

MUNYON'S VIEWS ON RHEUMATISM.

The Famous Professor Does Not Believe in Strong Drugs—Gently Acting Remedies Will Make Prompt and Permanent Cures Where Dangerous Dosing Fails.

Professor Munyon says: "The usual treatment for rheumatism consists of poisonous doses of potash, salicylic acid, colchicum and morphia, which destroy the stomach, irritate the kidneys and prostrate the nerves. Munyon's Rheumatism Cure is guaranteed to be absolutely harmless and a strong tonic in building up the weak and debilitated. It cures acute or muscular rheumatism in from one to five days. Sharp, shooting pains in any part of the body stopped by a few doses. A prompt, complete and permanent cure for lameness, stiff back and all pains in hips and joints. Chronic rheumatism, sciatica, lumbago or pain in the back are speedily cured." Price 25c.

The Munyon Remedies effect prompt and positive cures in the most obstinate cases, a separate specific for each disease. At all druggists, mostly 25 cents each.

Munyon's Dyspepsia Cure is guaranteed to cure all forms of indigestion and stomach troubles. Price 25c.

Munyon's Headache Cure stops headaches in three minutes. Price, 25 cents.

Munyon's Vitalizer restores lost powers to weak men. Price, \$1.00.

Preparing for the Big Prize Fight at Hot Springs, BUT GOVERNOR CLARKE FORBIDS IT

Arkansas' Chief Executive Will Act Under a Law Relating to Riots and Rebellions, Which Gives Him Unlimited Powers, and Is Acting Vigorously.

LITTLE ROCK, Oct. 15.—Governor Clarke yesterday furnished fresh evidence of his determination to prevent the Corbett-Fitzsimmons fight at Hot Springs, or in Arkansas. A telegram was sent by the governor to Brigadier General John A. Taylor, of Forrest City, of the Arkansas State Guard, summoning him to a conference at once. The meaning of the conference is that the governor desires to acquaint himself with the available strength of the state militia, so that he may act knowingly if the situation at Hot Springs reaches a crisis where the services of the militia may be required.

According to the offers contained in telegrams and letters received at the executive office Governor Clarke estimates that the services of 10,000 men are at his disposal for the purpose of putting down the fight if needed. These offers come from all parts of the state.

A vigorous determination to prevent the fight is plainly discernible in the significant proceedings at the executive office. Indeed, Governor Clarke was more emphatic than ever today in saying that the fight would not be allowed to come off in Arkansas. He goes so far as to say that if the affair occurs as advertised, at Hot Springs, he will resign and try to find an office that he can run. The governor says Corbett and Fitzsimmons have been warned, and if they now arrive at Hot Springs bent on the mission of fighting, their presence in the city or county will be considered an overt act, and will be treated accordingly.

The governor says that he realizes that Hot Springs is anxious to retrieve its past misfortunes, and he would like to help the city, but in this instance his duty is plain, and he will use his utmost diligence and power to do what it is his duty to do. Governor Clarke said he did not want to see any bloodshed as a result of the pugilists' refusal to refrain from making preparations to fight. He sincerely hoped it would be avoided.

The governor finds that the law of 1891 was not legally enacted, leaving the state without a law on the subject of prize fighting. The law of 1888, in his opinion, invests in the executive ample authority for carrying out the policy he has decided to adopt. This law does not refer to prize fights, but rather to riots and rebellion. Under its operation the governor is allowed almost unlimited latitude, and could declare the district in "which the disturbance occurs" to be in rebellion against the state, and could not only drive out by force all the parties connected with the disturbance, but could arrest and imprison without process of law.

When questioned in reference to the proposition to change the affair into a glove contest, Governor Clarke said that he could make no distinction between a prize fight and a prize fight. It was a prize fight no matter what it was called.

Martin Julian has wired the mayor of Hot Springs that he would not leave Corbett and Fitzsimmons for that place until a sufficient sum of money is raised by the citizens of this city and deposited in some responsible man's hands to defray all the legal expenses that may arise.

