.

THIRTEEN MEN PROBABLY DEAD

The Water Came Rushing Upon Them Before They Could Seek a Place of Safety—The Accident Due to the Neglect of the Mine Managers.

CENTRAL CITY, Colo., Aug. 30.—The accidental flooding of the American and Sleepy Hollow mines yesterday afternoon caused the death, it is believed, of thirteen miners. Every effort is being made to rescue the unfortunate men, but little hope is entertained. A little after 3 o'clock the water in the lower workings of Fisk mine, east of the main shaft, broke through the old workings of the vein, that has not been worked for a number of years. Coursing eastward, it struck the Americans, where two Italian miners, whose names have not been learned, were at work in the lower part of the shaft. They were both drowned. In its course the water diverted to the Sleepy Hollow mine, the easterly portion of the Fisk mine. Fifteen men were working in the Sleepy Hollow, three of whom escaped. A courier was sent to the adjacent mine and all their workmen escaped.

In the Sleepy Hollow, whose escape was shut off, were the following: N. Vegas, B. Brocken, Brower Brisk, William Brisk, Thomas Pease, Thomas Williams, M. H. Lacon, Thomas Colbus, J. Harris, S. Vallero and John Parkus.

The sounding of the whistle gave the first signal of distress, and soon the shaft building of the Sleepy Hollow mine was so crowded with the families and relatives of the imprisoned miners, and those wanting to give assistance, that it was almost impossible for the work of rescue to go on.

Shoriff Williams finally arrived on the ground, the building was cleared and practical miners offered their services in lowering the bucket. The farthest depth attained was 300 feet, the accumulated gas forced up by the rising water being such that a candle would not burn at a larger depth. A second effort was made, a greater sized safety lamp having been placed in the bucket.

The first rescuer who descended in the bucket found Mr. Brisk at the 330 foot level. On reaching the surface he was almost in an insensible condition. Another man went down afterward, but was unsuccessful in reaching a lower point in the shaft, owing to the rising of the water. The managers of the property were on the ground and were very assiduous in their efforts to relieve the men. The two in Americans are without doubt dead. Those in the Sleepy Hollow, unless they can be found in some outcave, have met death in a similar manner.

Ever since the closing down of the pumps in the incline shaft of the new Gregory Mining company the waters in the shaft have been gradually rising, the Fisk mine having been driven out of the lower to the upper workings. This was due to the inability of the owners of the Fisk and the Sleepy Hollow to agree upon a plan to prorate the drainage.

Successful Festival.
The ice cream festival for the benefit of the Wm. There were a number of amusements during the evening and everybody was so well pleased that it was decided to hold the festival again this evening. In conjunction with the festival, at 8:30 o'clock, there will be a grand open-air concert by the Methodist Episcopal choir, during which there will also be a number of solos.

At Large Again.
Brief mention was made yesterday of the strange actions of a Pole named Rice, who ran about Poplar and Jardin streets like a mad man and was caught while clinging to the brass handles on the doors of the English Lutheran church. This morning the man was found acting in a queer manner on Oak street and Chief of Police Tush took him to the lockup. Rice will be held in custody until to-night, by which time it is expected his friends will decide what shall be done with him. He is evidently demented.

COAL LANDS RAISED.
The Commissioners Will Assess Them Five Per Cent. Higher.

A number of representatives of companies and individuals owning coal lands in the county were before the Commissioners yesterday relative to the triennial assessment. To hear each individual would consume considerable time, and after an interchange of opinion it was agreed that the coal companies appoint a committee to meet the Commissioners next Thursday at the court house. The Commissioners also decided that all coal lands in the county should be assessed at an amount equal to five per cent. above that of the last triennial assessment. This was accepted by the land owners, and the matter will be finally adjusted at the meeting next Thursday.

Newspaper's Loss.
From Mahanoy City Record.

While in Shenandoah yesterday, I was dropped in for a moment on Martin J. Lawlor, a well known newspaper man, at present conducting a Justice of the Peace business in an office close to the Lehigh Valley depot. Newspaperdom lost a very clever writer when Martin dropped the journalistic gray goose quill, and as there seems to be a number of men who are anxious to fill the position of J. P. and are unable to perform the duties with fair acceptability, there seems to be a distinct loss to the public in M. J.'s change.

