BURGLARS are terrorizing the people of Williamsport and Shamokin. It is hoped the authorities, or watchful citizens of those places will succeed in either getting them in jail, or otherwise disposing of them so that they will not be able to get down this way.

THE Italians, following the example of their German allies, are celebrating the 25th anniversary of the unification of Italy and the entry of Victor Emmanuel into Rome. King Humbert signals the event by the liberation of a large number of political prisoners.

THE Luzerne county detectives are busy working up the Lattimer murder and, as usual, the assassin is still at large. Detective work in that county, judging from developments of the past, is like seeking a coin in a mud hole by working the bottom with a stick. The more the detectives work the more obscure becomes the object.

THERE are twenty-five cases of scarlet fever in Shamokin and fifteen in the immediate vicinity and the people are complaining that much of the trouble is due to physicians failing to report cases to the Board of Health. They should call the delinquent physicians to account under the health laws, which fix penalties for the neglect.

THE statement by President Spalding of the Board of Health that diphtheria is not prevalent in the town and that the number of cases under treatment is not anywhere near the mark some people suppose is an official announcement that is very gratifying to the public. Epidemics of diseases result in great misfortunes to the people at large as well as those actually afflicted and our people should rejoice that we are free from them.

IT is hardly fair for the Mahanoy City water magnates to try to take from the Shenandoah public water works credit it has earned by actual work. The object in depreciating the supply may be to justify the residents of Mahanoy City who complain of the drought, but it is not fair to a friendly neighbor. Shenandoah has an excellent plant in its new water works and it would like to have its neighbors know it, and not have them misled by a juggling of figures.

SO many appalling accidents have happened to women recently because of their clothing taking fire from the fire in ranges, the explosion of gasoline stoves, the upsetting of lamps, or from other causes, that there is an evident demand for the production of some other dress material for those whose household duties compel them to be in the vicinity of ranges, gasoline stoves, etc., than the light, flimsy, and generally highly inflammable stuff which composes their every day clothing.

ONE by one the prominent figures in the war of the rebellion drop from public gaze so that but very few are now left. General Schofield is the last of the generals who were prominent, and the time has come when, by reason of age, he lays down the responsibilities of the command of the army to spend the evening of life in that quiet repose he has well earned. His successor, General Miles, was one of that galaxy of brilliant young officers, who, because of their personal valor and gallantry were held in high esteem. He has the distinction also of being the first general to command the army who was not a graduate of West Point.

IRRESPECTIVE of the merits of claims made by any of the parties to the Coal street shooting, it has been demonstrated that many young men have been in the habit of interfering on the streets late at night with offensive Poles, Lithuanians and Hungarians for no other object than to pick a quarrel. It is hoped the result of the case will have the effect of breaking up the practice. There may be lots of consolation for some peculiarly constituted people in hearing of the case, "just for the fun of the thing," but to be shot and killed by some, especially by an innocent party, as McHale claims he was. Two morals are furnished: First mind your own business and, second, when you see midnight brawling on keep beyond the range of pistol shots.

KILLED AND EATEN BY NATIVES.

Condition of Affairs in the Congo Free State Verging Upon Anarchy.

LONDON, Sept. 18.—Private letters which have been received from the Congo Free State say that affairs there are in a condition verging upon anarchy. Encounters between Belgian forces and natives, which have been reported in official dispatches as resulting in Belgian victories, are said to have been in fact serious reverses.

It is reported that two Englishmen traveling in the Congo Free State have been murdered and eaten by natives. A Belgian expedition, under Lieutenant Franquart, was attacked by natives on Feb. 11. The soldiers hastily formed themselves into a hollow square, upon which the natives rushed with such overwhelming force that the Belgians were put to rout within ten minutes.

Shortly afterwards it became known, according to the correspondents, that a native chief named Xidom had massacred Captain Hansens and the whole of his escort, numbering sixty people.

YESTERDAY'S BASEBALL GAMES.

National League.

At New York—New York, 8; Philadelphia, 7. At Cleveland—Cleveland, 7; Cincinnati, 0. At Boston—First game: Baltimore, 6; Boston, 5. Second game: Boston, 5; Baltimore, 2. At Pittsburgh—First game: Chicago, 10; Pittsburgh, 7. Second game: Chicago, 7; Pittsburgh, 1. At Louisville—Louisville, 5; St. Louis, 0.

Eastern League.

At Springfield—Springfield, 4; Providence, 3.

The first game of the trophy series between Wilkesbarre and Scranton was played at Wilkesbarre yesterday afternoon, and resulted as follows: Wilkesbarre, 11; Scranton, 1.

