necessary, physical good offices of the United States to prevent the encroach-ment of the latter. Indeed, it is said that the grant of the concession was a shrewd stroke of diplomacy of the Venezuelan president for the purpose of drawing the United States directly into action to force Great Britain to abandon her usurpation of territory. The syndicate has given notice that it

will take possession of its territory within a month. But diplomatic correspondence on this subject between Washington and London have been active for some time past. President Cleveland and Secretary of State Oiney are said to be one on the question of action, and three letters, it is reported, have been sent to Mr. Bayard, instructing him to notify the British government that unless the whole question is submitted to arbitration, and settled within ninety days, the United States will act upon its own view of the dispute and enforce the Monroe doctrine.

Tomorrow's meeting in New York, it is said, is called to consider the details of taking possession of the land embraced in the concessions.

Securing Arms for Cuba in Chicago. CHICAGO, Oct. 2.—Arms and ammuni-tion for the Cuban patriots are being collected in Chicago. State Senator E. T. Noonan is authority for this statement. He says the Cubans, through their fellow countrymen and sympathizers here, have already received the promise of over a hun-dred Winchester rifles, to be delivered at any time, and that they are only waiting for an opportunity to ship them before they ask for the delivery. It is claimed this is only a beginning, and that the pa-triots expect to procure in Chicago a large amount both of rifles and ammunition.

A Skelston on the Lake Shore. MEDINA, N. Y., Oct. 2.—The skeleton of a man with a few shreds of putrid flesh and a bit of clothing ellinging to it was discovered by some school children play-ing on the beach of Lake Ontario yesterday. The only means of identification was in the meager remnants of apparel which clung to the one remaining arm and the legs. The garments were unmistakably those of a private soldler of the regular army, and it is believed here that the body was one of three soldlers who were drowned near Lewiston last Decem-ber in crossing the river.

Peace in the Whisky Trust.

Pionia, His., Oct. 2.—J. B. Greenhut, formerly president of the whisky trust-returned yesterday from New York, where returned yesterday from New York, where he has been spending the summer. He stated to a reporter that all differences be-tween himself and the reorganization com-mittee and the American Spirits Manu-facturing company had been fully ad-justed. He said: "We have shaken hands over the bloody chasm and are now fast friends." Mr. Greenhut says all the Peoria houses will be started by Nov. 1, and pos-

St. Paul., Oct. 2.—The Ploneer Pressays: Moses E. The outcome of the meeting may possibly be fraught with serious results.
