COFFEE AND TEA

Man, supplied with reasoning and discerning powers, may improve his condition by the exercise of these faculties. This can be applied with very good effect in the purchase of Coffees and Teas. A good cup of Coffee depends not only on the making—but the brand of Coffee, the grade, the roasting and preparation are very important factors. We feel confident that we can meet all those requirements. A delicious cup of Coffee is a certainty if you use

Our Fancy Java, or our Fancy Blended Coffee.

In regard to Tea, we occupy a front rank, all our Teas being very carefully selected by competent judges, and a trial order will convince you that we can please the most fastidious customers. We offer nothing but good grades that are noted for quality, color and flavor, and they are sold at popular prices.

STRONG PLEA FOR IRELAND.

The National Alliance's Address to the Friends of Liberty.

NEED OF FUNDS FOR THE WORK.

Provincialism Cast Aside and the National Demand of Ireland Again in the Ascendant—Complete Independence by the Law of Nations.

NEW YORK, Oct. 7.—The national officers and executive committee of the Irish National Alliance issue the following appeal to all friends of Irish independence:

The convention which recently organized at Chicago the Irish National Alliance has placed its guidance and government in the hands of the undersigned for the ensuing two years. The purpose of the alliance has already been sufficiently proclaimed—to obtain the complete independence of Ireland by any means consistent with the laws of nations. Organizations, like governments, have to depend on their revenue for the successful accomplishment of their duties. The "sinews of war" for both are absolutely necessary, both for organization and propaganda.

England, the arch enemy of Ireland, has at her disposal immense resources—the accumulations of centuries of conquest and piracy. She has it in her power to control or mould public opinion in her own interests. Even in free America she possesses this power to an astonishing extent. Her side of the Irish question has filled the American mind for a quarter of a century—over since Ireland's friends at home and abroad committed the costly fault of trusting to parliamentary agitation to achieve the liberty of their motherland.

Now, however, a totally different policy has been inaugurated. The absolute claim of Ireland to a distinct national life has been placed before the world by the unanimous voice of the recent Irish national convention held in Chicago. Provincialism has been cast aside, and the national demand of Ireland, which slumbered but did not die, is again in the ascendant. We are determined that it shall so remain, and that no effort of ours, no sacrifice on our part, will be left untried or unperformed until victory crowns our sacred cause.

We appeal, therefore, to all friends of the independence of Ireland to aid us in this good work by placing at our disposal the means requisite for its accomplishment. You are asked to subscribe in accordance with your means, and to forward your subscriptions as speedily as possible to the treasurer of the Irish National Alliance, Hon. P. V. Fitzpatrick, 151 Twenty-second street, Chicago.

Plans of organization are being prepared, and will be issued in a few days.

Our Warships in China.

WASHINGTON, Oct. 7.—Among the naval movements reported to the navy department yesterday were the arrival of the Monocacy at Shanghai and the departure of the Mechuas from Hankow for Shanghai and the treaty ports. It is assumed to be a desire of the admiral commanding the Asiatic station to have them in southern China, where they may be readily available in the event of trouble such as has been experienced during the past summer in the looting and burning of missionary property. Both the Mechuas and the Monocacy are of light draft, and adapted for navigating to some extent the Chinese rivers.

Cuba to Ask Recognition.

BOSTON, Oct. 7.—In view of the recent announcement of the organization of a provincial government in Cuba The Standard has secured an interview with Mr. J. V. Fuentes, president of the Cuban club of Boston. Mr. Fuentes said: "The revolutionists have formed a government, and are now perfecting it before sending out agents to the various countries to secure recognition. The first country that we shall apply to is the United States. We count more for recognition from this country than any other. Let the United States recognize us, and in a month things in Cuba will undergo a change that will surprise the world."

Ambassador Paternotte Back Again.

NEW YORK, Oct. 7.—M. Paternotte, the French ambassador, arrived on La Touraine Saturday after two months spent in France. When asked regarding the statement that United States officials were unable to get from the French government a copy of the minutes of the Waller trial in Madagascar he replied: "I understood that a copy of the findings of the court had been forwarded to United States Ambassador Eustis some time ago." M. Paternotte said that no doubt the matter would be amply adjusted, and declared that the fact that Waller was a colored man did not at all prejudice his case.

Held Up by a Lone Horseman.

PHOENIX, Ariz., Oct. 7.—The stage from Florence was held up by a lone Mexican horseman at the crossing of Dry Lake, eight miles west of Casa Grande station, on the Southern Pacific railroad. Through the bravery of A. J. Doran, president of the territorial legislative council, the only passenger, the highwayman was all but captured. The robber was kicking around the mail matter when Doran jumped upon him, grasping the pistol barrel just as the weapon was discharged. The stage driver stepped to Doran's assistance, but the robber tore loose from Doran, and mounting a horse, rode rapidly away.

THE CONTROLLERSHIP.

Mr. Severn Making Arrangements to Qualify Under his New Appointment.

County Controller R. R. Severn, who again assumes the title by reason of appointment made by Governor Hastings, as announced in Saturday's HERALD, returned from Harrisburg Saturday evening. Controller Severn is content as to his program and admits nothing further than that he will qualify under the appointment and formally make a request of the County Commissioners that offices be provided for him in the Court House in accordance with the law.

It seems to be accepted in all circles that the Commissioners will not accede to the request, but claim that the law under which the appointment has been made is unconstitutional. It is also believed that the matter will rest without further action, after Controller Severn qualifies and the demand is made, until the Luzerne county court renders a decision in a case now pending before it in which the same point is raised.