In a recent letter to the manufacturers Mr. W. F. Benjamin, editor of the Spectator, Rushford, N. Y., says: "It may be a pleasure to you to know the high esteem in which Chamberlain's medicines are held by the people of your own state, where they must be best known. An aunt of mine, who resides at Dexter, Iowa, was about to visit me a few years since, and before leaving home wrote me, asking if they were sold here, stating if they were not she would bring a quantity with her, as she did not like to be without them." The medicines referred to are Chamberlain's Cough Remedy, famous for its cures of colds and croup; Chamberlain's Pain Balm for rheumatism, lame back, pains in the side and chest, and Chamberlain's Colic, Cholera and Diarrhoea Remedy for bowel complaints. These medicines have been in constant use in Iowa for almost a quarter of a century. The people have learned that they are articles of great worth and merit, and unequalled by any other. They are for sale here by Grubler Bros., Druggists.

Buck Taylor in a New Role.

ST. LOUIS, Sept. 18.—A Cuban giving the name of Senor Enrique Morena is in this city for the purpose, it is said, of enlisting men for service in the Cuban rebellion. He approached Buck Taylor, the western scout and ranger, who is in this city, and made a cash offer to him if he would equip a band of rangers to go to Cuba and fight against Spain's army. When questioned by a reporter Buck Taylor said: "I have got a contract now to furnish a lot of men for Texas ranches, and if after they get there these men want to go to Cuba and fight there's no way I could prevent it."

Society of the Tennessees.

CINCINNATI, Sept. 18.—There was an increased attendance at the second day's business meeting of the Society of the Tennessees. When President Dodge called for the reports of committees, Colonel Grant, chairman of the committee on oratory, stated that General O. O. Howard had been selected to deliver an address at the next reunion, and Colonel August Jackson alternate. St. Louis was chosen as the place of the twenty-eighth annual meeting, and the officers of last year were re-elected, with the exception of twelve vice presidents.

Magowan Assumes the Debit.

TRENTON, Sept. 18.—Frank A. Magowan, whose two rubber mills, the Trenton and the Eastern, were recently put into the hands of receivers, yesterday made application before Vice Chancellor Bird for the dismissal of the receivers on the ground that two-thirds of the creditors assented thereto, he (Magowan) having agreed to pay all the debts of both concerns. The vice chancellor granted a rule to show cause why the receivers should not be discharged, the rule being returnable next Tuesday.

Guilty of Second Degree Murder.

HUNTINGDON, Pa., Sept. 18.—The jury in the case of Wesley W. McCracken, one of those brothers charged with the fatal shooting of George Hawn on the night of May 13, last night returned a verdict of guilty of murder in the second degree. He, with his two brothers, lay in wait for a band of whitecaps which had posted notices of its intended visit on his premises with the intention of tearing down a disputed line fence, and on its approach, fired three loads of heavy shot, killing young Hawn.

Scrofula Broke Out

On our boy when a baby. We gave him much treatment without avail. Noticing in the papers Hood's Sarsaparilla was recommended for scrofula and blood diseases we gave it a trial. We soon saw a change for the better. He has taken four bottles Hood's Sarsaparilla

and is now entirely well, hearty and free from all scrofulous symptoms. I have also taken three bottles for nervous headache and catarrh. It gave me great relief."

THE GOLD MOVEMENT.

The Talk of an Early Bond Issue Has Practically Died Out.

WASHINGTON, Sept. 18.—Reports to the treasury department show that \$250,000 in gold was withdrawn yesterday from the sub-treasury at New York for export, and that \$200,000 in gold was deposited by a Rochester, N. Y., bank, which offsets the withdrawal, leaving the true amount of the reserve at the close of business \$95,382,028.

Under normal conditions the treasury gains some gold nearly every day, as banks in all of the sub-treasury cities prefer to exchange for notes any small amounts of gold they may take in over their counters, especially if their coin reserves are in no need of replenishing. During the last few weeks the aggregate of these deposits has been considerable. Several offers of small amounts have been made lately with the stipulation that the department pay expressage both ways, but as there is no appropriation for the purpose these offers have been declined.

It is said at the department that the most generous offers of gold nearly always come from the banks in Chicago and St. Louis, and when gold is the scarcest these banks always come forward and express a willingness to help out. At New York yesterday \$486,000 in large United States notes were deposited in exchange for small notes to be shipped to a number of points east, south and west.

The talk of an early bond issue has died out here, the opinion among officials being that while President Cleveland will protect the national credit when in danger by any means within his power, the present situation is not such as to call for any action on his part.