WHAT AN EDITORIAL!

In the Lafayette, Ind., Daily Call.

The Editor of This Newspaper Tells a Strange Story.

And Vouches for its Absolute Truth and Accuracy.

Prominence of Paper and Startling Nature of Facts

Make Article of Vast Interest to the Public.

"Jacob J. Reitemeyer," says the Lafayette (Ind.) Daily Call, of Jan. 15th, the well-known compositor in the Call news room, son of one of our oldest and best known German citizens, has a daughter just three years old last Saturday, who almost from her birth, has been afflicted with spinal meningitis, and has just experienced a recovery which is little short of miraculous.

"Mr. and Mrs. Reitemeyer were three years ago made the proud parents of twin sisters, one of whom died on the 5th of June two years ago, with spinal meningitis. The latter part of the same month her surviving twin sister was attacked with the disease in a most aggravated form. The family had the constant services throughout the whole summer of some of our best physicians, three of whom in turn examined and attended the cases. The child was unable to walk, almost unable to move, and entirely helpless.

"The physicians, one and all, agreed that the case was hopeless, that nothing could be done for this child. Their opinion was that she would never be cured, and probably would soon die. From everything done for her she experienced no benefit, and the physicians, candidly stating that they could do nothing for the cure of the child, were dismissed, and beyond mild domestic treatment, rubbing with alcohol, etc., to alleviate immediate symptoms, nothing was done for her, and the sad-hearted parents only waited the summons which they felt must soon come for her final release from her afflictions.

"This matter went on for about a year, the little one changing, if at all, only for the worse, and steadily but surely going down. One year this month, Mr. Reitemeyer informs us, attracted by the advertisement of Dr. Greene's Nervina blood and nerve remedy, in the Call, he and his wife finally concluded to try it, though with but very slender hopes of deriving any benefit. There was a decided improvement in the child's condition with the use of the first bottle, which continued during the second, and before the third bottle was all used the child was able to walk upright, and apparently cured. Thereupon the use of the medicine was discontinued, and has not been resumed.

"In the year which has since elapsed the child has grown to be as fat and healthy and active a little one as any parent could wish to see, and Mr. and Mrs. Reitemeyer say they feel beyond a doubt that the use of Dr. Greene's Nervina blood and nerve remedy saved her life. The case is certainly a very remarkable one, and the well-known and reliable character of the parties gives it special importance and significance.

"This is indeed a most wonderful cure, and a great triumph for Dr. Greene's Nervina, and occurring as it did in the Daily Call's official family, the fact will have the greatest weight in influencing all who are sick or ailing to use this truly marvelous restorer of health. This great remedy should not be classed with ordinary patent medicines, as it is the discovery of a successful physician who has the largest practice in the world among nervous and chronic diseases. Dr. Greene, of 35 West 14th St., New York City. He can be consulted without charge in regard to any case, personally or by letter, by all who use the medicine.

DESPITE OFFICIAL WARNINGS

Preparations Are Being Made for a "Soft Glove Contest" at Hot Springs.

HOT SPRINGS, Oct. 15.—Everybody is hopeful that the big fight will take place, and preparations for the mill are being pushed rapidly. Brady arrived Saturday evening from San Antonio, and does not appear in the least disconcerted by the attitude of the governor. He has telegraphed Corbett: "Come on at once; everything fixed; protection guaranteed." Brady says Corbett will arrive tomorrow morning, and will go into training at once.

In order to comply with the state laws, the articles of agreement of the Florida Athletic club will be changed from a finish fight to a limited number of rounds, the referee being vested with power to stop the contest when in his opinion it becomes brutal. The contestants are to box with soft gloves. The attempt to pull off the fight will be made at Whittington Park.

The French Expedition of 1900.

