## THE YACHT RACE MUDDLE. Valkyrie Being Prepared for the Voyage

Back to England.

New Yonk, Sept. 14.-There seems to be no prospect now of any more rises be-tween Defender and Valkyria III. Lord Dunray in and Calonel Oliver facth are thoroughly disgusted with the whole business, and although mutual friends have bestirred themselves to parch up a truce tion of news demands it. The right is real to repect any advertisement, whether there of a structure is small likelihood. This idea is strungthened by the fact that valkris, which is at Bay Bidge, is being distinguishes and inable. Mps. John Sorven, 310 West Fourth street New York city, says: "Professor Munyon' Romedica have really saved mor a small fortune in dectors' fees. We have had a great deal of Sickness in our family, and used to call a physician for my little one several times a work. Now I am giad to say that we have not employed a doctor for two years. Whenever anyone is ill a few doses o Munyon's Remedies act like magic and sev-us long spells of sickness. We have uses Munyon's Curve with wondorful success in realds, coughts, fevers, sore thread, diarrhose

General Taylor, of Boston, offered a cup of trophy valued at \$5,000 for a race to be suffed off Boston, Int. Mr. Letin replied in these words; "Many thanks for the genespuscoffor. I must decline at present to sail D fender." The tone of the reply shows that Mr. Isolin is disgusted at Lord Durrayon's action. In not energy on Thursday

H. Maitland Karsey, who represents Lord Dunraven, sold raday that Lord Dunraven had sold positively that he will not race Valkyrie in American waters

The feeling throughout England, as own by the press comments, over the failure of the match between the Valkyrie and the Delender, though embodying many shales of opinion, generally upholds Dunrissen, who is considered to have just ause for abandoning Thursday's race. The opinion most generally held is that he was beset with difficulties especially abhorred by him, though in some quarters it is thought that he was possibly hasty.

Knowing Lord Dunraven's temper, those holding these views think he will be willing to race his boat against Defender over some other course than Sandy Hook, but

In a recent letter to the manufacturers Mr. pare for the revival of the season's business. Rushford, N. The Week Is Characterized by an Unexpected Improvement in the South,

NEW YORK, Sept. 14 .- R. G. Dun & Co.'s weekly review of trade says: A slight setback, which may mean much or nothing, according to the final outcome of the crops, is not unexpected at this season. If the Splendid Work Accomplished by the government crop reports were correct the situation would not be encouraging. But not much confidence is placed in the re-duced estimate of corn, not at all in the estimate of wheat, and even the most enthusiastic bulls do not think it worth while to quote the government reports as to cotton

The wheat crop is evidently larger than the department has estimated, though no body knows how much larger, and is coming forward with more encouraging rapid-ity, no less than 5,773,173 bashebs having in received at western ports, against 5,440,001 busheds for the same week last year from a much larger drop. The farmers have undoubsedly been keeping back wheat under an agreement among themselves, but it does not seem a profitable operation for them.

Bennetics." Munyon's Stomach and Dyapensia Cure-cures all forms of indigestion and stomach irouhlos, such as constipation, rising of food, distress after eating, blasting of the stomach, palpitation of the heart, shortness of breach and all allections of the heart, caused by indigestion. It southes, heats and invigorates stomachs that have been weakened by over-centing, or where the Hring of the stomach has been impaired by physic and informs multicluss. Price 25 cents. Munyon's Honteropathic Home Bernedy Company, of Philadelphia, put up specifics for nearly every disease, which are sold by all draggists, mostly for 25 cents a bottle. If we are to have a large crop of grain and a small crop of cotton it is natural to infor that manufacturers may find large transactions at the west, but not at the south. There is, in fact, a very large demand for goods at the west, and west bound shipments are unusually large, although the cast bound shipments from Chicago for four weeks amount to only 210.818 tors against 222.144 for the same week in 1103

The largest output of pig iron ever known, 194,029 tons, is apparently sup-ported by a reduction of 64,000 tons in stocks of pig iron unsold, but the fact that the great steel companies have taken large quantities which are not included in the official statement, renders the account of stock less valuable. The market for finished products is a little weaker. Failures for the week were 187 in the

United States, against 219 last year, and 34 in Canada, against 44 last year.

Bradstreets' says: The week is char-acterized in trade circles by an unexpected, but no less pronounced, improvement south and southwest. This is reflected at markets from which supplies are distributed to these regions. Relatively unfavorable features are

found in a quieter tone in dry goods job-bing circles, a check of seasonable trade throughout the central west, due to the unusual heat, to which prices for men's wear woolens and an unsatisfactory out-Go up in smoke every year. Take no risks but get your houses, stock, fur-niture, etc., insured in first-class re-liable companies as represented by braska general merchandise orders at Chicago, and the somewhat critical position of the American tin plate industry, owing DAVID FAUST, Insurance Agent, 130 South Main St. to the heavy advance in the price plate bars without a corresponding increase in the price of tin plate. At the south fall trade is opening up

more freely than anticipated, with marked improvement in business and increased confidence as to the outlook at Jacksonville, Atlanta and Augusta.