WOULD-BE LYNCHERS SHOT.

A Mob of Seventy-five Storm a Kentucky Jail.

MEMPHIS, Sept. 18.—A mob of seventy-five men made an unsuccessful attempt to lynch Harrison Fuller and Frank Simpson, two negroes confined in the Henderson county jail at Lexington, for attempting to outrage the Widow Pomeroy and her 16-year-old daughter, on the night of July 11. The negroes were captured shortly after the crime, and to avert mob violence they were sent to Nashville, where they remained up to last week, when they were brought to Lexington for trial. A continuance of the case was granted by Judge Taylor, and Fuller and Simpson were returned to jail.

Between midnight and daylight the mob went to the jail, broke open the two outer doors, and on reaching the cell of the negroes the crowd was fired upon by the sheriff and his deputies, seriously wounding Hugh Cook, and slightly wounding men named Jones and Joiner. The wounding of these three men caused the mob to disband. Excitement in Lexington is intense, and serious trouble is anticipated.

Widower Shot by a Woman.

NORRISTOWN, Pa., Sept. 18.—E. Channing Potts, the well known ex-marble merchant and present proprietor of Cedar Grove park, was shot at his home, and his escape with his life was miraculous. Mr. Potts for a number of years has been a widower, and since the loss of his wife, it is alleged, paid considerable attention to Miss Mary Freas, an attractive young lady of 22 years, residing at Whitmarsh. The relations between Mr. Potts and Miss Freas, however, became strained. She met Mr. Potts on the street, and their interview must have been a stormy one, for suddenly Miss Freas pulled a short 22-caliber revolver, and aiming it at Potts, fired the five charges directly at him. Two of the bullets made furrows in Mr. Potts' neck and a third one ploughed through the scalp. The wounds are not considered dangerous.

Injured Husband Paid the Costs.

PARKEESBURG, W. Va., Sept. 18.—John Robinson, an aged and wealthy farmer living in the interior of Webster county, eloped Saturday with his stepdaughter, the wife of Uriah Clifton. He was followed to Pickens by Clifton, who secured the arrest of the couple. They were taken to Addison for a hearing, where the local justice dismissed them, declaring he had no jurisdiction in such cases, and forced the injured husband to pay the costs.

Church Struck by Lightning.

ROCKFORD, Ill., Sept. 18.—Lightning struck the Holston church, a few miles east of this city, while services were being conducted. The following were injured: Mrs. John Johnson, badly burned; Mrs. Henry Stanley, severely burned; two children, unknown, badly shocked; Mrs. Darwin Whitney, badly burned.

The Cholera in Honolulu.

SAN FRANCISCO, Sept. 18.—Hawaiian advices under date of Sept. 8, by the steamer Rio Janeiro, just arrived, say: There have been fifty-nine cases of cholera up to date with forty-five deaths since the scourge broke out. Two white people were attacked yesterday and have since died.

Cars Thrown from the Track.

SHADON, Pa., Sept. 18.—South bound passenger train No. 234 on the Erie and Pittsburgh division of the Pennsylvania railroad ran into an open switch at Sharpville. The entire train was thrown from the track and several of the passengers were slightly hurt, but all escaped serious injury.

NUGGETS OF NEWS.

An infernal machine was found in the window of a private house in the Rue St. Denis, Paris.

The United States battleship Maine was formally put in commission at the Brooklyn navy yard yesterday.

Advertisements were issued from the navy department today calling for proposals for building the two new battleships provided for by the last congress.

William Ellis, colored, native of Washington, Pa., a suburb of Allegheny, while employed at the new water works.

Henry M. Stanley, M. P., and explorer, has accepted the appointment of associate editor of Bishop William Taylor's New York monthly pictorial publication, Illustrated Africa.

The report is denied that the ports at London had accepted the plan of reform in the administration of affairs in Armenia, which was submitted by the powers signatory to the treaty of Berlin.

Dr. Fraker, the insurance swindler in jail at Richmond, Mo., since his capture in the Minnesota woods, waived preliminary examination and was bound over to the grand jury in the sum of \$20,000.

THE CUBAN INSURRECTION.

Serious State of Affairs at Banes, an Important Fruit Port.

BOSTON, Sept. 18.—The British steamer Taff, just in at this port from Cuba, Sept. 10, brings news of a serious state of affairs at Banes, the most important fruit port on the northern coast. The Taff reports that Banes has been evacuated by the Spaniards, after a feeble resistance, that the entire northern section of the island is now in the hands of the insurgents, and Gibara itself, which is one of the strongest and best fortified cities on the coast, is in a perilous position, although the Spaniards have between 7,000 and 8,000 soldiers at this point and two men of war in the harbor.

