Too Much Shooting.

The people of Turkey Run complain that after dark every pay day men make a practice of discharging firearms when traveling along the road from town to that place and women and children fear to travel along the road. The peace disturbers walk with the weapons in their hands frequently and fire shots indiscriminately when the spirits move them. It is considered remarkable that no person has been shot, and it is feared there will be serious results if the practice is not broken up.

Fry IT in Cottolene

Fry your food in Cottolene instead of lard and it will be free from that greasiness and "richness" so distressing to dyspeptics; the flavor will be delicious instead of rancid, and your food will do you good. Put it in a cold pan, heating it with the pan. Cottolene reaches the cooking point much quicker than lard—care should therefore be taken not to overheat it. Follow these instructions—you will never use lard again.

Genuine Cottolene has trade-marks—"Cottolene" and steer's head in cotton-plant wreath—on every tin.
