ITALIANS CELEBRATE.

Twenty-fifth Anniversary of the The Young Girl's Life Like a Birth of United Italy.

THE PREMIER AND THE POPE.

Frispi Pays IIIs Respects to the Sovereign tion at the Unveiling of the Garibaldi

ROME, Sept. 21.—The feter celebrating the twenty fifth anniversary of the entry of the Italian army into Rome, which began on the 14th inst., culminated yester-day in the ceremony of the unveiling of monument of General Garibaldi on the Janiculum hill, in the presence of King Humbert and the royal family, the court, ministers and deputations of veterans who served under Garibaldi. The 50,000 people who witnessed the ceremony displayed the utmost enthusiasm. The descritions of public and private buildings were of the most imposing and liberal character.
Every mention of the names of Garibaldi,
Italy and King Humbert, was greeted with
loud cheers. The English and American
embassies had their flags hoisted.

The statue of Garibaldi is by the sculptor Gallori. It is an equestrian bronze,
weighing fifteen tons. It has been creeted
in the groupois of the Villa Corsini unco-

in the grounds of the Villa Corsini upon an immense granite base, on the four sides of which are shown four allegorical groups. The side facing Rome represents the defense of Home against the French in 1848. The opposite shows the Garibaldians tak-ing Calata Fima. The third and fourth sides exhibit groups symbolical of America and Europe.

Premier Crispl fellvered an oration, in which he eulogized Garibaldi without saying a word that might give offense to either France or the Vatican.

Signor Crispi dilated upon the inherent antagonism of statesmanship and religion, arguing that those claiming the restoraon of the temporal power are actuated by The Backus Water Motor far more human motives than that of safeguarding the prestige of the church. The struggles incidental to political govern-ment, he said, would stiffe all sentiment of veneration for Christ's vicar. Italy has given an example for other countries in renouncing ecclesiastical attributes and according the greatest respect to the lib-erty of the church.

In the guaranty of spiritual autonomy, he said, the pope possessed an unassailable fortress which might well be envied by all the powers of the world, and even by Protestants. The pope is now subject only to God. As a temporal prince his authority would be diminished, for he would then only be the equal of other princes, who would league themselves against him. After 1870 Pope Pius IX could contend with Bismarck. Catholics preaching re-bellion should know that they are only assisting anarchists, who deny both God and the king.

Signor Crispi concluded by saying: "The fetes are not directed against the pope. Do not let us mar the solemnity of this cere-mony, in which the whole of Italy is united, but remember that the jubilee minds us of our duty to defend a patriotic inheritance won through long years of

sacrifice." The procession of Garibaldian veterans to the Villa Corsini was a striking and im-pressive spectacle, with its band of music and its banners. The old soldiers in red shirts were loudly cheered as they marched through the streets. According to some estimates 100,000 people congregated upon the Janiculum hill. The royal carriage moved through the crowd with the greatest difficulty, the populace pressing about it to seize the hands of King Humbert and Queen Marguerite.

Queen Marguerite. A tremendous shout went up as the veil was withdrawn from the statue. Garibaldians stormed and climbed the monument to deposit upon it flags and crowns of flowers. The scene was one of indescribable emotion.

King Hambert has conferred the order of the annunciata upon and sent a flatter-ing letter to General Cadorna, the sole surviving member of the ministry of 1870. Dispatches from the provinces report that the day has been celebrated every-where with the greatest enthusiasm.

At 3 o'clock in the afternoon the mayor of the city unveiled the memorial column of Porta Pia, which is erected upon the exact spot at which the Italian troops effected a breach in the city walls when they occupied the city in 1870 and overthrew the temporal power of the pope. The veterans of 1870 moved to the site of the col-umn in a splendid procession. They de-posited hundreds of wreaths at its base and sang patriotic songs in grand chorus.

Celebrated in Washington.

WASHINGTON, Sept. 21.—The Italians in this city yesterday enthusiastically cele-brated the twenty-fifth anniversary of the unification of Italy. The fustivities were under the direction of the local Italian beneficial and fraternal organizations. There was a street parade in the morning, followed by a reception to Baron Fava, the Italian ambassador. Elaborate arrange ments were made for the grand banquet in the evening. Many hundreds of Italians were in line of parade, and they were reviewed by Baron Fava and other prominent representatives of Italy.

Flowing Brook.

Its Course Obstructed by Many Obstacles.

Pontiff and Defines His Position-Ora- Some Timely Suggestions Regarding a Serious Subject.

> "Brooks make rivers, rivers run to seas," sings the poet Dryden in his Worship of Aesculapius, the first known physician. The poet little thought as he penned his verse in praise of the ancient practitioner, how aptly his beautiful line would apply to the life of a woman. The chattering brook as it flows to merge itself in the larger stream represents the careless, unthinking young girl. The wild and unturbulent stream, sometimes flowing smoothly, then dashing over rocks and down into unbroken depths, at last becoming a mighty river, bearing ships upon its bosom, is the woman with her broaden ing and deepening possibilities. But how many girls

"Standing with reluctant feet Where the brook and river meet Womonbood and childhood fleet,"

are at this time of their lives the object of great solicitude to their parents. The young girl is sail, does not like company, has pulpitation of the heart after slight exertion, dyspepsia, constipation, pains in the head and limbs and along the spine, and her face is pale with a greenish tinge. She is the victim of green sickness. This is a case in which the nervous system is impaired and the blood is impoverished. A good tonic is needed to bring her back to health and strength, and parents should be careful to choose the best remedy. Here is what Mrs. Homer Lard, of 215 Allen street, Springfield, Miss., selected for her 17 year old daughter Mary, with an account of its marvelous results.