The officers of the Taff say that the whole country is up in arms and that everybody favors the rebels. Only boys were left in the port of Banes to load and unload the vessels. The rest of the male population had joined the rebel ranks.

There was a rumor at Banes and Gibara when the Taff left those places, the Brazilian rebel Admiral Mello was expected any day with a war vessel and 600 men to aid the insurgents, and one of the officers of the Taff who saw Mello bombard Rio say that there is evidently some good ground for the rumor, and he further says that Mello can whip the Spanish gunboats with even an ordinary man-of-war.

Insurgents Wreck a Train.

HAVANA, Sept. 18.—The insurgents derailed a coach of a train at Baga, near Nuovitas, and killed five soldiers and captured seven prisoners, who were afterwards set at liberty. Andrew Perez, boatman, and Jose Lopez Fernandez, fireman, of the steamer Mascotte, were arrested and court martialed, charged with smuggling ammunition for the insurgents.

Mammoth Plate Glass Works Burned.

ALEXANDRIA, Ind., Sept. 18.—The American Plate Glass works of this city caught fire at 8 o'clock last night, and the main building, 605 feet long, was consumed. The fire originated from the lighting of a cigarette from a defective pipe in the ceiling room. The plant was reorganized thirty days ago with a capital of \$1,000,000. It was the largest of the kind in the world. Last week the works were started with 150 men, and it was the intention of putting on a full force next Monday. This meant employment to about 500 workmen.

Ex-Consul Waller's Case.

WASHINGTON, Sept. 18.—Mr. Langton, of counsel for ex-Consul Waller, and Paul Bray, stepson of the latter, were at the state department yesterday. They have received letters from Waller showing that his health is improving slightly. As the advice received here are to the effect that the record of the court martial in this case cannot possibly reach Paris before the 22d inst. at the earliest. The statement of a French newspaper showing that Waller's case is hopeless is entirely discredited here.

Insane Asylum Brutalities.

CHICAGO, Sept. 18.—The coroner's jury in the case of David Adams, who died some time ago in the Dunning insane asylum, rendered a verdict that he came to his death from injuries received in the institution. The jury did not hold any one, but it is said the verdict will be used as the basis for a thorough investigation of the institution. It is said that the same grand jury will also make a rigid investigation of the causes which led to the death recently of a patient named Puck.

A Loving Cup for Joe Jefferson.

NEW YORK, Sept. 18.—The popularity of Joseph Jefferson, the veteran actor, and the esteem in which he is held by the members of his profession, were amply attested at a meeting at the Waldorf yesterday afternoon by prominent theatrical people at which it was decided to tender Mr. Jefferson a reception at one of the leading theaters and present him a testimonial. It is proposed that the testimonial will take the form of a loving cup.

Narcoti-Cure

Cures the Tobacco Habit

IN 4 TO 10 DAYS

OR MONEY REFUNDED.

Use All The Tobacco You Want Till Your "Craving," is Gone.

NARCOTI-CURE is the only remedy in the world that acts directly on the nerves and drives the nicotine from the system in from four to ten days. It leaves the patient in better health than before taking, and is warranted free from any injurious ingredients.

NARCOTI-CURE is popular because it allows the patient to use all the tobacco he wants while under treatment, or until the "craving" and "hankering" are gone. It is then no sacrifice to throw away tobacco forever.

NARCOTI-CURE is sold at the uniform price of \$5.00 a bottle, and one bottle cures.

Money refunded if a cure is not effected when taken according to directions.

THE NARCOTI-CHEMICAL CO.,
Springfield, Mass.

Gentlemen—Replying to yours of the 1st, would say that I have used tobacco for 46 years, and of late have consumed a 10-cent plug a day, besides smoking considerably. I commenced to use tobacco when I was only 11 years old, and have never been able to give up the habit until I took NARCOTI-CURE, although I have tried other so-called remedies without effect. After using your remedy four days, all "hankering" for "chewing" disappeared, and in four days more smoking became unpleasant. I have no further desire for the weed, and experienced no bad effects, whatever. I am gaining in flesh, and feel better than I have for a long time. To all who wish to be free from the tobacco habit I would say, use NARCOTI-CURE.

Yours truly,
W. N. WAITE.

If your druggist is unable to give you full particulars about NARCOTI-CURE, send to us for Book of Particulars free, or send \$5.00 for a bottle by mail.
