A wan is being waged in the Mt. Carmel newspapers as to whether Locust Gap, or Centralia, is the most corrupt place of the two. It is a delicate subject with a wide scope, and nothing outside of a committee from Cass township will be able to handle it, als though some Butler township citizens might qualify as judges,

Town lot beomers are at work in Shamokin. It would not be surprising to hear of a company of rainmakers' beginning operations at that enterprising place. It catches everything that comes along. Tire activity of the stocks of enal roads the past few days is taken as an indication that some movement that is to benefit these lines is on foot, and that an inkling of it has gotien out on Wall street. As the condition of the Cesalers" is deplorable, any movement that will prove beneficial will be hailed with delight by the thousands who are dependent upon them. Shemindoah has not experienced such hard times since 1577 as we have recently had, and a change for the better is devoutly to be wished for.

THE opening of the new school year brings to mind something that Is worth thinking about. The home sided child has a tremendous advantage in the steady work and inevitable competition of school life. Home co-operation teaches the child how to study, which perhaps is the most neglected art of all; it forestalls discouragement, and it immensely raises the dignity of work in the eyes of the child. There is a sentiment among all large groups of children that study is something to be goffen through with as this by giving it a fair trial. Insist upon quickly as the vicilance of the teacher will Hood's and only Hood's. \$1; six for \$5. allow in order to get to play. It makes a Hood's Pills set harmonically with teacher a task maker and an enemy. It may

be more or less prevalent in any particular A NEW DISCOVERY BY THE school, but it is always present. The home aid not merely puts the child above this: temptation-it teaches him to despise it. By its aid he comes to think of the teacher as a fellow worker, which is, of course, the ideal thought for progress. In the case of slow or backward children, who are often in maturity the brightest and the most successful this need of home aid is especially imperative.

MR. CAUNEGIE Says of Home Rule that "the question is not only a firitish one, but, unfortunately, an American one as well, because of its imperit influence over our politics." If in his reference to this country Mr. Carnegio has in mind the deplorable affair that arose from the operation of his works at Homestead, we can fully appreciate the apprehension he eviness. The menuer inwhich Homestead Home Rule was throttled will remain baneful to Mr. Carnegie's, political sphere so long as the blue balls grow upon his estate in Scotland.

The paper con-tended it was unfair to proclaim the suiself-from threatening inconveniences, but I do insist that there are cases in which suicide is the last and only way to solve the question of individual misery." Albert Bach held that suicide was justifiable in certain cases where the individual had no hope, and that the individual had as much, if not more, right to end his own life than had a doctor to take life in certain circumstances.

C., was committed for court by Justice Murray on the double charge of forgery and attempting to obtain \$1,000 by means of forgery. August 31 Marr is said to have deposited \$50 at the National Mechanics' bank in this city under the name of Brooks. Nebraska's Single Standard Democrats. LANCOLN, Neb., Sept. 6.-When State Chairman Martin, of Omaha, called the second: Nebraska Democratic state convention to order yesterday 631 enthusiastic delegates greeted him with applause. It was considered quite significant, in the light of recent developments, that 631 out of a total representation of 634 delegates should be present when the convention was convened, and it was early evident a cheap verdict out of a dilemma. "I do not pretend," went on the paper, "that every one in temperary troubles should commit suicide and thus deliver his own self from threatening inconvenient. month under the auspices of the free silver leaders of the state at Omaha. A BEAUTIFUL GIRL TORTURED

Because She Refused to Renounce the Insurgent Cause-A Story from Insurgent Sources Which, If True, Is a Disgrace to the Civilization of Spain.

NEW YORK, Sept. 6.- Atrouttles by Spanfards, as revolting as those committed by the Japaness at Port Arthur, have just been reported to the Cuban revolutionary party in New York. Enrique Exujillo relies of El Porvenir, received a letter year terday from Juan Propers, chief of staff under General Maximo Gomes, the com mander-to-chief of the home, out army. It is district "Hemilyonerress in the field, Aug 8," and sends details of the capture am recapture of the city of Baire, and the mas sners of thirty-seven Inoffensive Culums-Iards under Communities Carrido,

On Thestay norming, possibler to surgon's tind t Jo. Palel, smith od the Spanish garden, in the few as communating the city of Baire, littled more than seventy measured took fifty six prisoners. Play captured a large quantity of arms and persuaded the prisoners to enlist in the insurgent ranks. About an hour later three companies of Spaulsh troops under Commuder Garrido came up and after a short but sharp resistance the Cubana fled, leaving the fortress again in the hands of the hivader.

