### STATE TICKET.

STATE TREASURER,  
BENJAMIN J. HAYWOOD, of Mercer.

SUPERIOR COURT JUDGES,  
JAMES A. BRAYER, of Centre.  
E. W. WILKARD, of Lackawanna.  
CHARLES E. RICE, of Luzerne.  
GEORGE B. ORLADY, of Huntingdon.  
JOHN J. WICKHAM, of Beaver.  
HOWARD REDDIB, of Northampton.

It is announced that the price of coal has advanced. So it should.

The fakers, hand organ men and politicians were in force in town Saturday night. They all know when to strike the generous spirit of the coal digger.

A MATCH CHUNK woman threw a stone at a dog and struck a boy, fatally injuring him. Possibly if she had aimed at the boy she would have hit the desired object.

An American war ship being compelled to go to Halifax, an English port, to be docked, is an object lesson which Congress should make note of and remedy the defect.

A NORTHAMPTON county grand jury has decided that weiss beer is not intoxicating. Perhaps weiss beer is not made of the same ingredients in Northampton that are used in other counties.

A YOUNG man named Winters residing at Hazleton is charged with brutally beating his mother. To be compelled to toil at the bottom of the deepest silver mine for twenty summers would be comparatively light punishment for him.

A LANSDOWN man crawled under a car to get shelter from the rain and is now in a hospital trying to recover from the effects. He will no doubt remember in the future that the side to look for shelter from a railway car is the inside.

The deadly match and the innocent child have once more collided and a fatal case is recorded at Shamokin. A little girl tried to start a fire in a tomato can in the yard of her home and the match set fire to her clothing. It is a dreadful warning to parents to keep the fire agents beyond reach of the young.

The people of Lansford have entered upon their fifth year of hope that an electric railway will connect them with the neighboring country. The capitalists in that section are very slow, or short-sighted. The returns from business and pleasure traffic between Lansford and Tamaqua would be large.

AND now a Judge in Clearfield county has declared the semi-monthly pay law unconstitutional. It is declared that the law contravenes with the constitution. A peculiar feature of the majority of laws enacted upon the solicitation of the working people is the inability to frame them so that they will not conflict with the constitution. There is seldom a law favoring the capitalist which strikes the same snag. It is funny, but true.

It is not worth while to say any more what cannot be done in any field of human endeavor. The Greeks were the great athletes of their time, but there is no record that even a Greek ever ran a mile as quickly as Tommy Conniff did the other day when he covered that distance in 4 minutes 14 1/2 seconds. Year by year the cyclists go faster, the trotters and pacers shorten their time and the steamers cut down the record between Europe and America. Most of the generation now living will see the Atlantic ocean crossed in four days. Are we all getting fast?

The cool weather and the march of September are notices to merchants and buyers that the fall season is at hand. The wise ones among the former insert the advertisements of the fall goods they have, or will have, for sale in the EVENING HERALD, knowing that thereby they will attract the attention of a greater number of people than they can in any other way. On the other hand the wise buyer of fall wear will closely scan all the advertising columns of the EVENING HERALD before making purchases, realizing that they constitute a directory to the representative business houses of the community and to the places where money can be expended with the most satisfactory results.

The School Board should lose no time in dealing with boys who make a practice of disturbing the sessions of the public schools. The offenders are, as a rule, of that class that will not seek the great advantages that are offered them free of cost and will not work,

but live in idleness until they grow to manhood and then thrive upon lawlessness. The School Board cannot afford to overlook the matter because the interference by these worthless nebrins is damaging to the children who are striving to become what they ought to be and tend to so much discourage the teachers as to make them unfit to accomplish what is expected. Prompt and vigorous methods should be resorted to in at least a few cases to set examples that will allay the trouble until the Spring arrives and the Compulsory Education law takes effect, when the offenders will become subject to the state law and all idlers will be called to account, whether or not they disturb the schools.

### IN CUBA.

Colonel ... and General ...

TAMPA, Fla., Sept. 16.—Private advices from Cuba last night state that Colonel Jose La Crete and General Suarez have, invaded Matanzas Province. La Crete says: "General La Crete, of Santa Clara, has wired General Pratts, of Matanzas, to mobilize his forces, as a large body under La Crete which he was following, but which he lost track of, was marching toward Matanzas."

Near Sagua on the 9th a detachment of Spanish troops on a train saw a few horses and fifteen men were sent after them. Five hundred Cuban cavalry charged the Spaniards. The Spanish commander ordered his entire force to the rescue. The civil passengers became frightened. Many of them fleeing to the woods. The women beseeched the conductor to leave the scene of the fight while the two forces were still fighting.

