WAS A GENUINE EARTHQUAKE

Shakes New York, New Jersey, Pennsylvania and Delaware.

MANY HOUSES VIOLENTLY ROCKED.

Pictures Thrown From the Walls and Ornaments From Shelves—The Seismic Disturbances General Throughout This Section.

BROOKLYN, Sept. 2.—Three distinct earthquake shocks were felt by the residents of Brooklyn about 6 o'clock yesterday morning. No damage to life or property is reported from any section of the city. The districts of East New York and South Brooklyn received the greatest shock, but the rumblings were distinctly felt in other sections of the city. Contradictory reports are given as to the severity of the shocks. The first shock, which was felt at 6 o'clock, was followed by a rumbling noise like distant thunder. This was followed by two other slighter shocks, which, according to most of the reports, died away in a low, grating noise.

Superintendent of Police William J. Mackey telephoned to the police headquarters from his Green Avenue residence to the effect that he had been awakened from a sound sleep by the earthquake. He said that the house oscillated, and that the bed on which he was sleeping had moved perceptibly. Deputy Commissioner of Police Crosby, who was stopping at Coney Island, also telephoned to headquarters that the shock had been pretty severe in that section of Brooklyn. He described it as a low, rumbling noise, and added that many houses had been shaken, all of the inhabitants being aroused from their sleep. Conductor Barry, of the Atlantic Avenue railroad, said that when going on duty shortly before 6 o'clock in the morning he distinctly felt the ground shake and then he heard a rumbling noise. The residents of the Twenty-fifth ward were startled by three shocks in rapid succession, followed by a rumbling noise. The houses trembled, and many pictures and other ornaments hanging on the walls were thrown to the floor. Two conductors of the Atlantic Avenue railroad who were dining in a restaurant on Washington street reported to the bridge police station that they felt the earthquake shock. The building trembled perceptibly, while the plates and other dishes on the table were moved. They said the shock was like the effects of a distinct explosion.

At many hotels the guests were so frightened by the vibrations that they hurried into the hallways to find out the cause of the trouble. The guests at the Pteropons House were very much alarmed, and many of them went down stairs and asked the night clerk what had happened. They thought an explosion must have occurred in the hotel.

According to Weather Forecaster Dunn, the earthquake reached New York at 6:11 o'clock yesterday morning. The shock was slight, and lasted for ten seconds. It traveled from south to north, but comparatively few persons in the metropolis noticed the disturbance.

IT SHAKES PENNSYLVANIA.

But with No Serious Results to Either Life or Property.

PHILADELPHIA, Sept. 2.—An earthquake shock lasting several seconds was felt in this city shortly after 6 o'clock yesterday morning. This disturbance by another earth of the quiet of the Sabbath morning was violent enough, while it lasted, to create a great deal of consternation and not a little damage. Buildings perceptibly swayed, windows clattered and banged and clocks and pictures toppled from their places.

The shock was most severely felt in the suburban districts, and it is said that in one part of George's Hill, in Fairmount park, a fissure was opened permitting the entrance of a plume which extended down a distance of over a hundred feet without touching bottom. A large plate glass window in the shade store of Michael Lett, 1914 Germantown avenue, was split from top to bottom. Similar cases are reported from other parts of the city, though no damage to life or person has been reported.

At the Zoological Gardens the vibration was clearly perceptible, but the excitement which followed among the animals continued for a good while after the seismic disturbance. Head Keeper Manley asserts that the trumpeting of the elephants, the roar of the lions and the screeching of the birds was simply terrifying. At Mr. Manley's residence, besides the breaking of several windows, a clock was thrown from its shelf.

The clerk at the local weather bureau declared that no observations of a geological character were taken there, their efforts being directed solely to the skies. He hadn't felt the quake himself, and was inclined to doubt the assertions of anybody who had.

Incoming reports show that the earthquake was general throughout eastern Pennsylvania and New Jersey. At Allentown and Pottsville, both in this state, many persons were awakened from sleep, buildings swayed, and a "wavy sensation" was felt.

At Bristol, Pa., the families of Mrs. Sheels and William Young say they were "badly shaken up," and Dr. Dingee and his wife were nearly thrown out of bed. Dr. Dingee experienced the Charleston, S. C., earthquake, and declares that yesterday's was almost as severe.

Delaware Felt It, Too.

WILMINGTON, Del., Sept. 2.—A perceptible shock of earthquake was felt in this city about 6:30 yesterday morning. The vibration lasted for several seconds, and was observed in every section of the town. No damage has been reported.

