The German Emperor's incessant use of the perpendicular pronoun would lead one to infer that he is a very upright man.

It is gratifying to see so many people and large consumers of water apply for permission to connect with the public water works. In the first place, it is an evidence of the superior quality of the supply and, secondly, it demonstrates that the works will be on a paying basis much sooner than even the most sanguine of the projectors anticipated. There is only one danger, and that is a possibility that the plant will not be able to keep up with the demand, but it is hoped this will be averted and all who desire it may receive an abundant supply of the excellent product of the borough's investment.

The action of the Borough Council in endorsing to Contractor Quinn the amount he asked on a joint consideration for a final settlement of his charges against the borough for the construction of the public water works was sensible. The amount in dispute was really only \$800, and it would cost the borough at least twice that amount to force Mr. Quinn to accept the amount he was willing to pay, and at the same time run the risk of a jury, as it does frequently, taking a view of the case quite contrary to the facts. Mr. Quinn claimed \$600 more than the water committee offered him, but Mr. Schelck had offered to concede \$600 more, the actual surplus expenditure is really only the same amount. The construction of the water works has been attended by so many misadventures, legal controversies and protracted technicalities that it is doubtful if the citizens would have been inclined to criticize a concession of \$1,000 or \$2,000 to put an end to what, until a few days ago, looked like a long and stubborn battle in court involving volumes of expert testimony as to what constitutes standard work in the construction of public water works and the amount of what is known as "extras."

IS HE A CANDIDATE?

The discussion of the platform adopted by the Republicans at Harrisburg on the 25th ult. still continues. The greatest surprise in connection with it is that of those good Mugwumps who have always considered Senator Quay as the arch-foe of politics. To find the man they have vilified in season and out of season at the head and front of all that is corrupt in politics, presenting resolutions favoring a broader application of the civil service idea that they have never advanced, has taken their breath away, and it will take them some time to recover from the shock. They are gradually coming around, however, and beginning to admit the truth of the old saying that even the devil is not so black as he is painted. It would not surprise us very much to find the newspapers that a short time ago would find no terms harsh enough to apply to him, sporting around and entering him among their list of Presidential possibilities, etc., long. That he could enter the race for that position under very favorable conditions goes without saying when he has the leading Republican vote of the Union at his back to give him a chance.

We do not know that he has any desire for the office, but the addition of his name to the list in any way of his opinions in public affairs, and his good organizing and administrative abilities place him above many of the men who have occupied the Presidential chair. His recent delinquent upon the question of civil service, has shown that he is a man unimpaired with the highest principles, and there is no doubt that he would, if elected, give us a good American administration.

As stated, we do not know that he has any ambition in that he has declared his preference for Quay and McKinley, but should Tompkins present his name to his constituents, there is no saying what the result would be at the Republican National convention. But, if he does not want the nomination himself, he is, with his greatly increased prestige in the party, in a position to name the candidate. And he will make no mistake in doing it.

Drove Away a Burglar.

PROVIDENCE, Sept. 7.—Miss Estie Page, daughter of Congressman Charles H. Page, was about to go into her mother's room for a remedy for toothache when she saw a man examining the lock on her father's door with a lighted match. She cried out, and chased the fleeing burglar down the rear staircase. She had not gone far, however, when she heard a groan from the room occupied by her brother. She aroused Mrs. Page, and the two women entered the man's room to find him lying helpless in a corner. He had been put to sleep with chloroform.

The War in Cuba.

HAVANA, Sept. 7.—The column of Torrel had a skirmish with the band of Sanchez near Ylana, in which the insurgents lost two killed. A spy was also captured at Sagua. The Bolandron volunteers have had one of their number wounded in a skirmish. The insurgents derailed a train near Sanjo Domingo, province of Santa Clara, by which five persons were wounded. The band then fired upon the train, but were repulsed by a detachment of the civil guard. The origin was destroyed. General Canales has sailed for Cayo.

Triple Tragedy in Indiana.

