## RESCUED.

On Lake Erie's Shores,-The Captain's Wife Tells the Story .- It Will Interest Many People.

(From the Buffulo Evening News.) If you were to call at 27 Front Avenue you would find a pleasant elderly lady, Mrs. Captain Henesy by name. Her kindly smile and joyous manuer are to no small extent due to the escape she has had. Her own words can better describe her rescue and one can easily understand her present happy condition when they realize what she has gone through. She says: "About five months ago I had an attack of sickness which lasted for a week and since that time I have been subject at intervals to similar attacks, some of which were longer in duration. It is hard for me to describe how I suffered. The pain would commence in my head, after which it would seem to pass down my body and settle in my back, my sides ached, my back ached, and I had a feeling of great distress in the bowels. The increased pain which seemed to come from lying down, would be almost unbearable, my face and stomach would bloat up and I could hardly stand on my feet, dizziness made it almost impossible; this feeling was always with me even after the violence of since that time I have been subject at always with me even after the violence of the attack passed over. The last attack I had was the worst, and was so bad I would not have been able to tell this story but for Doan's Kidney Pills. As soon as I commenced their use I found immediate relief. The pain in my back and sides left me and the dizziness went with it; the bloating in my face and body disappeared and all distress in my bowels was gone. I have great faith in Doan's Kidney Pills:

## THE CHOLERA SCARE.

We Need Not Fear an Invasi n of the Scourge.

THE OFFICERS HOWEVER VIGILANT

For a Long Time to Come It Is Expected That a Close Watch Will Have to be Maintained Over Vessels Coming from the Oriental Countries.

Washington, Sept. 16.—Dr. Wyman, surgeon general of the United States Marine hospital service, it is assured that all possible precautions have been taken to secure the United States from an epidemic of either cholera of yellow fever. He says the cool weather will do a great deal to keep out the yellow fever, and probably the country having escaped so far there need be no fear of an invasion at this late time in the year. The doctor says that the cold wenther will not interfere materially to prevent the spread of cholera, and that a close watch will have to be kept upon all parts where there is a probability of cholera being introduced.

He thinks that it will take a long time for Japan to recover, as the disease seems to have found a rich soil and got a footing that will be difficult to unseat. For a long time to come it is expected that a close watch will have to be maintained over ves-sels coming from Japan. This is also true of other Oriental countries where there have been outbreaks of cholera.

Dr. Wyman says there has not been much difficulty experienced in preventing the spread of yellow fever to this country from South or Central America, although there have been cases in both sections, but which I had resorted to in seeking relief and cure. I hope always to be able to prothat Cuba has been during the past year, before, a source of constant trouble This is accounted for by the bad sanitary system of Havana and other Cuban cities.

During the past summer a constant watch has been maintained at Havana, Santiago de Cuba and other places by officers of the Marine hospital service, while on the Florida coast there has been a patrol to see that the returning filibusters, deserters from the Spanish and Cuban armies and political refugees did not land and bring cholera and yellow fever with

SAN FRANCISCO HEALTH OFFICERS. They are Considering the Establishment or

Additional Quarantine Stations. SAN FRANCISCO, Sept. 16.—The local health officers are seriously considering the establishment of quarantine stations at the north and south lines of the state, along the lines of the railroads, and the plan will be earnestly considered at the joint meeting of the local board of health, the surgeons of the United States marine service and the state board of health, to be

held here tomorrow. The health authorities are thoroughly aroused to the danger that is threatening the city and state by the close proximity of Asiatic cholera. As already announced, the board of health has declared Honolulu an infected port, and hereafter all vessels from there will be detained and thoroughly fumigated.

The members of the board of health do not fear the introduction of cholera through the medium of steamers and other vessels from infected ports, because they consider the quarantine already es-tablished and in force will form a perfect safeguard, but they are not so certain about the railroads.

Some of the members consider that the greater danger lies in those who are landed in other ports and reach this city by railroads. Already the subject has been earnestly discussed and the proposition to establish the quarantine stations at the points named will be urged at the coming joint conference.

