G. A. R. ANNUAL MEET.

Louisville's Royal Welcome to the Visiting Veterans.

THE CITY PROFUSELY DECORATED.

Its Business Blocks, Public Buildings and Private Residences Literally Covered With Festoons in Red, White and Blue of Every Conceivable Design.

LOUISVILLE, Sept. 9.—Visitors poured into the Palls City yesterday and today from the south as well as from the north side of the river. Veterans who attended former national encampments of the G. A. R. say they never saw such a large attendance on the first days of the great reunion week. Many Sons of Veterans are here en route to their national encampment at Knoxville. There are others here who never attended these encampments before. and who are now en route to the reunion of the Army of the Tennessee at Cincinnatl the first of next week, and to the dele-gation of the National Park on the battle-

field of Chickamauga the last of next week.

This is the third-national encampment ever held south of Mason and Dixon's line, and it so happens that three other great conventions elsewhere next week bring many through Louisville now. There is no doubt of the fulfillment of the general prediction that there will be more union veterans together this week than ever be-fore. The losses by death yearly increases, but the desire to visit old battlefields and confer with Confederate veterans, who are doing everything to entertain their northern visitors, has attracted thousands who have not heretofore attended a national

The Confederate veterans are here in The comrades hunt up members of their old regiments and brigades, and then meet Confederates belonging to regiments and brigades that opposed them, when they confer about how things went on both sides, and have such reunions as have not been seen since the service of over

thirty years ago.
The decorations may have been richer in triumphal arches and other designs at one or two other encampments, but at none was a city so profusely or generally decorated with American flags as is Louisville today. Its business blocks, public and private buildings and homes are literally covered with festoons of red, white and blue, with the American flag as the center piece of every conceivable design. The distinctive feature of the decorations is the use of the red, white and blue to the exclusion of every other color, even the evergreen arches. The portraits of all Union generals are displayed in unlimited profusion. The Confederate veterans par-ticipated in all this decorating as well as

in the entertaining.

Commander-in-Chief Lawler arrived this morning, escorted by Columbia post, of Chicago. On his arrival a salute was fired and he was escorted to the Galt House by the Louisville and other Kentucky posts and the citizen's committee. Senior Vice Commander Birchfield and the Pennsylvania posts were received with another salute, and escorted the parade which started at noon.

The St. Paul and Denver delegations have opened quarters for the contest for the next encampment. This afternoon there will be receptions to Commander Lawler and staff, and the flagship and other ships of the fleet will be put in commission at 4 p. m., followed tonight by the dog watch of naval veterans and by camp fires. The parade of the naval vet-erans occurs tomorrow morning and of the G. A. R. posts on Wednesday morning.

Threatened Strike of Cokers.

Untonrown, Pa., Sept. 9.—The situation throughout the coke regions today is one of uncertainty, caused by the possibility of a general strike this week. At the delegate convention held last Thursday in Connellsville a demand was made for an advance in wages of Il per cent., with an order for a suspension of work in case the operators refuse to grant the demand. Reports from the various plants are to the effect that secret meetings were held yes-terday, but what action the cokers took cannot be learned. A strike seems to be inevitable unless the wages are advanced