Marriages.
David J. Splanc, a well-known saloonist of Mahanoy Place, and Miss Mary Murray were married by Rev. James McGuin. The couple left on a wedding tour.

Miss Mary McGinlin and Patrick Murphy, both of Glendonville, were united in matrimony on Wednesday. Miss Tessie Carney and Harry Waldron supported the couple.

Yesterday afternoon Miss Ida Buchman and William Lawrence, both of Frankville, were married at the above place. The contracting parties have a number of acquaintances here.

FAMILY AWAKENED BY FIRE
Thrilling Experience of Harry Reese's Family at Turkey Run.

AN ESCAPE FROM SUFFOCATION

The Public Water Works Makes a Mark and the Newly Organized Fire Company Distinguishes Itself by Prompt Service.

The family of Harry Reese, at Turkey Run, had a thrilling early morning experience today and, thanks to the public water works, the patch was spared a destructive fire.

At about 1:30 o'clock Mr. Reese awoke from his sleep and experienced a smothering sensation. Jumping from his bed he found clouds of smoke were rolling through all the rooms in the house and he lost no time in arousing his family and getting them to a place of safety.

Having accomplished this Mr. Reese turned his attention to locating the fire. Meanwhile the population of the patch had been aroused and the recently organized volunteer fire department was called out to perform duty for the first time. The members responded promptly and soon had a line of hose connected with one of the recently placed fire plugs of the public water works in play on the flames. The fire gave way to the stream and the people were soon congratulating themselves on the efficiency of the modern improvements in the patch.

The fire was caused by some bedding in the basement of the house being ignited from a stove. Furniture and woodwork of the building were considerably damaged, but it is believed \$200 will cover all losses.

The people of Turkey Run say that but for the public water works nothing could have averted a conflagration, as prior to the introduction of the new water supply the patch was without any safeguard against fire.

The work of the volunteer fire company in locating the people that they propose to aid in becoming as well organized as the companies in the town.

Sudden Illness.
James, the 13-year-old son of Lawrence Mangum, of the North Jordan street, returned last evening from Philadelphia, where he spent a week visiting friends. Shortly after his arrival home he was attacked by convulsions and it was feared they would have a fatal effect. He was much improved to-day. The illness is attributed to the hot weather in the city and frequent drinking of ice water.

John A. Titman, of town, has purchased from J. B. Niebler, of Pottsville, a dark bay gelding with a roan of 2:20, and known as "China Boy." The horse will be used for the pole. Several weeks ago he ran away and fell through a railroad bridge, but the veterinary surgeon who attended the horse says it is as sound as ever it was.

Teething children should be treated with Luke's soothing syrup.

The Circus.
Notwithstanding the storm every seat in Washburn's circus tent was occupied last night and many people were obliged to stand. The performance in the tent is all that is advertised and gives entire satisfaction. The bareback and trick riding, the trained animals, feats of strength, and acts by the Japanese were especially good.

The State Chairman Names His Secretaries for the Campaign.

State Chairman M. S. Quay is now at his home in Beaver, but previous to his leaving Harrisburg named W. R. Andrews, of Leadville, brother of Senator Andrews, and Jerro B. Rex, of Huntington, as secretaries of the state committee.

It is the intention of Chairman Quay, with the concurrence of the state committee, to have an executive committee appointed and place Frank Willing Leach as chairman. The idea is to conduct the campaign on the plan of the National Committee. In this way Mr. Quay will have the benefit of Leach's assistance in the fall campaign.

The two secretaries opened the state headquarters in Philadelphia today, on Walnut street, below Thirteenth. Chairman Quay's appointments appear to meet with much favor at the hands of the party workers.

Of course we would like to allow "The Senator" and stop business, but how can we when everybody wants Columbia beer and will have it.

Progress of Connections.
The work of making connections with the public water works has not stopped, as some people suppose. FISHERMAN'S LUCK.

In fishing around the market we found a couple barrels of extra fine Norway mackerel cheap. Very fat and white. Not large. Weight about 3-4 of a pound. 14 cents a pound. We have the big ones, too; weigh 1 1/4 to 1 1/2 pounds, for little more money. These are the finest fish caught, and we can not always buy the small ones.