SELLVAN, Ind., Sept. 7.—The most horrible murder and suicide in the history of this (sellvan) county occurred last night. James Ward killed Aaron Hunter, his father-in-law, and John Hunter, his brother-in-law, Ward cut off the head of the head Hunter, and split wide open the head of the son. Ward escaped, but on being surrounded by pursuers put a bullet through his own brain, dying instantly. Family differences are supposed to have led to the crime.

The Rothschild "Bomb" Was Harmless.

PARIS, Sept. 7.—The bomb found upon the man arrested on Thursday in the bank of Messrs. Rothschild, in the Rue Lafitte, on being opened was found to contain a mixture of chlorate of potash and ordinary gunpowder, which the experts declare would not have exploded even had it come in contact with a lighted fuse. There were no projectiles in the "bomb."

Ex-Secretary Tracy Homebound.

LONDON, Sept. 7.—Hon. Benjamin F. Tracy, ex-secretary of the United States navy, sailed from Southampton today on the American line steamship Paris, instead of on the St. Louis on Sept. 14, as was his first plan. General Tracy expressed surprise to a representative of the Associated Press at a report which has been published here that the United States battleship Indiana had to be sent to Nova Scotia to be docked, as there was no dock large enough for the purpose in the United States. General Tracy said: "During the time that I was secretary of the navy I started to build docks large enough to hold any warship. It seems astonishing that they have not been finished. I think there must be some mistake."

Sent to His Mother in Germany.

Mr. Jacob Ebsensen, who is in the employ of the Chicago Lumber Co., at Des Moines, Iowa, says: "I have just sent some medicine back to my mother in the old country, that I know from personal use to be the best medicine in the world for rheumatism, having used it in my family for several years. It is called Chamberlain's Pain Balm. It always does the work." 30 cent bottles for sale by Grubbler Bros, Druggists.

Killed While Going to a Funeral.

PITTSBURGH, Sept. 7.—While Nicholas Olin and his daughter-in-law, Mrs. Nicholas Olin, Jr., were on their way to a funeral their buggy was struck by a train in crossing the Hellmons and Olin tracks near here. Mrs. Olin was instantly killed and Mr. Olin was so badly injured that he died while being taken to the hospital. He was 55 years of age and was a wealthy farmer. Mrs. Olin was 27 years old.

The Archduke's Wounds Proved Fatal.

RUSSIA, Sept. 7.—Archduke Ladislav, who was wounded by the premature discharge of his rifle while shooting on Sept. 3, is dead. The bullet penetrated his thigh, and at the same time caused the explosion of a number of cartridges which he was carrying in his pocket, terribly maiming and burning his legs. The shooting was seen by the Archduke Joseph, and was reported as follows:

Dyspepsia, Indigestion

And distress in the stomach caused me intense agony. I lost flesh, strength and energy. I was so weak that I could not walk without my cane. My family and friends prevailed on me to try

Hood's Sarsaparilla

and now I am a well and strong man of 55 years. I owe my life to Hood's. W. T. Spencer, Fort Mitchell, Virginia.

FINANCE AND TRADE.

An Increase Over Last Year, but at Lower Prices.

NEW YORK, Sept. 7.—R. G. Dun & Co.'s weekly review of trade says: There is no real reaction in business. Gains which were recognized as temporary are vanishing, but there remains a decided increase over last year at this date, although prices average 8.5 per cent. lower than a year ago. It needs no keen observer to see that the reaction against rapid advance of prices is strong. Hides were the first to rise, but a decided break has come. Cattle was suddenly raised to \$1.40, but has recently sold at \$1.10. Wheat jumped to 84 cents, but is now slow of sale at about 65 cents. Wool was late in rising, but has lost about an eighth of a cent in average price within the past fortnight. Iron still rises, the miners' strike having hindered shipments of ore, but with troops guarding the ore begins to move. Cotton is strong, but has paused. The general tendency to curtail purchases where prices have notably advanced grows clearer in boots and shoes, in wool and in some products of iron.

