Being a branch of the excellent Wilkes-Barre Business College, and the management offering so low rates of tuition for the first year to organize it thoroughly, it gives the people of this county an opportunity to attend a first-class business college at nearly half the usual cost.

A Charter Membership is issued which entitles the holder to a complete course (time unlimited) in the commercial and English branches, and shorthand and typewriting for only \$50. In night school only \$40.

There will be excellent teachers and thorough courses. In the commercial department the celebrated Sadler system will be used for teaching accounts. It is being adopted now by the best and largest schools in the country. The shorthand and typewriting department will be nicely equipped. An aunt of mine, who resides at Dexter, Iowa, was about to visit me a few years since, and before leaving home wrote me, asking if they were sold here, stating if they were not she would bring a quantity with her, as she did not like to be without them." The medicines referred to are Chamberlain's Cough Remedy, famous for its cures of colds and croup; Chamberlain's Pain Balm for rheumatism, lame back, pains in the side and chest, and Chamberlain's Colic, Cholera and Diarrhoea Remedy for bowel complaints. These medicines have been in constant use in Iowa for almost a quarter of a century. The people have learned that they are articles of great worth and merit, and unquailed by any other. FROM STAGE TO PULPIT. Sketch of Rev. Williams, Who is Doing Revival Work Here.

Rev. George Williams, who is holding tent revival meetings in this city, is a Welshman by birth and was born in North Wales, which place he left when he was about nine years of age, for Leamington, England, where he was educated and he first got a love for stage life. He would spend much time on the Campion Hills, trying to throw his voice over a given point. His companion at this time was Edward Smeaton who, in after years, made his mark as an actor in Paris. London was the next place in which the subject of this sketch lived and entered the music hall profession at the age of fifteen. He was known as a "female impersonator" and worked in three halls a night. Before he was seventeen years of age he was making big money and at eighteen entered the dramatic profession and traveled with some of the leading companies throughout England, and remained very popular to the end.

At the time of his conversion Rev. Williams was just entering the Shakespearean school of actors, but gave up his profession as soon as he was converted and went to work in the mines at St. Helens, Lancashire. All the salary he received was four dollars a week. After being at the mines over twelve months, during which time he became a great favorite with the miners, who used to call him "Preaching George," and before he left the mine presented him with a beautiful Bible. At this time Rev. Williams became a Methodist local preacher and soon after left the work of an evangelist. Few men have traveled and preached more than he has. After preaching in England, Ireland, Scotland and Wales for some time he came to this country, in 1881, in company with the great Scotch divine, Dr. Bonar, and they traveled together, preaching to large audiences. After a very successful evangelistic tour, and remaining with his spiritual father, Dr. L. M. Moody, for thirty days at Northfield, Mass., Rev. Williams returned to England. He came again to this country in 1883 and was in charge of Mr. Moody's tabernacle in Chicago for three months, nightly drawing immense congregations. He again returned to England and went to Australia, and for twelve months drew great crowds in the leading cities. His home is now in Mahanoey City, where he resides with his wife and three children. He was ordained to the ministry at that place. Rev. Williams' tent was not occupied yesterday on account of the cold wave and damp weather and services were held in the Calvary Baptist church on South Jardin street, through courtesy of the trustees. The change of place for the meetings do not seem to diminish the interest the people take in them and the evangelist, who is a man of marked ability and a magnetic speaker.

The Heavy End of a Match.

"Mary," said Farmer Flint at the breakfast table as he asked for a second cup of coffee. "I've made a discovery."

"Well, Cyrus, you'd better let the last one I'd expect of such a thing, but what is it?" "I have found that the heavy end of a match is its light end," responded Cyrus with a grin that would have adorned a skill. Mary looked disgusted, but with an air of triumph quickly replied: "I've got a discovery too, Cyrus. It was made by Dr. D. V. Pierce, and is called a 'Golden Medical Discovery.' It drives away blotches and pimples, purifies the blood, tones up the system and makes one feel brand-new. Why, I cured Cousin Ben, who had Consumption and was almost reduced to a skeleton. Before his wife began to use it she was pale, sickly thing, but look at her she's rosy-checked and healthy, and weighs 165 pounds. That, Cyrus, is a discovery that's worth mounting on a wall."

Young or middle-aged men, suffering from premature decline of power, however induced, speedily and radically cured.

Y., says that Dr. King's New Discovery is undoubtedly the best cough remedy that he has used in his family for eight years, and it has never failed to do all that is claimed for it. Saturday evening the driver for J. T. Graf, the grocer, delivered a box of groceries and a sack of flour at the home of Samuel Davis, on West Lloyd street. Mr. and Mrs. Davis being absent, the goods were put in the kitchen and the door closed, as had been previously done. Between this time and the

arrival of the family some person stole the groceries and a watermelon. Mr. Davis does not believe any of his neighbors committed the theft, as he thinks they are all honest, but says some time the miscreant may run up against the muzzle of a gun and cause the trigger to snap.

Remember that COTTOLENE heats to the cooking point sooner than lard and that it must not be allowed to burn. COTTOLENE when rightly used, never imparts to food any disagreeable greasy odor or flavor. For pastry or any shortening purpose, but 2/3 the quantity that was formerly used of lard, is necessary, if Cottolene is used.
