The most important witness was Dr. Barrott, who testilied that the post mor-tem examination on the body of Miss La-mont showed a crust rumor circulated at the time of the murder as to the dead girl a solution to be under real the dead attrict condition to be unfounded, as no evidence of assault accompanying the murder was found.

Most of yesterday's sessions were devoted to a description of the diagram of Emmu-nel church introduced as exhibits by both sides. Both prosecution and defense had had drawings of the church made to show the exact spot where Blanche Lamont was murdered. Each attorney wished his draw-ing only to be introduced, and the greater part of the day was spent in wrangling over the respective merits. The only with nesses examined were the draughtsmen who prepared the diagram.

As the taking of testimony proceeds in-terest in the trial continues. People seem hungry for details, and even unimportant statements by witnesses are eagerly lis-tened to by those fortunate enough to obtain admission to the court room. In the event of a repetition of the strag-

gling of the crowds around the entrance of the court room, the police have arranged to have a line of policemen extending down the corridors, and allow only those to pass who have business at the trial.

An Italian Will Succeed Mgr. Satolli. ST. PAUL, Minn., Sept. 6.—Regarding the elevation of Mgr. After this great honor has been conferred upon him he will remain in this country for some time, perhaps a few months, until his successor is named. Mgr. Sa-tolli's successor would decidedly not be an American. His successor will be an Italian."