Mrs. Lard says: "About two years ago my daughter became so nervous that I had to take her out of school. Her condition caused grave apprehension. She lost in fiesh; was possessed with a nervous thirst and clutched overything on which she laid her hands, with the grip of a person in the throes of death. Worse than all, she was not only unable to sleep herself, but her restlessness would keep the other members of our family awake. She grew worse rapidly and we finally went to a physician, but the remedies he prescribed did her no good; on the contrary, Mary thought they made het worse.

"The old saying of a 'drowning man clutching at a straw' came to our minds, and remembering that I had read of some wonderful cares made by Dr. Green's Nervura blood and nerva remedy, I decided to try it. I must say that the effect was magical, and results were apparent after the first bottle had been partly used. My daughter slept that night for the first time in months, and you can believe that to us it was like a ray of sunshine from a cloudy sky. Her condition improved steadily and she was able to resume her studies.

"Piano practice formerly had a peculiarly bad effect unon her but also and a peculiarly bad effect unon her but also and a peculiarly bad effect unon her but also and a peculiarly bad effect unon her but also a peculiarly to the first bottle had been partly used. tation of the heart after slight exertion, dyspepsia, constipation, pains in the head and

proved steadily and she was able to resume her studies.

"Plano practice formerly had a peculiarly bad effect upon her, but she now practices regularly without becoming nervous. Two years ago we feared that Mary had reached her growth, but since taking Dr. Greene's Nervura her nervousness has been so greatly dispelled that she has grown considerably and regatued the flesh she had lost."

It is wonderful what benefit this young girl derived in so short a time from Dr. Greene's Nervura, the great herve and blood cenedy. If you have a daughter who is suffering in such a manner, can you doubt flat this grant medicine is just what she needs? You can make no mistake in giving her this great blood and nerve remedy, for it is the discovery of a noted and experienced physician, Dr. Greene, of 35 West 14th Street, New York City. He not only positively promises a good effect from the medicines but allows all who wish to consult him free of charge, either personally or by letter, so that in using his remedy you make him your physician and receive the benefit of his great skill.

NEWS FROM THE ORIENT

The Cholera Is Reported to be on the Increase.

CAPTURED BY JAPANESE TROOPS.

Hundreds of Lives Lost in an Engagement in Which the Old Capital of Formosa and an Adjacent Fortified Town Is Taken from the Chinese.

SAN FRANCISCO, Sept. 21.—The steamer Gaelic, which has just arrived from Hong Kong and Yokohama, did not stop at Honolulu. She brought eleven cabin sengers from Hiogo, the worst infested cholera district in the Orient. No sickness was reported on the trip across and no alarm was felt by the ship's officers. Since last advices there has been an in-crease of the cholera plague in the Oriental ports. During the two weeks preceding the sailing of the ship there had been six deaths from cholera in Hong Kong, 51 deaths out of 54 cases at Nagaanki, 256 deaths out of 229 cases at Higgs, and 27 cases with 19 deaths at Yokohama.

On inspection by members of the board of health the passengers and mails were landed, and the steamer went back to quarantine. The postmaster has received a dispatch from Washington directing him to fumigate all mails received from infected ports. The chief of police has ordered a house to house canvass for the purpose of compelling all citizens to put their houses in the best sanitary condition

Under date of Tokio, Sept. 7, the following is reported: Talwan Ju, the old capital of Formosa, and Chang Hwa, an adjacent of Formosa, and Chang Hwa, an adjacent fortified town, were captured by a body of 2,000 Japanese on Aug. 25, after a short contest in which twenty-four of the as-saliants were killed or wounded. Of the Chinese garrisons, numbering 10,000, 850 were killed or wounded, and the remainder dispersed in various directions. The conquering army will not proceed further southward until after the arrival of fresh troops from Manchuria and Japan. By the middle of September the entire force will exceed 50,000 fighting men. Count Matsugata, minister of finance.

has resigned from the Japanese cabinet be cause of differences with Marquis Ito, prime minister. Viscount Watanabee, who retired from the treasury last March to make room for Maisugats, now re-sumes his former position.

The report recently sent out from Washington asserting that toward the close of the war between China and Japan a serious difficulty threatened the friendly relations of Japan and the United States, and that actual hostilities would have broken out but for the sudden announcement of an Asiatic armistice, is declared by the highest authorities of Tokio to be entirely

without foundation. The investigation of the Kucheng mas-sacre proceeds slowly the Chinese officials seeking by every means to interpose de-lays and plainly indicating their sense of superiority in rank and position to the consular agents charged with the duty of guarding foreign interests. A few execu-tions of real or alleged criminals may probably be ordered and pledges of watch-fulness and care will be given to any requiced extent by the rulers at Pekin. But the mass of the people are now thoroughly persunded that the highest provincial authorities approve the persecution of strangers and believe that they will get shielded from punishment no matter what excesse

they may be guilty Fifty thousand Moham o dans are in active rebellion in the partition of China. They are fighting with a mid to be supplied by Russian compata its, and their avowed purpose is to set up in Independent government in territory taken from Kansu Alli and Thibet, The authorities at Pekin are dispatching all the troops that can be collected to the scone.

Maxico Wants No Iri h Colonists.

WASHINGTON, Sept. 21.—Senor Romero, the Mexican minister, has received a num-ber of letters from Irishmen in this country asking information as to what special inducements the Mexican government would offer to the immigration of Irishmen, the letters being induced by newspaper publications that Mexico, besides giving land, would pay all expenses of colonists travelling from Ireland to Mexico. Senor Romero has received an official report from which it appears that the publication was ungrounded.
