COFFEE AND TEA

Man, supplied with reasoning and discerning powers, may improve his condition by the exercise of these faculties. This can be applied with very good effect in the purchase of Coffees and Teas. A good cup of Coffee depends not only on the making—but the brand of Coffee, the grade, the roasting and preparation are very important factors. We feel confident that we can meet all those requirements. A delicious cup of Coffee is a certainty if you use

Our Fancy Java, or our Fancy Blended Coffee.

In regard to Tea, we occupy a front rank, all our Teas being very carefully selected by competent judges, and a trial order will convince you that we can please the most fastidious customers. We offer nothing but good grades that are noted for quality, color and flavor, and they are sold at popular prices

WORKING FOR SOCIAL PURITY

A Congress for Good Morals in Session at Baltimore.

THE INEQUALITIES OF LAWS!

Legislative Enactments Which Discriminate Against Girlhood and its Favor of Immoral Men—Necessity for a Single Standard of Purity for Both Sexes.

BALTIMORE, Oct. 15.—The first national purity congress, under the auspices of the American Purity alliance, convened in this city last night and will continue in session for three days. Social reformers from all parts of the country are present as delegates. President Powell, in opening the meeting, said that the objects of the congress are: "The repression of vice, the better protection of the young, the rescue of the fallen, to extend the White Cross work among men, and to proclaim the law of purity as equally binding upon men and women." The speaker declared that "age of consent" statutes discriminate against girlhood and in favor of immoral men, and are for the most part a disgrace to the several states of the Union. He expressed the hope that the present congress would have the effect of emphasizing the necessity for a single standard of purity for both sexes.

"There is no religion," said he, "where there is not purity of thought and life. Impurity is the death of religion. It shuts the eyes from seeing God, seals the ear against any holy affections, and buries out of reach all desires for spiritual associations. We are unflinching in our attitude towards the enemies of virtue, and have only blows of indignant wrath for all who seek to legislate into the nation's life cursed theories of protection to crime that decency and divinity alike condemn. We hate with increasing feeling the fashions of society that make cruel discrimination of sex, that flatter and fawn upon the impure man, while loathing the impure woman, and while we denounce the destruction of woman's imperial modesty in the adoption of any custom of dress or amusement that degrades her from her regal place as head of the home and leader in the sweet civilities of life and companion in every noble relation, we still have tender compassion for all who will return and be the fountain of innocence and abandon all evil ways."

Among the delegates, most of whom have papers on various subjects which they will read during the conference, are Mrs. Julia Ward Howe, Elbridge T. Gerry, Anthony Comstock, the Rev. Antoinette Brown Blackwell and scores of others of almost equal prominence.

Had Fasted for Over Two Months.
CHEYENNE, Wyo., Oct. 15.—Mrs. John A. Grover, who died at Laramie on Sunday of starvation, has taken no nourishment, except a glass of milk, for over two months. From 200 pounds in weight she wasted away to seventy-five pounds. An extraordinary circumstance is that the alimentary canal failed absolutely to perform its office for ten weeks prior to death. Local physicians offer as a possible explanation the theory that some brain disorder interfered with the natural processes of the body. She apparently suffered no pain. She was a half sister of Sarah Althea Hill Sharon.

News to the British Government.
LONDON, Oct. 15.—The Berlin Kolnische Zeitung publishes a dispatch from a correspondent in Constantinople asserting that information had been received there that the town of Zabara, Arabia, in the Persian gulf, had been bombarded by two British warships and had been destroyed. The English government has no news of any such bombardment, and officials believe that it refers to the shelling of Arab dhows off the town of Bahrein in the middle of September.

Another Trades Union of Employers.
CLEVELAND, Oct. 15.—Nine companies engaged in the manufacture of wooden and iron poles and shafts for carriages and wagons, and having a combined capital of \$750,000, met here and organized two central companies, to which will be sold the product of the factories at uniform prices, and through which the trade will be supplied. Both these companies will have offices in Cincinnati.

Judgments by Default.
The suits of the borough against the Schuylkill Traction Company to recover on claims for damages by Lawrence Little and John Baird, alleged to have been sustained by reason of the company heaping snow on West Coal street last winter, were before Justice Lawlor last evening. The company failed to put in an appearance and judgments were given by default. The Little claim is for \$4.15 and the Baird claim \$28.50.