WASHINGTON, Oct. 15.—Ambassador Patenotre has returned from France with a large fund of information concerning the international exposition of 1900, which is to be held in Paris on a scale befitting the advent of a new century. The French government is in charge of the undertaking, and the ambassador will communicate an official invitation of his government to the United States and to individual exhibitors to take part in the exposition. The exposition will open April 15, 1900, and will last until Nov. 5. The French government has begun the extensive work incident to an advent of this magnitude.

Kept This Vow to Do Murder.
SAVANNAH, Oct. 15.—Sheriff L. B. Brooker was shot and killed at Gold, five miles from Savannah, by Sol and Callie Zeigler. The killing is the result of a quarrel which began a year ago when Brooker and George Zeigler, father of the two boys who did the shooting, got into a difficulty on the Savannah train, in which Zeigler was killed and Brooker badly wounded. Since that time the two Zeigler boys have been searching for Brooker, having sworn to kill him on sight.

Charged with Killing a Postmaster.
FORT WAYNE, Ind., Oct. 15.—James Cunningham, Charles Yetter and a man named Thompson are under arrest here charged with the murder of Postmaster George Singer, in Danvers, on Sept. 16. Singer, who was 72 years old, slept alone over his store. On the night mentioned he was robbed and murdered. The next morning he was found dead in his bed, with his hands and feet bound and his head pounded to a pulp.

Woman Killed in a Highway Accident.
ALTONA, Pa., Oct. 15.—Howard Hite was taking his sister, Mrs. Joseph Croft, and three children in a buggy from Ronsburg Springs, this county, to their home in Taylor township, when the horses took fright and ran away. Mrs. Hite, his sister and one child were thrown out with great violence, Mrs. Croft being instantly killed and the others all seriously injured.

THE KOREAN UPRIISING.

Reports of the Affair Received by the Japanese Minister.

LANDING OF FOREIGN MARINES.

Warships of Russia, the United States and Great Britain send Armed Representatives Ashore—The Report of the Queen's Assassination Credited at Washington.

WASHINGTON, Oct. 15.—Information of the formidable uprising in Korea, resulting in the disappearance and probable death of the queen, and the landing of pillory forces by the United States and European powers, has been received by Minister Kurino, of Japan, from the foreign office at Tokio. It is quite sensational, indicating the landing of marines by Russia, the United States and probably Great Britain.

The latest dispatch to Minister Kurino states that a force of Russian marines, forty in number, have been landed. That they have confined themselves to guarding the Russian legation at Seoul.

United States marines were landed from the Yorktown to the number of sixteen. It is believed also that British marines have been landed. Besides these the Japanese have a considerable force of soldiers at Seoul, who have been preserving order. The dispatches come from Tokio, and contain the substance of dispatches received from General Muira, the Japanese envoy at Seoul. They are dated from the 8th to the 12th inst. It appears from these dispatches that the trouble had its inception through the queen's dislike of the newly organized soldiers of Korea. The old soldiers had the primitive equipment of the far east, but with the progress of Japanese influence in Korea two battalions of Korean troops were organized on modern methods. Each battalion numbered 600 men, armed with modern weapons. They were well drilled and officered.

When the queen showed her disfavor toward these new troops they appeared to the King Won Kun, a powerful chief who has long been at enmity with the queen. He accepted the leadership of the new troops, and at the head of one battalion entered the queen's palace. The Tokio dispatches do not state specifically what became of the queen, further than that she has disappeared and cannot be located. The officials are inclined to believe, however, that the unofficial reports of the queen's death are true. The Japanese government, the dispatches further state, has acted quickly on the reports, and has appointed a commission to inquire into the facts.

In the meantime it is emphatically denied that the queen's death, if it has occurred, was due to the Japanese. One report is that a Japanese soldier killed the queen. This is not yet confirmed in the dispatches received here. The Japanese believe the Soshis are an irresponsible and lawless set, and that their acts cannot be laid to the Japanese people's government.