The Controller is now preparing his bond, which is in the sum of \$30,000, instead of \$50,000, as required by the old law. It will be filed when the commission arrives, which is expected to-morrow or Wednesday.

The Controller has made no intimation in reference to the matter, but it seems quite certain that Frank C. Reese, of town, will be appointed Deputy Controller and that no clerks will be named until the Controller is fully installed in office. When Mr. Severn held the office under the law that was subsequently declared unconstitutional Mr. Reese was his chief clerk. Mr. Reese is at present employed as secretary and assistant superintendent by the Citizens Water and Gas Company, of town.

The appointment made on Saturday has in no way turned the course of Mr. Severn's private affairs. He still holds his position under the coal company at Andover and spent to-day at his desk in the office there.

Winding Up Connections.

Gallagher & Lamb, the firm having the water connections under contract, are now engaged in making connections at places that were skipped during the early part of the work on account of owners of properties having been absent and unable to give consent to the change. Owners who refused to allow the connections to be made when the superintendent made his solicitations must now have the work done at the best terms they can make on private contract, as the time fixed by the ordinance for the owners to make application for connection expired on the 1st inst.

Water Supply Increasing.

The supply of water at the Brandonville reservoir of the public water works is gradually increasing. Many of the springs have been refreshed and it is said rain for about two days will put the sources in good shape. The water raised eighteen inches in the reservoir between eight o'clock last evening and two o'clock this morning, while the pumps were shut down for the night.

NEW PROJECTS STIRRING!

The New Telephone Company is Getting Down to Work.

ALL RIGHTS OF WAY SECURED!

Construction of its Lines Will Begin in the Near Future—What is Expected of the Latest Electrical Project.

There is every indication that before the winter is well advanced the new telephone company, of which there has been so much talk for months past, will have assumed a definite and practical shape. The company has now secured rights of way for its poles and wires in all the towns of this county in which it is proposed to operate the system and will begin at once to make arrangements for constructing its lines.

The inauguration of the system will be one of great importance. If the company adheres to its prospectus the telephone service will be completely revolutionized and the people will receive a service for at least one-third cheaper than the rates charged by the company that now controls the field. Of course the first thing expected upon the completion of the new system is a war of rates and inducements of service. The old company has already made a step in advance by inaugurating an all-night service. While this is an excellent move and meets with the frequently expressed wish of the patrons, still it does not extend far enough to cast a shadow upon the new project. Cheaper rates are in demand in all quarters and if they can be had with the same quantity and quality of service the people will get them. Thus far the old company has not officially intimated that it will compete with the company that has now perfected its rights of way, but the inauguration of the night service is looked upon as an indication that any improvement or inducement that the new company may advance will be met.

Another project that promises to assume definite shape during the coming winter is that of the Citizens' Light, Heat and Power Company of Mahanoy Township. This is the company that made application for rights of way at the last meeting of the Borough Council, and the application is in the hands of a committee of that body. The names of the incorporators or Board of Directors of the company have not been made public. Thus far Justice M. J. Lawlor is the only one who has become publicly identified with the project, but it is said that it is backed by a number of substantial and influential people. It is hinted that in time the company will revolutionize the system of light, heat and power not only in this town, but throughout the valley, the charter of the company giving it privilege to operate wherever local powers may be obtained in any part of the territory from Mahanoy City to Ashland. The company will distribute electric power for all purposes and it is anticipated that it will furnish a system of electric illumination much better and cheaper than any now in use. It will also supply electric power for all purposes, both to corporations and individuals, and promises in time to furnish power for heat. Justice Lawlor says the scientists have not perfected the distribution of heat by electricity, but will do so in the very near future and his company will be in a position to adopt it as soon as practicable.

Current events lead to the conclusion that this borough will be one of the towns of the state to keep abreast with the march of improvements held out in the electrical field, and at no distant date one of the great problems for the authorities to handle will be the proper arrangement and distribution of the great number of poles and wires which the operation of the various systems will require.

"DEMOREST"

is the name of one of the best Sewing Machines now manufactured.

How much and yet how little most folks know about Sewing Machines.

How many do know the crust of "expense," counted in the usual retail price of all Sewing Machines.

It would astonish buyers if they knew what actual cost is and what retail price would be were machines sold on the same basis as the Dry Goods, Shoes, or other merchandise.

Why not sell them so? Time for important patents has expired. The field is now open, therefore we offer you now a

\$50.00 MACHINE for \$19.50.

Taken all in all, we count the "DEMOREST" the best Sewing Machine in the market.

Light running, easily managed, no noise, high arm, no springs, every movement positive, hardened steel bearings, all steel attachments. More up to date in improvements than any other.

How can we sell such a machine at \$19.50? Easy enough.

We buy and sell sewing machines as we buy and sell Dry Goods.

No canvassers, no installment business, nothing to make customers stand extra costs.

MAX SCHMIDT.

Both Hands Cut Off.

MORRIS GRILLITHS, a resident of Buck Mountain, spent several hours in Mahanoy City on Saturday and toward evening started to walk home. He was intoxicated and upon arriving at the new P. & R. siding at Buck Mountain he lay down and fell asleep. He was in such a position that his hands rested on a rail of the siding. Shortly after the Newberry freight train pulled some cars out of the siding and passed over Grilliths' hands, mangle them in such a manner that when the victim was removed to the Miners' hospital amputation was made on both arms, a little below the elbows. Grilliths has a wife and six children depending upon him for support.
