THE COMMITTEE ON PENSIONS.

They Review the Work Accomplished by the Soldiers of the Union During the War and the Laws Passed in Their Behalf-A Monument to Nurses.

LOUISVILLE, Sept. 14.-So far as the vetgrans are concerned, the twenty ninth an-mual encampment closed last night with as many attractions as on any other night of the week. The Indies, however, will continue in session today. Yesterday there were over 70,000 at the old Kentucky bac-beene, and last night the camplires were largely attended, with the principal events at Music Hail, Phoenix Hill, and National Park. Among the speakers were Generals Gordon, Buckner, J. W. Burke, Cassius M. Clay, Semator Burrows, Colonel M. D. Wickersham, Samuel McKes, H. C. Russell, John H. Leathers and others.

The veterans remain longer than usual this week, as many are going to other army events further south and to the Atlanta exposition. General Lawler and staff leave tomorrow night to spend the first part of the week at the national encampment of the Sons of Veterans and the last of next week at Chattanooga and the

Chickamauga battlefield.

The report of the committee on pensions, after reviewing the work agomplished by the soldiers of the union during the war and the laws passed in their behalf, says:

"In some quarters the old soldier has come to be looked upon in the light of a burden instead of a great and patriotic privilege, as he should still appear, when viewed in his true character. Referring to this view—wholly unworthy of a great and patriotic people—constructions have been put upon the laws, wise and just in them-selves, by and under which burdens and restrictions have been imposed upon those filly able to stand under them. The just provisisions authorized have been grudgingly doled out as though the law passed in the interests of the pensioner as a just recognition of the obligations of the country were criminal laws, to be construed and the public beneficiaries thereof were public enemies or parisites seeking admission to the treasury of the United States."

After commenting further on the justice of the pension laws and the purpose for which they were passed, the report con-

"We demand for our comrades the just due which the country gladly concedes. No niggardly cutting down of pensions there will meet with the full measure of duty that the country owes to its surviv-ing heroes. Nothing short of full meas-ure, dealt with an honest band, a liberal heart, will ever meet with the approbation of the American people. For this we ap-peal to the grateful, patriotic sentiment of the whole people, and we carnestly be lieve that our appeal will not be in valn.

"Receding from no position that we have heretofore taken, reaffirming all our pre-vious declarations on the subject, we specially demand a liberal and just construction of the laws passed for the benefit of the pensioner, to the end that in his declining years he may not be harassed with doubts born of distrust, or the difficulties thrown around him by a rigorous or restricted construction of the laws passed in the past to relieve his condition."

The report was unanimously adopted. A resolution was adopted appointing a committee of five to arrange for the erection of a monument at Washington to commemorate the loyal women who served as nurses or in other ways aided the sol diers of the Union during the rebellion.

A resolution was adopted recommending that congress should pass a law equalizing shall receive at least \$12 a month. of them are now receiving from \$8 to \$10 a month.

The committee on resolutions reported adversely on the resolution asking congress to fix a penalty on the law regarding the favoring veterans applying for gov-ernment positions.

The senior vice commander, surgeon general and junior vice commander were then installed, after which the chaplain and commander in chief were in turn in-

The encampment then adjourned to meet in St. Paul next year. Commander in Chief Walker said that he would not announce his staff until next

week. He will issue the order appointing it from Indianapolis.
