THE DURRANT TRIAL.

Mysterious Female Auditor Arouses the Curiosity of the Detectives. SAN FRANCISCO, Sept. 14.—The prosecution in the trial of Theodore Durrant has thus far examined twenty-three witnesses, and has occupied two weeks in his work. There are less than half the number to be examined in its direct case, and the most important are yet to be placed on the stand. It is said that the next four witnesses will take Durrant and his alleged victim up to and in the church where the girl met her death. The examination will probably take all of next week.

Ever since the case in the superior court began a girl of prepossessing appearance has haunted the court room. For a time she brought every morning a bunch of flowers which she sent to the prisoner by a deputy sheriff. This action attracted so much attention, however, that she discontinued it. During the proceedings she sits with her eyes riveted on Durrant's face. The prisoner never gives her any attention, but the police believe they are at least acquainted.

Durrant is said to have written a long note in court, the missive being delivered to the unknown by the prisoner's father after the court adjourned. The young woman lives in Oakland, but, although detectives have been detailed to locate her she always manages to elude them. She is perfectly aware that she is being watched and seems determined to avoid identification.

Moxley Will Contest Decided. SAN FRANCISCO, Sept. 14.—The contest over the estate of the late John Smith Moxley was decided in the superior court yesterday. The decision is in favor of Mrs. Elizabeth Moxley, of Baltimore, the court finding that she is the lawful widow of the deceased. She is therefore awarded one-half of the property which Moxley conveyed to Mrs. Elizabeth W. Harrington, or Moxley. The court, after finding in favor of Mrs. Elizabeth Moxley, held that Moxley had a right to convey one-half of the community property, and his conveyance as to such half will stand. The other half of the estate will go to the widow, who also obtains a judgment for costs. The estate is valued at \$25,000.

To Detain the Chinese. WASHINGTON, Sept. 14.—The secretary of the treasury sent a telegram to the collector of customs at Ogdensburg, N. Y., directing him not to admit any of the 300 Chinese recently landed at Vancouver, on route to the Atlanta exposition. There is reason for the belief that this is an attempt to defraud the government and secure the admission of a large number of Chinese who are not actors, and seek this method of gaining admission into the United States.

READING, Pa., Sept. 14.—Rouben and James Trate, brothers, and Henry Trate and Daniel Yolk, alleged operators of what is known as the "Brecknock Mint," in Brecknock township, where it was charged counterfeit coin was made, were yesterday acquitted of the charge. She Didn't Take With the Gentlemen. She was refined, intelligent, and not bad looking, but somehow she never seemed to take with the gentlemen. They didn't like her listless ways; they said she hadn't any "snap" about her. Poor girl! she was suffering from functional irregularities, and it was actually impossible for her to take much interest in anything. But a change came. One day she heard of Dr. Pierce's Favorite Prescription. She procured a bottle, and she had not taken half its contents when she felt like another woman. Now she is in the enjoyment of perfect health, and has no ailment by the score. No woman need suffer from functional irregularities and weaknesses. The "Favorite Prescription" is a safe and certain cure for all the weaknesses to which women are peculiarly subject.

Dr. Pierce's Pellets cure constipation, biliousness, indigestion and headache. One a dose.

Famous College President. Rev. Erastus Rowley Made Well by Paine's Celery Compound.

As the school year opens, attention is directed to the oft-repeated advice of leading educators, warning teachers, parents and scholars against the fearful results of exhaustive brain work among young people. To thousands of girls and boys, unnerved by the strain of school life, Paine's celery compound, (which was first prescribed by America's greatest teacher, Prof. Edward E. Phelps, M. D., LL. D., of Dartmouth College) has been a blessing, making them well and strong, feeding the brain and nerves, and enriching and purifying the blood. The recent recommendation of Paine's celery compound by Principal Camp, of New Haven, and the equally outspoken praise of this greatest of remedies by ex-President Cook, of the National Teachers' Association, are two of the thousands of such testimonials from parents and teachers throughout the country. Nothing in the world so strengthens the weak, so readily restores lost nerve force, so surely makes the ailing and peevish young woman or growing boy well and cheerful. And for the aged and infirm the whole world knows its wonderful curative powers. Rev. Erastus Rowley, president of the famous Kentucky Female College, writing to the proprietors of Paine's celery compound, says: "I was for several years a sick man. My sickness was attended with constipation, with nervousness and insomnia, and the least excitement would cause palpitation of the heart. I have in the last three or four years used several widely advertised preparations. Finally I took Paine's celery compound and I regard it as superior to all others, especially if used strictly as you direct. By using this I do not suffer from constipation, inability to sleep, or from palpitation of the heart as formerly. I am still using Paine's celery compound at times, and shall take pleasure in recommending it to others."
