For the many students now in attendance are progressing rapidly and new ones are continually entering. The teachers are the very best that can be secured. They are practical business men, are highly educated, and have had long and successful experience in teaching thoroughly all the branches that are of use to the business man. Bookkeeping, Business Arithmetic, Grammar, Spelling, and the Laws of Business are taught plainly and fully in the Commercial Department; and Shorthand, Typewriting, Spelling and Grammar are given in the Shorthand Department. This college is a branch of the splendid Wilkesbarre Business College, and the same effective methods of teaching Bookkeeping and the same kinds of typewriters are used. WATER IS PLENTIFUL.

The Streams Were Not to Blame for Yesterday's Shortage. It seems that the Councilman who claimed there was plenty water in the streams at Davis Run to keep the public water works going were right after all and that the shortage in the town supply yesterday was due to a combination of circumstances almost independent of the streams. Today there is an ample supply of water. This morning there were 22 inches of water in the reservoir at Fowler's Run. Yesterday morning there was but one inch on hand. Superintendent Betteridge said this morning that the short supply yesterday was occasioned partly by eight dams, some of them four feet high, which were placed in the streams by Mahanoy City parties a few days ago to make measurements of the amount of water that was running. The parties did not remove the dams after completing their work. The shortage was also due, says the Superintendent, to a failure of the hauling contractor to deliver coal at the pumping station. It was stated today by a gentleman who is employed on the works that the water supply of the town was cut off at the corner of Coal and Emerick streets yesterday afternoon and that when told of it Superintendent Betteridge went to the place and turned on the supply, after which there was plenty water. The superintendent denies this. However this may be the EVENING HERALD knows that it suffered from the short supply yesterday about as much as any in the town and it is hoped the trouble will not occur again.

LATER.

The supply of the town was again out off this afternoon by the joint at the corner of Coal and Emerick streets being forced out by the pressure of the water. This is the third break that has occurred at this point.