May Form a League.
There is strong talk of forming a foot ball league comprising north-of-the-mountain towns. The proposition is to include Ashland, Girardville, Shenandoah, Mahanoy City and Tamaqua, and to decide the championship by three games with each club, the prize to be a pennant.

DELICATE OPERATION.

A Clot of Blood Removed From Mrs. Dornbach's Brain.

Mrs. Elizabeth Dornbach is at the Medico-Chirurgical Hospital in Philadelphia and a very delicate operation was performed yesterday afternoon. During the fire in town on June 1st, last, the property of Mrs. Dornbach's husband was destroyed. From that night Mrs. Dornbach's mind seemed to give way and her case grew more serious daily. She was finally removed to the asylum at Schuylkill Haven, but later the family decided to have an examination made at the Philadelphia hospital named above. When the patient arrived at the hospital the examining physicians and surgeons concluded there was a clot on the left side of the crown, disclosing a clot of blood, as they had supposed, causing a pressure on the brain. The clot was removed and at last accounts Mrs. Dornbach was making good progress towards recovery. The theory is that during Mrs. Dornbach's intense excitement on the night of the fire a blood vessel burst and caused the clot to form. The unfortunate woman had suffered intensely, but now that the operation has been removed it is expected that she will be as strong mentally as ever she was before the unfortunate occurrence. Should nothing unforeseen happen Mrs. Dornbach will return to town in about three weeks.

AN OLD MAN'S MISFORTUNE.

Struck and Dangerously Injured by an Electric Railway Car.

James O'Donnell, a man nearly 60 years of age and residing at Gilberton, was dangerously injured yesterday by being struck by a car on the Schuylkill Traction line. O'Donnell had been picking coal at a bank between Gilberton and Maizeville and stepped in front of the car, having failed to notice its approach or hear the gong. The motorman had succeeded in considerably reducing speed, O'Donnell was struck on the right side of the head and it is feared he suffers from concussion of the brain.

Ellenogowan Colliery Idle.

Operations were suspended at the Ellenogowan colliery this morning, owing to the condition of the boilers. A gang of carpenters are employed in erecting new sheds over the boilers and the boss carpenter gave notice that unless the fires were drawn he would not allow his men to continue working. In compliance with the notice the fires were drawn this morning. It is said that the sulphur water used to make steam has played havoc with the boilers. The colliery will resume operations to-morrow.

THE NIGHT SCHOOLS OPEN.

First Enrollment the Largest in the History of the System.

OVER THREE HUNDRED PUPILS!

The Schools for Girls Promises to be a Success—Active Steps Taken to Maintain Discipline in All the Schools—Attendances.

The night schools were opened last night with a very encouraging attendance in all quarters. The enrollment was the largest for the first night in the history of the system and a prosperous season is looked for. The attendance at the girls' night school in the Main street building is especially gratifying and the School Directors hope to make it very popular. It was understood among the Directors that in case the enrollment in this school on the first night did not reach 20 the project would be abandoned, but upon the opening of the school the enrollment ran up to 28, and there are a number of girls who have tickets of admission, but did not attend. The total enrollment for the night up to seven o'clock, half an hour after the opening, was close to 300. After that hour there were many new arrivals and Superintendent Whitaker was at work in his office until nine o'clock granting tickets of admission, so that the average attendance at the ten schools is considerably over 30. The School Board decided at its last meeting that when the average attendance falls below 20 the schools in which the attendance decreases to that point shall be closed.

From the developments of last evening it is not likely that there will be any necessity to enforce the rule. With but one or two exceptions all the pupils seemed desirous to profit by the advantage held out to them. The exceptional cases arose in the White street and Coal street buildings. School Director Conry happened to be on hand in the former building and effectually nipped in the bud the aspirations of a boy who was inclined to give the teacher lessons. Thus far the boys in the Coal street building have proved the most unruly, but as the School Board is determined to enforce the same discipline as that maintained in the day schools the boys who are inclined to be sportive will be brought to their senses within a short time. The Coal street boys held things in high hand for a while, but the appearance of Constable Bolin had a good effect and there was no trouble after.

There is some complaint about insufficient light in some of the school rooms, but that defect will be remedied by the time the schools open this evening.