The brightest feature in all the horizon is the certainty that the crop of corn will be enormous. Frosts now can only affect a small fraction, and the surplus will go into manufacture of meats, because at 35.7 cents at New York, nearly four cents lower than a week ago, there is no other profitable use for corn. The latest reports of wheat threshing indicate the best western judges to raise their estimate of yield over 40,000,000 bushels, and with 400,000,000 bushels, added to 70,000,000 brought over, the supply will exceed all probable demands.

Failures for the week have been 189 in the United States, against 219 last year; and in Canada, 28, against 47 last year.

Brodstreets' review says: Favorable crop reports from nearly all directions and a continuance of the boom in steel and iron characterize the general trade situation. Latest advices as to the corn crop have replaced anxiety with confidence in the larger estimates in the size of that crop and satisfaction with the outlook for trade this autumn. Harvesting and threshing are interfering a little with business in the spring wheat country, yet Duluth, Minneapolis and St. Paul jobbers in general lines are pushing for new business.

A Giddy Old Hor.
EVANVILLE, Ind., Sept. 7.—Joel C. Mills is about 70 years of age and worth \$50,000. His wife, Agnes, said him for divorce, naming Ella Jones, a blind woman, as corespondent. The complaint states that Joel and Agnes were married in 1843, and that in 1880 the old man became enamored of the blind woman, and has ever since neglected his wife. He finally built a house at a cost of \$7,000 for Ella, right across the street from his own home, and spent most of his time with her.

Three Drowned in a Swollen Stream.

GIRKENSONO, Ga., Sept. 7.—Three men were drowned in the Oconee river. Two negroes, Albert Goss and John Armour, started to the mill with some corn to get started to the mill which they reached the mill ground. When they reached the ferry they found the river very high from the recent rains. Ira Caldwell, son of the ferryman, undertook to carry them across on a flatboat. When they reached the middle of the stream the boat was caught in the current and swept down the river half a mile and over the dam, fifteen feet high. The boat was shattered on the rocks and the men were all killed or drowned.

Death of the Tin Plate Industry.

CLEVELAND, Sept. 7.—The plate manufacturers in this city say that the big advance in the price of steel has killed the tin plate industry, and that in a few months every mill in the country turning out that product will be closed. J. W. Britton, president of the Helton tin plate mill, said: "There is in the neighborhood of \$10,000,000 invested in 137 mills at present operating in this industry, and from 27,000 to 37,000 men are employed. In four months from now not one of these mills will be remaining."

Mary Pierce Convicted of Manslaughter.

GRAND HAVEN, Mich., Sept. 7.—Mary I. Pierce, aged 15 years, who has been on trial for the murder of her mother, was yesterday found guilty of manslaughter. Judge Padgugan sentenced the girl to the industrial school for girls at Ayrton until she is 21 years of age. This is the murder for which George Chesbro, the girl's nephew, was sentenced to life imprisonment at Jackson a month ago. Chesbro was brought here and testified against the girl.

Another Tennessee Lynching.

NASHVILLE, Tenn., Sept. 7.—While Mr. Charles Jones, a highly respectable citizen of Lincoln county, was in Fayetteville Monday night attending lodge, a negro broke into his residence in the country, where his wife and her sister were staying, and committed a criminal assault on his wife. "Doc" King, a farm hand, was arrested and fully identified. Yesterday a mob of 200 men took King from jail and hanged him to a tree.

Nine Hundred Mobs Arrested.

CHICAGO, Sept. 7.—Advisers have been received here from Moscow and St. Petersburg stating that 900 persons known or suspected to be nihilists have been arrested by the police of those cities, and large quantities of bombs, firearms and dynamite have been seized in their lodgings and houses.

An Absconding Court Clerk Captured.

PORT TOWNSEND, Wash., Sept. 7.—Provest, the absconding clerk of the supreme court of Victoria, was captured at Roche Harbor by British authorities and will be taken back to Victoria. He declared he was willing to return and face the charges against him, waiving the formality of extradition.

Governor Algrid Subpoenaed.

SPRINGFIELD, Sept. 7.—The grand jury yesterday issued subpoenas for three Chicago persons, Governor Algrid and two others, commanding them to appear before the grand jury and testify regarding bootlegging by members of the last general assembly.