A STABBING AFFRAY.

Two Men Stabbed in a Saloon Brawl Saturday Night.

During a fight in the saloon of Gustave Wankhaus on West Centre street, Saturday night, Frank Keller was stabbed in the side of the abdomen and Louis Bartell was cut on the hand with a jackknife in the hands of Frank Menkalt. Keller's wound was at first looked upon as dangerous, but last night he was reported as much improved and past danger. His wound was about two inches deep. Bartell's wound was a slight one.

Constable Boland and Policeman Walaitis went to the saloon to arrest Menkalt. When the latter saw the officers enter he disappeared through a rear entrance. In jumping from the fence the fugitive fell to the ground and Boland dropped on top of him. The prisoner was searched and a jackknife with the blade wet with blood was found in his pocket. He was remanded to the lockup until last night, when Justice Gerdin gave him a hearing and committed him for trial in default of \$1,500 bail.

HOT TIME AT A WEDDING!

Several Policemen Drop Into a Nest of Humane Hornets.

BEER GLASSES AND BILLETS FLY

After a Bitter Conflict With About Thirty Enraged Lithuanians the Officers Get an Upper Hand and Arrest Ten of Them.

A wedding on Juneberry alley, in the Fourth ward, developed into a small riot at an early hour yesterday morning and several of the regular police and a Councilman had an experience that they did not relish. For about twenty minutes the officers battled with a gang of about thirty enraged Lithuanians, some of them women, and the fight was a bloody one; but fortunately no knives or revolvers were used. Beer glasses, stones and billets were the weapons used and many bodies show the vigor with which they were pelted. Some of the police still feel sore from head to foot. The women fought like Amazons and left their marks on several of the police, as well as the Councilman. At one time it was feared that murder would be committed.

The fight arose from an effort to serve a warrant. It appears that while the wedding was in progress one Mike Corallo stopped at the open door and looked into the house. Somebody inside thought he was too inquisitive and threw a beer glass at him. The glass struck him on the head, inflicting an ugly scalp wound which Dr. Phillips dressed. Corallo applied to Justice Williams for a warrant and it was placed in the hands of Policeman Kerwin for service. When the officer went to the house he was refused admittance and he summoned the assistance of Chief Toth and Lieutenant Lee. Councilman Gable, who resides near the place, also joined the force and an entrance to the house was gained. The sight of the blue uniforms seemed to have an effect upon the occupants of the house that a red flag has upon an enraged bull and a battle was precipitated almost before the officers could realize what was going to happen. The house was crowded and the officers had no room in which to make a fight. Chief Toth was rushed up to a corner and pummeled by a half dozen men. Lieutenant Lee was struck on the head with a beer glass and felled to the floor. He attempted to arise, but was sent down again with a kick in the stomach. He was knocked down three times before he could draw his billet and make an effectual fight. Policeman Kerwin was also overpowered by several of the men. Councilman Gable was also badly beaten, but he proved a stayer. Two strapping big women and four or five men of equal proportions had him pinned against a wall and pounded him unmercifully, but the Councilman got in a number of excellent returns. The prosecutor in the case who went into the house to identify his assailant also fared badly, but he succeeded in escaping by jumping out of a window. He summoned Policeman Hand and several specials. The police say they thought the battle lasted nearly three hours, but people who were not excited by the heat of the fight say it was of twenty minutes duration. The police finally got their billets working on schedule time and succeeded in quelling the angered mob. Having accomplished this they marched four of the ringleaders to the lockup and then returned and placed six more under arrest. Later in the day six of the parties paid fines and costs to Chief Burgess Burns and were discharged. The other four were held to serve time.

It is considered very fortunate that Councilman Gable was not armed during the fight, as in such an event there would have been some shooting. He called for a revolver several times while he was being bombarded and in the position that he was in would have undoubtedly used one if he had it. A Lithuanian woman named Maggie Kelly was struck on the forehead by a stone during the melee, but not seriously injured.

To Improve Their Plant.

The power house of the Schuylkill Traction Company, at Rappahannock, is said by the officials of the company, will shortly undergo much needed improvements. The capacity is not sufficient, and has caused considerable trouble of late. New and improved machinery will be introduced, thus increasing the capacity. Only fourteen cars are now fit for service, and when all are pressed into service the machinery is over-taxed and is liable to break down. An inspection was made of the Mt. Carmel-Shamokin plant, and the officers were favorably impressed. The new plant will also be increased in power to allow for any new branch that may be built in the future.