The School Board is desirous that the night police shall give what time they can spare to the schools and prevent unruly conduct by attendants and interference by boys loitering outside.

The schools remained in session two hours and a half last night and that will be the schedule time unless the collieries fall back to working three-quarter, or half time, when the sessions will be reduced to two hours.

The enrollments at the opening of the schools were as follows: West street—Miss Lydia E. Eisenhower, 22; Miss Annie E. McNeil, 24; Lloyd street—Miss M. Jessie Glover, 23; Miss Cora E. Sterner, 46. Main street (Girls' School)—Miss Sadie Baugh, 28; White street—Miss Annie B. Bierman, 29; Miss Ida C. Lewis, 27. Union street—Mr. P. F. O'Donnell, 35. Coal street—Miss Bridget McGuire, 35. Turkey Run—Miss Maggie A. Campbell, 22.

It will be observed that the enrollment in Miss Sterner's school is from 30 to 50 higher than that of the other schools, but a readjustment will be made after the system is in operation a few nights. The enrollments of the other schools will be increased with the new arrivals and when the attendance settles transfers will be made to equalize the schools. School Directors Patrick Conry and William T. Trezise visited several of the schools last night.

Chairman Payne's Appeal.

County Chairman Burt Payne has issued the following appeal to the Republican voters of Schuylkill county:

To the Republicans of Schuylkill County: As my entire time is engaged in the interest of the Republican party, and as the period before election day is short, I do not think my duty to the candidates will be properly performed if I divide it with other matters. I have, therefore, decided to give all my time and exertions to the welfare of the ticket, and request all Republicans not to be side-tracked by outside issues. We want a united party. Victory is desired at this time. Immediately after the election I will court the strictest and most searching investigation into my acts before any proper tribunal that may be selected by the County Committee, and I will cheerfully abide by its decision.

BURT W. PAYNE,
County Chairman.

Mine Drainage.

A drain pipe 380 feet long and 23 inches in diameter is being laid at the Shenandoah City colliery to carry the water from the drift to the creek. The object of laying the pipe is to keep the water that comes from the mine clear of the reservoir into which the slush from the washery is run. None of this slush is allowed to run into the creek. It accumulates in an immense puddle and solidifies. In time the hardened waste will form an embankment.

Centroyann Returned.

THE BUSY STORE

116 and 118 North Main Street.

"DEMOREST"

is the name of one of the best Sewing Machines now manufactured.

How much and yet how little most folks know about Sewing Machines.

How many do know the crust of "expense," counted in the usual retail price of all Sewing Machines.

It would astonish buyers if they knew what actual cost is and what retail price would be were machines sold on the same basis as the Dry Goods, Shoes, or other merchandise.

Why not sell them so? Time for important patents has expired. The field is now open, therefore we offer you now a

\$50.00 MACHINE for \$19.50.

Taken all in all, we count the "DEMOREST" the best Sewing Machine in the market.

Light running, easily managed, no noise, high arm, no springs, every movement positive, hardened steel bearings, all steel attachments. More up-to-date in improvements than any other.

How can we sell such a machine at \$19.50? Easy enough.

We buy and sell sewing machines as we buy and sell Dry Goods.

No canvassers, no installment business, nothing to make customers stand extra costs.

MAX SCHMIDT.

CHANGE OF PROGRAM.

The One-Price Clothing House Has But One Motto—Low Prices.

The one-price clothing house has adopted the motto that its name implies, and from now on Mr. Rebovich will sell all goods at one price, and every garment in his establishment is marked in plain figures. A child can buy as cheap from him as an elderly person. We have the largest store-room in Schuylkill county, and the largest stock. We buy all our goods for cash and therefore save a big discount and sell at a profit of five per cent.

I am the oldest and most experienced clothier in the valley, and can sell at retail to my customers at less than what my competitors can at wholesale. All goods in my establishment are guaranteed to be as represented or money refunded.

Abating the Tramp Nuisance.

The police are determined to rid the town of the tramp nuisance. Night work has proved ineffectual. The tramps make their rounds during the day and retire to seclusion when the night police go on duty. Policemen Lee and Hand have been detailed for day duty to hunt up the pests. Most of today they devoted to visiting people having complaints and collecting other evidence. It is claimed the tramps visit houses in search of food and when they find no men are in the house they try to intimidate the woman into giving them money.