Soon after the fort had been regarrisoned with Spaniards one of the companies broke loose and began to pillage the city. Commander Garrido himself, Colonel Franco states, led the uniformed rioters. The Spaniards were wild for the spilling of blood. Every human creature who came in their path was ruthlessly slain. Within five minutes the streets of Baire were deserted by the panic stricken na-tives, but the Spaniards followed them into their houses and killed them in their own rooms.

"Age, sex and condition were wholly disregarded by these livered butchers," says Colonel Franco, "Old and young women, children – even infants-were slaughtered. Shocking indignities were offered to the unfortunate victims before and after death. The Spanish soldiers stamped on the bodies of those whom they bad slain and ground their heels into the faces of many who were still living.

"Senorita Dolores Madera, a beautiful girl of 18, betrothed to one of Captain Rabi's lieutenants, was seized on the street, cruelly beaten, repeatedly stabbed

with bayonets and brutally insuited. "One of Garrido's captains commanded the girl to renounce hor Cuban sweetheart and swear loyalty to the Spanish govern-ment. She scornfully refused, whereupon the captain struck her across the face with his sword, inflicting a terrible gash. With blood streaming down her face, she taunted the Spaniards with their cowardice. Thereupon the maddened soldlers selzed her, bound her hand and foot, threw a noose around her neck, and hanged her to a tree. The torture of Senorita Madera was prolonged as much as possible. While she was still alive, but no longer conscious, her body was riddled with bullets."

Another Reported Insurgent Defeat. MADRID, Sept. 6.-The Imparcial's Havana correspondent telegraphs that insur-gent bands under command of Regon and Line attacked a body of fifty soldiers at Petrero Guyana. The soldiers, finding themselves greatly outnumbered, retreated in an orderly manner, and making a courageous defense until they met another body of eighty soldiers. The united forces then attacked the insurgents, who fled, leaving nine killed, besides arms, horses and ammunition. Of the Spaniards only four were wounded.

The New Illuminant.

PHILADELPHIA, Sept. 6.-If the pr tns of the Acetyline Light, Heat and Power company, of Philadelphia, means all it says, the day is not remote when the new illuminant will be in practical use in this city. It is declared that it can be made at a cost that will return a large profit if sold at thirty cents per 1,000 feet. Big concerns like the United Gas Improvement com-pany declare that acetyline is impracticable on account of the smell and smoke which it produces. Nevertheless, a \$1,000,-000 company has been formed to produc it, which development certainly flavors very strongly of business.

Utah's Democratic Nominees.

OGDEN, Utah, Sept. 6 .- The Utah Demoeratic convention instructed almost unan imously to support J. L. Rawlins and Moses Thatcher for the United States senate. B. H. Roberts, of Davis county, was the only name presented for member of congress. For the three members of the supreme court S, R. Thurman, Thomas F. Maloney and R. W. Young were nomi-nated. The platform declares in favor of the immediate restoration of the free and unlimited coinage of silver and gold at the present legal ratio of 16 to 1.

Maraudiag Eurds Driven Out.

CONSTANTINOPLE, Sept. 6.—At Biblis a body of gendarmes attacked a hand of Kurds, who had been committing degree dations in the Moosh district. The Kurds sustained serious losses and were driven out from the possession of property of Ar-menians, which they bad seized. The The grand vizier has dismbsed a number of officials of Moosh, who have been found guilty of extorting taxes and of treating Armenians with ruthless severity.

No Churches in the School Houses, LANCASTER, Pa., Sept. 6,—At a meeting of the city school board last night a resolution was adopted rescinding the right of any religious denomination to hold ser-vices in the public schools here. Several Protestant congregations have held ser vices in local school houses every Sunday, and as a result of last night's action they will all be driven out. This is the direct outgrowth of the religious garb bill passed. by the last legislature.
