THE PRIMARIES AND TICKET.

Probably before this issue of the HERALD reaches the readers the delegates who were the Pennsylvania Bolt and Nut works, was struck under the left shoulder by a day will have completed the work for which they were selected. At all events, much of it was very badly burned. Kern lost much will have been accomplished and the nominees named by the Democratic party of this county on the 21st inst. will have a good idea of who their opponents at the election next November will be. We trust the result will be as near satisfactory to all voters of the Republican party as it is possible to make it, and that the nominations will be so heartily and candidly endorsed by members of the party throughout the county that nothing will be able to prevent a repetition of the Republican victories of the last two years.

It is difficult to see any reason why the delegates at work at Pottsville to-day should full in presenting to their party a ticket that LAST OF THE BASEBALL will be entitled to and win the loyal support of all within the ranks and all fair minded ship, with Cleveland in heer-it 61 53 churs. While I was pastor of the Baptist church at Breas Junction she was brought down with Pneumonia succeeding La Grippe. Terrible paraxysms of coughing would last hours with little interruption and would ask nours with fifth interruption and it seemed as if she could not survive them. field's probable successor. While General 5 and Miles was the senior major general of the army, and one of the most popular, persanally, with his subordinates, it was re-ported that he was, for some reason, persona non grata to the president, and that the fact that he had no diploma from West Point might weigh against his chances. General Ruger was the principal rival for the appointment mentioned.

There was also an impression in some quarters that the office of general of the army might be left vacant for some time. as there is no requirement of law for such a position and as there are precedents for leaving it unfilled. Only once since the army was organized, however, has the president failed to appoint the senior general to the command of the army.

THE CUP REMAINS HERE.

Ethelwynn Wins the Deciding Race in the Contest with ppruce IV.

OYSTER BAY, L. L. Sopt. 30 .- The Seawanhaka Yacht club's perpetual challenge cup for small boats will not be carried away this year by an English champion. In the last of the international races, sailed on Saturday, on a triangular course of twelve miles off Oyster Bay, the little Etholwynn fairly ran away from the Brit-ish challenger, Spruce IV, crossing the finish line to the music of shricking steam whistles, booming cannon and ringing cheers, a winner by ten minutes and forty one seconds. The ease with which the Ethelwynn car-

ried off the honors was a surprise to even her most ardent admirers. Two victories stood to the credit of each little racer, and it was expected that the decisive struggle would be a close one, but in a stiff breeze, and in the sort of salling in which the visitor is at her best, the little Yankee showed her a clean pair of heels over the whole course.

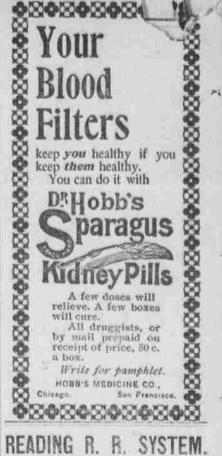

Two Killed at the Gun Proving Grounds. NEW YORK, Sept. 30.-During a test of a Canet rapid firs gun at the Sandy Hook proving grounds the breech block blew out as it was being acrewed in, instantly killing two privates of the ordnance department, who were serving the gun, and injuring two more, one of whom will probably die. Lieutenant Montgomery, who was conducting the test, escaped with a concussion of the ear drum. The dead are: Corporal Robert Doyle, 35 years old, of Philadelphia, instantly killed; Private Frank Conway, of Green Island, instantly killed. Private James Coyne was cut on forehead and neck and face, and will probablydie. Private William McDonald had his left arm above the elbow blown away.

### Suicide in a Cellar.

TRENTON, Sept. 30 .- Charles Leroy Welling, a prominent rubber salesman of this city, committed sulcide yesterday at his father's home on North Clinton avenue. Welling was found de the collar with his throat cut. He had been drinking dur ing the past fow days. No other cause for the suicide is known. Weiling studied law and was admitted to the bar in 1876, but he has not practiced in many years. When he did it was with the Jersey City firm of Gilehrist, McGill & Gilmour, which included Chancellor McGill.

Electric Bitters is a medicine suited for any senson, but perhaps more generally needed in the spring, when the languid exhausted feeling prevails, when the liver is torpid and sluggish and the need of a tonic and altera-tive is felt. A prompt use of this medicine has often averted long and perhaps famil-bilious fevers. No medicine will act more surely in counteracting and premay the avebirlous revers.