A company of eighty wagons and 100 mules under the escort of 1,200 men was attacked near Paripendo, Santiago Province, by a rabbi with 400 men, who were later reinforced. Captain Castro, who tried to dislodge the insurgents from a strong position, was killed. Lieutenant Torro, a corporal and a bugler were also killed. Twenty-eight were wounded. These were the losses on the Spanish side. The fighting must have been fierce, for the machettes were used. The insurgents losses are not given.

In a recent letter to the manufacturers Mr. W. F. Benjamin, editor of the Spectator, Rushford, N. Y., says: "It may be a pleasure to you to know the high esteem in which Chamberlain's medicines are held by the people of your own state, where they must be best known. An aunt of mine, who resides at Dexter, Iowa, was about to visit me a few years since, and before leaving home wrote me, asking if they were sold here, stating if they were not she would bring a quantity with her, as she did not like to be without them." The medicines referred to are Chamberlain's Cough Remedy, famous for its cures of colds and croup; Chamberlain's Pain Balm for rheumatism, lame back, pains in the side and chest, and Chamberlain's Colic, Cholera and Diarrhoea Remedy for bowel complaints. These medicines have been in constant use in Iowa for almost a quarter of a century. The people have learned that they are articles of great worth and merit, and unequalled by any other. They are for sale here by Grubler Bros., Druggists.

Broke His Leg in Three Places.  
BURLINGTON, N.J., Sept. 16.—Leon Abbott Irwin, aged 6, met with an accident that will probably prove fatal. The boy ran after a wagon, and while trying to get inside his leg slipped through the wheel, breaking the limb in three places. The break was a bad one, the bones protruding through the flesh. The physician informed the family that in order to save the child's life the limb would have to be amputated, but the family refused to have the operation performed.

New York Clubmen Go Dry.  
NEW YORK, Sept. 16.—For the first time in the history of New York a drink could not be had at the bar of most of the principal clubs of this city yesterday. The action of President Roosevelt, and the police commissioners in deciding to stop, as far as they were able, the sale of intoxicating drinks in the clubs, in violation of the law, met with general success, as most of them through their board of governors instructed the employees not to open the bars.

NUGGETS OF NEWS.  
Eleven hundred Spanish volunteers have left Buenos Ayres to join the troops in Cuba.  
The Erie, Pa., conference of the Methodist Episcopal church decided by a vote of 100 to 32 to admit women to the conference.  
Anthony Stancovich stepped in front of a Lehigh Valley engine on East Independence street, Shamokin, Pa., and was cut in two.  
While robbing pillars at the Hickory Ridge colliery, at Shamokin, Pa., Daniel Baro was blown to pieces by an explosion of dynamite.  
Captain C. E. Bancroft and Miss Margaret Kendal, son and daughter of the favorite actors of those names, were married yesterday at All Souls church, London.

Hip Disease  
Results from a scrofulous and impure condition of the blood, and it is cured by Hood's Sarsaparilla the great blood purifier. The father of a Philadelphia girl writes this: "We gave Hood's Sarsaparilla to our little girl, who had symptoms of hip disease. She could not put her foot down on the floor when we commenced giving her the medicine, but in a short time she was able to get off the couch and to reach her playthings. Since then she has steadily improved, thanks to Hood's Sarsaparilla, and her general health is all that could be desired. When any of the other children are not well we give them

Hood's Sarsaparilla and we earnestly recommend it to others." E. BERRY, 203 Richmond St., Philadelphia.

CONSTANTINOPLE, Sept. 16.—An Armenian named Muradlian, a naturalized citizen of the United States, was arrested upon his arrival here on suspicion of being connected with a revolutionary movement. Alexander W. Terrell, United States minister to Turkey, demanded and has obtained the release of Muradlian upon condition that the latter consent to be expelled from Turkey.

Sacrificed a Peewee.  
LONDON, Sept. 16.—Sir Edward Malet, the retiring ambassador to Germany, has declined a peerage because his wife would lose rank by his elevation. The wife of this diplomat now takes precedence of a countess and by virtue of being the daughter of a duke (Balfour), but if her husband should become a peer she would rank only as his wife.

Gave His Arm for Life.  
BALTIMORE, Sept. 16.—As a result of a bite inflicted several weeks ago upon the index finger of the right hand of Benjamin Cross, colored, by a woman, Ada Woolley, also colored, his right arm was amputated at the Maryland General Hospital. Blood poisoning set in and the operation was resorted to in order to save his life.

Kucheng Officials Obstinate.  
SHANGHAI, Sept. 16.—The Chinese officials at Kucheng are proving obstinate over the results of the inquiry into the outrages upon missionaries, and are unwilling to sentence the guilty. They offer one life for each European who was killed and no more.