Mr. Rockefeller's Serious Loss by Fire. SCARBOROUGH, N. Y., Sept. 16.—A fire on Saturday night destroyed the large barn, hen houses and several hot houses, the property of John D. Rockefeller, situated on the Bedford road. The place, it seems, was set on fire. Empty oil cans, powder and dynamite were found in the woods near by. Many fine fowls were burned, and the choice flowers in the hot

PARIS, Ky., Sept. 16.—B. H. Coyle, a merchant of this city, was arrested here, charged with murdering Olivia Hall, at the instance of the girl's father, E. T. Hall. A letter is said to have been written by Coyle, threatening the girl's life if she married Henry Smith. The girl is missing, but part of her clothing has been found. Coyle says he can prove an alibi. Miss Hall was a clerk in Coyle's store,

Two Men Killed by a squatter. CHEYENNE, Wyo., Sept. 16. - James Walsh, 60 years old, ran amuck in the region along Big Goose creek, near Sheridan, Wyo., and shot and killed H. E. Robinson, a ranchman, and Herbert Linville, a farm laborer. Walsh was a squatter on Robinson's land, and was enraged at the efforts to put him off.

A Girl's Queer Death.

POUGHEREPSIE, N. Y., Sept. 16.—Mabel Juckett, 9 years of age, daughter of Stephen Juckett, near Stanfordville, Duckess county, came to her death in a singular way. She had placed a stone near the win-dow of the town school house and attempted to climb in, when the sash fell on her neck, and she slowly strangled to

Fell Under the Borses' Feet.

Hamaurg, Pa., Sept. 16,—Webster, a 5-year-old son of Henry Hager, of this borough, fell off a wagon under a spirited pair of horses, causing them to run away. The boy suffered a compound fracture of the skull, exposing the brain. His recovery Is doubtful.

A Costly Violation.

BUTLER, Pa., Sept. 16.—Judge Greer sentenced Daniel P. Wuller to pay all costs, a fine of \$2,500 and undergo im-prisonment in the county jall eight months, for selling liquor without a lie use to men of intemperate habits and on Sunday.

Poisoned a Herd of Cows

KENNETT SQUARE, Pa., Sept. 16.-Some malicious persons poisoned the entire herd of stock on the farm of Benjamin Jacobs, near here, and as a result five of his finest cows are now dead and three others are suffering from the effects of arsenic.

JEART DISEASE, Ilke

many other allments when they have taken hold of the system, never gots better of its own accord, but Constantly grows worse. There are thousands who know they have a defective beart, but will not admit the fact. They want their friends to worry, and Don't know what to take for it, as they have been told time and again that heart disease was incurable. Such was the case of Mr. Silas Farley of Dyesville, Ohio who writes June 19, 1894, as follows:

"I had heart disease for 23 years, my heart hurting me almost continually. The first 15 years I dectored all the time, trying several physicians and remedies, until my last doctor fold me it was only a

question of time as I could not be cured. I gradually grew worse, very weak, and completely dislived, propped half up in bed, because I couldn't lie down nor sit up. Think-Ing my time had come I told my family what I wanted done when I was

gone. But on the first day of March on the recommendation of Mrs. Fannie Jones, of Anderson, Ind., I commenced taking Dr. Miles' New Cure for the Heart and wonderful to tell, in ten days I was vorking at light work and on March 19 commenced framing a barn, which is heavy work, and I hav'nt lost a day since. I am 56 years old, 5 ft. 4% inches and weigh 250lbs. I believe I am fully cured, and I am now only anxious that everyone shall know of your wonderful remedies."

Dyesville, Ohio. SILAS FARLEY.

Dr. Miles Heart Cure is sold on a positive guarantee that the first bottle will benefit. All druggists sell it at \$1. 6 bottles for \$5 or it will be sent, prepaid, on receipt of price by the Dr. Miles Medical Co., Eikhart, Ind.

WANTED NEY PILLS!

## EUROPEAN POLITICS.

Chauncey M. Daysw Interviewed on His Return Home,

MOST AGREEADUR OF HIS TRIED

Both in England and on the Continent There Was a Guerral Companity and Abmediance Sixtimores for Yesten-A Skirnote Which He V. I meand in Lourden.

