We do however have a great deal of sympathy for those poor, pale, thin sufferers who either have no appetite or else whose food distresses them to such a degree that they are forced to live on a most fragal diet. Their trouble arises from the fact that they are unable to digest sufficient food and when their stomach is out of order and fails to do its proper work, foods are worse than useless. They simply ferment in the stomach and fill

the system with poisonous principles. What these people need is something that will digest their food after it has been eaten, and it is in just such cases that the Digestive Cordial as made by the Mount Lebauou hickers is proving remarkably successful. In a passionate speech he charged Senator Butler. with being a traitor to the party, and said that to name a county after him was an insult to the reformers of the state.

George D. Tillman, in reply, taunted his brother with fighting a man where he had defeated, and dramatically striking his breast exclaimed: "Thank God, there is no sentiment in my heart that would

make me stoop so low." The scene became extremely exciting and the convention was in wild confusion which continued until adjournment at 4:10 p. m.

Senator Tillman in his speech taunted Senator Irby with not replying to his brother, G. D. Tillman, on Saturday, and Irby in a hot speech denounced Tillman for stirring up strife is the convention, and said it came with ill grace from a man to hound his fallen foe and declared that Butler in patriotism, honesty and courage was the equal of Tillman or any other man in the state

When a vote was finally obtained Senator Tillman carried his point, and the new rounty was named Saluda instead of Butler by a vote of 80 to 54.

NEW JERSEY JUDICIARY.

Judge Magie Decides That the Election Ant Is Constitutional.

TRENTON, Sept. 17 .- Judge Magie, of the supreme court, filed a dissenting opinion, in which he upholds the constitutionality of the elective judiciary. He maintains that the constitutional provision which empowers the legislature to alter or abolish the court of common pleas is not restrained or limited by any other clause of the constitution. The clause empowering the legislature to alter or abolish is specific, and the other clauses must be construed to give this clause full force and effect.

Judge Magie points out that in 1855 "discases." Back of them all are the sick kidneys. Once the filters can be made to work, all these symptoms will disappear. Dr. Hobb's Sparagus Kidney Pills are made principally from the roots of the asparagus plant, which has a special curntive action on the kidneys. It gives them new life and strength. It helps them to do their work as it ought to be done. It cures all sickness. It cleans and renews the filter. When kidneys are well you will feel a great difference at once. Your complexion will clear, and your whole body will got renewed life and freshness. This is the effect of Dr. Hobb's Sparagus Kidney Pills on the sick kidneys, of the re-vitalized kidneys of the impure blood. With a course of Dr. Hobb's Sparagus Kidney Pills you will get new life. They will cure you when other medicines, which do not reach the real seat of disease, cannot help you. Dr. Hobb's Sparagus Kidney Pills are for when the constitutional powers to appoint judges of the court of common pleas was then vested in joint meeting the legislature passed an act making the judges of the supreme court, who were appointed by the governor, members ex-officio of the court of common pleas. This was an altering of the court of common pleas, the constitutionality of which has never been constitutionality of which has never been questioned. Judge Magic concludes his opinion by anying that the write of man-damus to restruin the county clerk of Es-sex county for printing on the local ballots the names of judges elected under the elective judiciary act should have been de-nied. Hilton, state agent of the Mut-ual Life Insurance Co., of Kentucky, sayst "In 1889 and '90 I had two severe attacks of LaGrippe, the last one attacking my ner-vous system with such severity that my life was despaired of. I had not slept for more than two months except by the use of nar-cotics that stupefied me, but gave me no rest. I was only conscious of intense mental

weakness, agonizing bodily pain and the fact that I was hourly growing weaker. When in this condition, I commenced using Dr. Miles' Restorative Nervine. In two days began to improve and in one month's time was cured, much to the surprise of all who knew of my condition. I have been in excellent health since and have recommended your remedies to many of my friends." Louisville, Jan. 22, 1895. D. W. HILTON.

Your Kidneys Keep Your Blood Pure if They Are Well. A Few Facts About Them, and How to Make Them Well When They Are Sick.

New blood is made every minute. It goes ty the lungs, gets fresh air, and then passes through the body. In passing, it deposits new flesh, fat, bones, etc., and takes up worn out matter. This worn out matter goes to the kidneys.

The kidneys filter it out of the blood and throw it out of the body.

Inside You.

Your blood is what nourishes your body.

That is, when they are well, they do. When your kidneys are well, they act as

There is nothing more poisonous than bad blood.