General Muira's reports also cover the work of Japanese troops in preserving order. These troops were stationed opposite the palace, having secured this point of vantage some time since through the Korean government. They took no part in the attack on the palace, but after it had occurred, when the native troops were fleeing and the new battalions were entering their success in capturing the palace, the Japanese troops aided in preventing bloodshed and disorder. It is probable that some deaths occurred during the rioting. Following this came the landing of United States and Russian marines, and, as is believed, the landing of the British.

The latest indications are that the Tai Won Kun and the king are in control of affairs at the Korean capital. The king has been the nominal ruler, but the queen has heretofore been recognized as the real ruler. The influence of the king and the Tai Won Kun are distinctly favorable to the Japanese.

At the Korean legation here no word has been received from the disturbed capital. The officials are much exercised, and do not doubt that the queen has met her death, although they are not ready to abandon hope. In case official confirmation is received there will be such formal economy as is usual on the death of a sovereign. The legation will go into mourning, but there is not likely to be a funeral service, although this has been considered as a further mark of respect.

Desperate Battle with a Thief.

SEATTLE, Wash., Oct. 15.—As a result of an attempt to arrest John Conner for the alleged robbery of \$10 from Benford Bousser, a sailor, while in Daniel McNamara's saloon, Policeman John Corbett is lying at the point of death in the Providence hospital, his body covered with knife wounds. Conner is also dying from a bullet wound made by the policeman's pistol. In jail are Bousser, with knife wounds in his hand, held as a witness, and McNamara with a bullet in his arm. Conner stabbed the policeman and the sailor, and Corbett shot the suspected thief and the saloon keeper. The policeman has fourteen bad wounds and his nose is almost slashed off.

Honolulu Fears an Invasion.

SAN FRANCISCO, Oct. 15.—Steamer China, just arrived from Honolulu, says that cholera has about run its course in that city. But one case has been reported since the last mail, making a total of eighty-seven to date. The board of health has lifted the local quarantine, and freight of all descriptions can be sent to the neighboring islands. Passenger travel is still restricted. Ellingston expeditions are now attracting the attention of the people. The government has received word that armed invaders may be expected at any time.

The Lower California Cyclone.

SAN FRANCISCO, Oct. 15.—The Merchant's Exchange has received official news from Guaymas concerning the recent storm. The message states that the Mexican schooner Comet is a total loss, and her captain was drowned. The vessel went ashore near Atamuro, fifteen miles south of Altata. Sixteen coasting vessels in all, including the schooner Cesar, were wrecked at La Paz. One hundred and eighty-four houses were destroyed in La Paz, and five lives were lost.

Trenton Against a Street Railway.

TRENTON, Oct. 15.—Samuel Bennett yesterday received a verdict for \$3,500 and Charles Cooper \$1,450 in a damage suit against the Trenton Passenger Railroad company. Last May Cooper's horse was shocked by an electric current. The horse was injured and the wagon and harness demolished. Bennett was thrown out of the wagon and had his leg broken.

From LaGrippe.

How Dr. Miles' Nervine Restored One of Kentucky's Business Men to Health.

No DISEASE has ever presented so many peculiarities as LaGrippe. No disease leaves its victims so debilitated, useless, sleepless, nervous, as LaGrippe.

Mr. D. W. HILTON, state agent of the Mutual Life Insurance Co. of Kentucky, says: "In 1899 and '90 I had two severe attacks of LaGrippe, the last one attacking my nervous system with such severity that my life was despaired of. I had not slept for more than two months except by the use of narcotics that stupefied me, but gave me no rest. I was only conscious of intense mental weakness, agonizing bodily pain and the fact that I was hourly growing weaker."

When in this condition, I commenced using Dr. Miles' Restorative Nervine. In two days I began to improve and in one month's time I was cured, much to the surprise of all who knew my condition. I have been in excellent health since and have recommended your remedies to many of my friends."