New Your, Sep. 16.—Channey M. De-pew, who nervivel at quarantine in a Sub-nelly count, landed from an alemory by of Paris you and sy. Afterward he received report is at his offee in the Grand Central depotated may an extended interview upon the politics of Europe, upon his trip and a minute which he witnessed at Longdes.

Mr. Depota paid that connecting of a non-

sation was stirred among the angle member by an intercieve which be give to the London papers. One of the questions we "What is the American idea of home rad and how compally and Americans of on mind on that subject?"

Specking to this Mr. Dapow said: "My answer was, substantially, that home rule was the corner stone of our institutions. and our possibles commitmens on the sub-ject; that there never had been any divilon among the as to home rule for Ireland, and we could not understand the real of manufactured fears for the adoption of the policy leading to the disruption of the British empire. On the contrary, we thought the adeption of the federative principle would benefit England, Ireland, Scotland, Wales and the colonless that we were heartly in favor of English speaking people leading the world, and willing that the British empire should have the first place in the agains of Europe, Asia, Africa and Australia, but that we would neither consent nor permit the control or occupation by any European power of the repub-

Ho of America.

"Of the 600 members of the house of lords all but twenty-five are Conservatives or Tories. Society is overwhelmingly the

"Our recent trouble with the British foreign office over Nicaragua and Venezuela, increasing interest in foreign rela-tions and the possibility of an administration which will enforce the Monroe doc rine, have created a new and unusual interest in the affairs of the United States. This is evidenced in The Times appointing Smalley its special correspondent in the United States, and printing several columns a week of his cables. The statesmen of both parties would like a sort of an offensive and defensive alliance with us. They want our help in China and Japan and in the difficulties arising out of Russian, German and French hostilities and aggressions in the east, and would gladly bundle all American matters into our hands in exchange for such an understanding.

"The strength of the Tories is in the cities. They have no prohibition or temperance or reform fails or faddists and powerful liquor and beer interests are solvely with them. The London districts which experiences which return members of parliament have five times more population and voters than the Irish districts and the one uppermost idea with every Conservative you meet, is to minimize Irish power in parliament by taking away twenty-three seats from Ire-

land and giving most of them to London.
"The singular political event in France has been the sudden disappearance of the Royalist and Imperialist parties. A Royalist gave me this version. He said that the fear of socialism had made his people Opportunists, which is another name for Conservative Republicans, and by common consent they have voted that ticket. He also said that Mr. Faure was the most popular and the strongest president since

tox. Palaces and cottages, stores and and 8 08 p m. the bunting obscured the sky. Processions, music, illuminations and every form of popular joy were universal. The enthugence of the standard o houses, were alike covered with flags, and siasm was wild and contagious. It developed a deep scated, national and almost passionate desire for war with France now, passionate desire for war with France now, and on any pretext to settle forever the possession of Alsace and Lorraine, and to so cripple the French that they would no so cripple the French that they would no For Yatesville, Park Place, Mahanoy Cittary of States of S many, and her military establishments might be reduced."

Mr. Depew told an interesting story of a young girl he saw at Lourdes, who had not been able to walk for six years on account of a knee that was a mass of running sores. She was there since spring and the sores healed and she was enabled to walk. The story was authenticated by a physi-

cian who dressed the knee,"

He said in conclusion: "The general cheerfulness and galety of nations made this trip one of the most agreeable of my life. Both in England and on the continent there was a general prosperity and abundance unknown for years. Not only are the crops good, but the world has adjusted itself more rapidly than for a decade to the revolutions of inventions and discovery and the instantaneous inter-communion of distant markets. All classes of people are sharing in the better times and more hopeful of the future. Many of the sovereigns and chiefs of state, who-formerly were politely inquisitive or indifferent about American affairs, were eager in their desire for information about our stocks and bonds. The success of the syndicate in placing the last issue of our government bonds has put into many a royal treasury a miscellaneous collection of American securities."

The Honduras Earthquake a "Fake." TRUCCEALPA, Honduras, via Galveston Sept. 16.-The statement that an earthquake had or served on last Sunday, Mon-dwellings, is without foundation so far as is known in T studigalpa.
