Opponents of a Third Term.

WASHINGTON, Oct. 14.—The Post prints replies received from over a hundred members of congress to the inquiry as to whether they would favor or oppose a resolution should one be offered in the next house stating that in the opinion of the house a presidential third term is oper. Such a resolution was presented. Representative William H. Springer, by Representative William H. Springer, of Illinois, upon Dec. 15, 1875, and adopted. Seventeen congressmen announce various reasons that they would vote against a resolution similar to the one presented by Mr. Springer. There is a very decided sentiment in favor of a term of six years, with the president ineligible to re-election. Quite a number of congressmen would limit a president to a single term of four years.
